Tribe of Light Jones & Bartlett Learning "This fun, breezy guide positions the authors as both experts and the reader's best friends, encouraging, advising, and cheering on." —Publisher's Weekly As a registered dietitian and a

health industry expert, Ilyse Schapiro and Hallie Rich are "Dear Abby" meets Sex and the City meets Dr. Oz. They're realistic in their approach with—out getting too technical. They know people will cheat on their diets, dine out, consume alcohol, and have (hopefully plenty of) sex. They also know people have questions about it all. (Who doesn't?) While many

people may feel comfortable asking their best friend, they really want expert advice. That's where Should I Scoop Out My Bagel? will help. Based on their twenty-five years of combined experience in the health field, Schapiro and Rich are able to cover the multitude of questions that constantly top the list, including: Is eating a wrap healthier than eating a bagel sandwich? Is it time to get on the gluten-

free bandwagon? I have salads for lunch every day, and I'm still not losing weight. What am I doing wrong? I'm tired of feeling tired. What can I do to lose the urge to snooze? I eat well, so what's the point of a multivitamin? They reveal the secrets of the experts and the tricks of their respective trades. With so much information and so many "rules" out there, this book gives

readers the tools to sort through the BS and know what is truly important and actually relevant to their health. **100 Questions & Answers About Celiac Disease and Sprue: A Lahey Clinic Guide** Jones & Bartlett Learning An estimated 2 million people in the United States have Celiac disease, or about 1 in 133 people. 100 Questions and Answers about Celiac Disease: A Lahey Clinic

Guide provides answers to the most common questions asked by patients and family members, especially parents of those children suffering from the disease. *An Authentic Guide To The Rulings* Jones & Bartlett Learning If you or a loved one suffers from panic attacks, this book offers help. The only text to provide both the doctor's and patient's point of view, 100 Questions &

Answers About Panic Disorder gives you authoritative, practical answers to your questions about the causes and treatment of panic disorder, as well as advice on coping with panic attacks, sources of support, and much more. Written by Carol W. Berman, MD, a prominent psychiatrist specializing in the treatment of panic disorder, with commentary from a patient, this book is an

invaluable resource for understanding and coping with the medical, psychological, and emotional turmoil of this frightening and often debilitating condition.

100 QUESTIONS AND ANSWERS ABOUT SPORTS NUTRITION & EXERCISE

Charisma Media If you restrict, binge, purge, excessively diet or weigh yourself, exercise compulsively, or engage routinely and

obsessively in any other food or weight related behaviors, this book will help you find the road to recovery. The authors, one a former patient of the other, both have their own histories battling the disorder. Interweaving personal narrative with the perspective of their own therapist-client relationship, their insights bring an unparalleled depth of awareness into just what

it takes to successfully beat this clinical issue.

100 QUESTIONS & ANSWERS ABOUT PANIC DISORDER

Jones & Bartlett Learning In the spirit of books like *Salt, Fat, Acid, Heat* and *Food Lab*, an informative, entertaining, and essential guide to taking your kitchen smarts to a higher level—from two food world professionals (a chef and a writer). When

food writer Matt Rodbard met chef Daniel Holzman while covering the opening of his restaurant, The Meatball Shop, on New York's Lower East Side, it was a match made in questions. More than a decade later, the pair have remained steadfast friends—they write a popular column together, and talk, text, and DM about food constantly. Now, in *Food IQ*, they're sharing their passion and

deep curiosity for home cooking, and the food world zeitgeist, with everyone. Featuring 100 essential cooking questions and answers, *Food IQ* includes recipes and instructions for a variety of dishes that utilize a wide range of ingredients and methods. Holzman and Rodbard provide essential information every home cook needs on a variety of cooking fundamentals, including: Why does pasta

always taste better in a restaurant? (The key to a perfect sauce is not pasta water, but a critical step involving . . . emulsification.) When is it okay to cook with frozen vegetables? (Deep breath. It's very much OK, but only with certain types.) What is baker's math, and why is it the secret to perfect pastry every time? (It uses the weight of flour as the constant and . . . we have a handy chart for you.)

Rodbard and Holzman also offer dozens of delicious recipes, such as Oyakodon--Chicken and Eggs Poached in Sweet Soy Sauce Dashi, The Cast Iron Quesadilla That Will Change the Way You Quesadilla, and 40 Minute Red Sauce. Throughout this culinary reference guide and cookbook readers can expect to find both wisdom and wit, as well as stunning photos and illustrations, and

illuminating conversations with notable chefs, writers, and food professionals such as Ina Garten, Roy Choi, Eric Ripert, Helen Rosner, Thérèse Nelson, Priya Krishna, and Claire Saffitz. From grilling to sous vide, handmade pasta to canned fish, and deconstructing everything from salt and olive oil to organic produce and natural wine, Food IQ is a one-stop shop for foodies and home

cooks, from novices to the most-adventurous culinarians.
