Three iconic novels about an unforgettable schoolmaster and a timeless utopia by the award-winning, New York Times–bestselling author. Goodbye, Mr. Chips: Throughout his tenure at an English boys’ school, stern Arthur Chipping has shaped many young lives. But Mr. Chips has been inspired as well—by the social changes of his country and, not least, by his students. Based on Hilton’s experiences at the Leys School, Cambridge, this novel is an enduring testament to the difference one good teacher can make. “A tender and gentle story as warming to the heart and as nourishing to the spirit as any I can remember.” —Alexander Woollcott, The New Yorker To You, Mr. Chips: When James Hilton penned his beloved Goodbye, Mr. Chips, he drew on his own formative years at a Cambridge boarding school. In this collection, he adds to the legend of Mr. Chips through exquisite short stories, as well as autobiographical sketches of his experience with the English public school system during the first half of a tumultuous century. Mr. Chips is “one of the most endearing creations of modern fiction” (The Daily Telegraph). Lost Horizon: When British diplomat Hugh Conway’s plane crashes in the Himalayas, he and fellow survivors are led to the hidden valley of Shangri-La, a paradise kept secret for more than two hundred years. In this idyll, where inhabitants live for centuries amid peace and harmony, the visitors must face the daunting prospect of returning home to a world about to be torn open by war. “One of the century’s most enduring literary mysteries.” —The Guardian

Minou, unwilling to accept her mother's death, attempts to find the truth through Descartes' philosophy. Parvati is young, beautiful and seemingly doomed; blooming early yet unable to find lasting love. Orphaned in adolescence and adopted by her headmaster uncle, Parvati escapes the constraints of this temporary home but, like many young women before her, finds a new prison in marriage. For, while there is passion to be found in early encounters, she is soon married to someone she can never truly be satisfied with. So when Mukul Nainwal, the local boy who has always loved her, returns to Nainital, he finds Parvati changed—she is a new challenge to his ideals, despite all his worldly success. The tale of these two exiles is a study in unrequited love, with its terrible irony and tragic urgency. "A thoughtful read perfect for this moody season." —Wall Street Journal "A must-read for anyone reckoning with where we are now and where we will go next." —Erin Swan, author of Walk the Vanished Earth "Beautiful, moving, vast in its spiritual and emotional scope . . ." —Angela Mi Young Hur, author of Folklorn, NYT Best Sci-Fi and Fantasy Novel of 2021 Six suns, six blasts in the sky; a seventh one, and the earth will die. In the isolation of the Himalayas, the snows still fall, but they are tinged with the ash of a nuclear winter; the winds still blow, but they wail with the cries of ghosts. The seventh and final blast is near. As the world heaves its final breaths, the people of the Tibetan

plateau—civilization's final survivors—are haunted by spirits and terrorized by warlords. Though the last of the seven prophesied cataclysms is at hand, young Karma searches for a father who disappeared ten years earlier, presumed dead. Driven by a yearning to see his father again before the end, and called by an eerie horn unheard by anyone else, Karma forges into the Himalayas and discovers that his father's disappearance may be linked to a mystical mountain said to connect the physical world with the spirit lands—and a possible way to save their doomed future. Based on extensive ethnographic fieldwork conducted in the Central Himalayan region of Kumaon, Tales of Justice and Rituals of Divine Embodiment draws on oral and written narratives, stories, testimonies, and rituals told and performed in relation to the "God of Justice," Goludev, and other regional deities. The book seeks to answer several questions: How is the concept of justice defined in South Asia? Why do devotees seek out Goludev for the resolution of matters of justice instead of using the secular courts? What are the sociological and political consequences of situating divine justice within a secular, democratic, modern context? Moreover, how do human beings locate themselves within the indeterminateness and struggles of their everyday existence? What is the place of language and ritual in creating intimacy and self? How is justice linked to intimacy, truth, and being human? The stories and narratives in this book revolve around Goludev's own story and deeds, as well as hundreds of petitions (manauti) written on paper that devotees hang on his temple walls, and rituals (jagar) that involve spirit possession and the embodiment of the deity through designated mediums. The jagars are powerful, extraordinary experiences, mesmerizing because of their intensity but also because of what they imply in terms of how we conceptualize being human with the seemingly limitless potential to shift, alter, and transform ourselves through language and ritual practice. The petitions, though silent and absent of the singing, drumming, and choreography that accompany jagars, are equally powerful because of their candid and intimate testimony to the aspirations, breakdowns, struggles, and breakthroughs that circumscribe human existence.

