THE MOST DANGEROUS CINEMA

Picador

Winner of the History of Science Society's Watson Davis and Helen Miles Davis Prize in the History of Science. From the early exploits of Teddy Roosevelt in Africa to blockbuster films such as March of the Penguins, Gregg Mitman's Reel Nature reveals how changing values, scientific developments, and new technologies have come to shape American encounters with wildlife on and off the big screen. Whether crafted to elicit thrills or to educate audiences about the real-life drama of threatened wildlife, nature films then and now have had an enormous impact on how Americans see, think about, consume, and struggle to protect animals across the globe. The Capybaras University of Washington Press

This book is the first major attempt to examine the cultural manifestations of the demise of imperialism as a social and political ideology in post-war Britain. Far from being a matter of indifference or resigned acceptance as is often suggested, the fall of the British Empire came as a profound shock to the British national imagination, and resonated widely in British popular culture. The sheer range of subjects discussed, from the satire boom of the 1960s to the worlds of sport and the arts, demonstrates how profoundly decolonisation was absorbed into the popular consciousness. Offers an extremely novel and provocative interpretation of post-war British cultural history, and opens up a whole new field of enquiry in the history of decolonisation.

People hunting people for sport--it's an idea both shocking and fascinating. In 1924 Richard Connell published a short story that introduced this concept to the public zeitgeist, where it has remained embedded ever since--as evidenced by the many big- and small-screen adaptations and inspirations. Since its publication, Connell's award-winning "The Most Dangerous Game" has been continuously anthologized and studied in classrooms throughout America. Raising questions about the nature of violence and cruelty, and the ethics of hunting for sport, the thrilling story spawned a new cinematic subgenre, beginning with RKO's 1932 production of *The Most Dangerous Game*, and continuing right up into the new millennium with 2004's *The Eliminator*. *The Most Dangerous Cinema* examines in-depth all the cinematic adaptations of the iconic short story, with each film chapter containing the following subsections: "Synopsis," "How 'Dangerous' Is It?," "Analysis," "Production History," and "Credits." Photos, a bibliography, and four appendices ("Almost Dangerous Games," "Dangerous Game Shows and Deadly Diversions," "Dangerous Alien Games," and "Television Adaptations and Inspirations") are included.

#1 Bookscan in Juvenile Non-fiction! – Be Brave... Stay Wild!
Animal Stories for Kids: Coyote Peterson's Brave Adventures: Wild Animals in a Wild World chronicles some of the wildest encounters Coyote Peterson has had over the course of his travels. The stories begin with his first snapping turtle catch as a kid and lead down a trail of incredible moments he and his camera crew have had while filming their Brave Wilderness shows. From a giant alligator that nearly caught Coyote in its bone crushing jaws, to an 800 pound Grizzly Bear that helped him teach the audience what to do and NOT do if you ever encounter one of these enormous predators in the wild, every tale is laced with fast paced action and daring adventure. With the presence of danger often looming for Coyote, each story reminds the reader that animals rule the wild places of this planet, and if we respect them from a safe distance, even the most frightening creatures are more likely to be afraid of us than we should ever be of them. Exciting animal stories for kids of all ages: This collection of short stories aims to give the reader a first-person perspective into

some of Coyote's most harrowing and heartwarming adventures.

BRITISH CULTURE AND THE END OF EMPIRE

Thomas Nelson

FOLLOWING IN THE FOOTSTEPS OF GREAT NATURE WRITERS SUCH AS E.O. WILSON AND CHARMING MEMOIRS LIKE GERALD DURRELL'S MY FAMILY AND OTHER ANIMALS, THIS FASCINATING BOOK WILL ALTER THE WAY WE THINK ABOUT BUMBLEBEES. Dave Goulson became obsessed with wildlife as a small boy growing up in rural Shropshire, starting with an increasingly exotic menagerie of pets. When his interest turned to the anatomical, there were even some ill-fated experiments with taxidermy. But bees are where Goulson's true passion lies—the humble bumblebee in particular. Once commonly found in the marshes of Kent, the English short-haired bumblebee went extinct in the United Kingdom, but by a twist of fate still exists in the wilds of New Zealand, the descendants of a few pairs shipped over in the nineteenth century. Dave Goulson's passionate quest to reintroduce it to its native land is one of the highlights of a book that includes original research into the habits of these mysterious creatures, history's relationship with the bumblebee, and advice on how to protect the bumblebee for future generations. One of the United Kingdom's most respected conservationists and the founder of the Bumblebee Conservation Trust, Goulson combines lighthearted tales of a child's growing passion for nature with a deep insight into the crucial importance of the bumblebee. He details the minutiae of life in the nest, sharing fascinating research into the effects intensive farming has had on our bee population and the potential dangers if we are to continue down this path.

Fabien Cousteau and two junior explorers embark on a mission to rescue endangered sea turtles in the coral reefs of Maui, Hawai'i, in this next brightly illustrated installment of the Fabien Cousteau Expeditions graphic novel series. Fabien Cousteau came to Maui, Hawai'i for a vacation, but when he hears that endangered sea turtles are in trouble, he knows he has to help! Junior explorers Baylor and Bianca join Fabien and local conservationists on their mission to rescue these turtles from ghost nets—fishing nets that have been left adrift in the ocean and tangle up anything that strays into their path. During their dive, they'll also encounter sharks, humpback whales, dolphins, seals, eagle rays, octopi, and the vibrant variety of wildlife that lives among the coral reefs of Molokini Bay. Can the team save these injured turtles in time? Dive deep into this colorful and informative graphic novel adventure that brings readers up close and personal with the sea creatures of the vast and beautiful Pacific Ocean. Along the way, kids will also see how pollution and climate change can impact

entire underwater ecosystems and find actionable steps that they can take to reduce waste and protect these precious reefs.

TALKING TICO

Scholastic Inc.

Jungle Jack is the completely revised and updated authorized biography of one of our most beloved zookeepers, Jack Hanna. When the Columbus Zoo hired Jack Hanna as executive director in 1978, he inherited an outdated zoo where all the animals were caged and the buildings were run down. With the kind of work ethic and enthusiasm he's become known for, Hanna brought new life to the zoo, transforming it into the state-of-the-art facility it is today. It was an achievement for which he was well prepared:

Hanna was only eleven years old when he got his first job with animals—cleaning cages for the family vet. As a newlywed, he and his wife, Suzi, ran a pet shop and petting zoo, and he later worked for a wildlife adventure outfit. You've probably seen Hanna as a wildlife correspondent with his animal friends on The Late Show with David Letterman, Larry King Live, Entertainment Tonight, and Hannity & Colmes. Full of unpredictable animal escapades and the occasional tragedy, this book takes readers on an enjoyable safari through the life of "Jungle" Jack Hanna.