Based on the true life exploits of a World War II pilot flying the dangerous route over the Himalayas, the book brings to light a little known facet of World War II. "Flying the Hump" was the name given by American pilots to flying over the treacherous air currents of the Himalayas during World War II. It was an extremely dangerous but necessary route American pilots traveled to bring vital material to Chinese troops in China, and American, and other Allied forces in the Pacific. The material transported, critical to the Allied war effort in the early days enabled the Allies to persist while the industrial might of the United States was retooling.--Publisher.

As a Canadian medical student, Karen Trollope-Kumar went to India to study social and preventive medicine and met a young pediatrician named Pradeep. His dream of working in the Himalayan foothills captured her imagination, and the man captured her heart. They married in a Hindu wedding ceremony and pledged to share a life of service and spiritual growth. In this poignant, heartwarming, and gently humorous memoir, Karen recounts an eleven-year chapter of their unusual lives. She and Pradeep worked as medical doctors in the Himalayas, first in a rural hospital and later in remote mountain villages. When disaster struck — an assassination, an earthquake, a political crisis — their ideals, their safety, and their relationship are put at risk. The Cloud Messenger is a story of adventure and idealism, culture and medicine, faith and love, and it raises enduring questions: How can we cross religious and cultural boundaries? What happens to our dreams in the face of danger and disillusionment? And when dreams diverge, when one spouse can no longer continue on a certain path, what path do we choose?

Colonialist, nationalist, and regionalist ideologies have profoundly influenced folk music and related musical practices among the Garhwali and Kumaoni of Uttarakhand. Stefan Fiol blends historical and ethnographic approaches to unlock these influences and explore a paradox: how the œfolk designation can alternately identify a universal stage of humanity, or denote alterity and subordination. Fiol explores the lives and work of Gahrwali artists who produce folk music. These musicians create art as both a discursive idea and as a set of expressive practices across strikingly different historical and cultural settings. Juxtaposing performance contexts in Himalayan villages with Delhi recording studios, Fiol shows how the practices have emerged within and between sites of contrasting values and expectations. Throughout, Fiol presents the varying perspectives and complex lives of the upper-caste, upper-class, male performers spearheading the processes of folklorization. But he also charts their resonance with, and collision against, the perspectives of the women and hereditary musicians most affected by the processes. Expertly observed, Recasting Folk in the Himalayas offers an engaging immersion in a little-studied musical milieu.

These events and others have led to much public discussion about how Sherpas today are treated and viewed by their Western employers. Sherpa expands our understanding of these issues by providing historical context. The autobiography of Ang Tharkay, who was born in 1908 and became one of the most renowned Sherpas of early Himalayan exploration, has long been a collector's item in the original French-language edition but it has never been available in English until now. In Sherpa, Tharkay describes his experiences traveling with Eric Shipton and H.W. Tilman and as the sirdar (head Sherpa) on Maurice Herzog's 1950 ascent of Annapurna. Few such Sherpa accounts have been written, and fewer still from these early Himalayan expeditions. Opening with a brief account of Tharkay's childhood and background, Sherpa then immerses readers in expeditions on Everest, Nanga Parbat, and, of course, Annapurna. Tharkay reveals some of the politics within the Sherpa support teams: petty arguments and shared struggles that went unnoticed or at least unrecorded by those who hired them. Tharkay's admiration of his employers is leavened with his recognition of their shortcomings, but his affection for the climbers who employed him, and theirs for him, radiates throughout the story. Sherpa includes an original foreword by Tashi Sherpa, founder of Sherpa Adventure Gear and the nephew of Ang Tharkay. He remembers how he and his young cousins worshipped "Agu" (Uncle) as a respected mountaineer and hero, a warm and safe presence for the family. This title is part of our LEGENDS AND LORE series.
