The Next Elvis Open Letter Books

An American institution, Sun Records has a history with many chapters -- its Memphis origins with visionary Sam Phillips, the breakthrough recordings of Elvis Presley, and the studio's immense influence on the sound of popular music. But behind the company's chart toppers and legendary musicians there exists another story, told by Barbara Barnes Sims. In the male-dominated workforce of the 1950s, 24-year-old Sims found herself thriving in the demanding roles of publicist and sales promotion coordinator at Sun Records. Sims's job placed her in the studio with Johnny Cash, Roy Orbison, Jerry Lee Lewis, Charlie Rich, Carl Perkins, and other Sun entertainers, as well as the unforgettable Phillips, whose work made the music that defined an era. *The Next Elvis: Searching for Stardom at Sun Records* chronicles Sims's career at the studio, a pivotal time at this recording mecca, as she darted from disc jockeys

to distributors. Sims not only entertains with personal stories of big personalities, but also brings humor to the challenges of a young woman working in a fast and tough industry. Her disarming narrative ranges from descriptions of a disgraced Jerry Lee Lewis to the remarkable impact and tragic fall of DJ Daddy-O Dewey to the frenzied Memphis homecoming of Elvis after his military service. Collectively, these vignettes offer a rare and intimate look at the people, the city, and the studio that permanently shifted the trajectory of rock 'n' roll.

Four Years Beneath the CrescentThese are the memoirs of a Venezuelan mercenary officer in the Ottoman army during WWI. He fought on the Caucasian, Iraqi, and Palestine fronts. He was involved in the siege of Van, and witnessed much of the genocide against Armenians in 1915.Reports of the TownWar and Children After-school programs, scout groups, community service activities, religious youth groups, and other community-based activities have long been thought to play a key role in the lives of adolescents. But what do we know about the role of such programs for today's adolescents? How can we ensure that programs are designed to successfully meet young people's developmental needs and help them become healthy, happy, and productive adults? Community Programs to Promote Youth Development explores these questions, focusing on essential elements of adolescent well-being and healthy development. It offers recommendations for policy, practice, and research to ensure that

programs are well designed to meet young people's developmental needs. The book also discusses the features of programs that can contribute to a successful transition from adolescence to adulthood. It examines what we know about the current landscape of youth development programs for America's youth, as well as how these programs are meeting their diverse needs. Recognizing the importance of adolescence as a period of transition to adulthood, Community Programs to Promote Youth Development offers authoritative guidance to policy makers, practitioners, researchers, and other key stakeholders on the role of youth development programs to promote the healthy development and well-being of the nation's youth.

LE PATRIMOINE SCOLAIRE : SA SAUVEGARDE ET SA VALORISATION

State University of New York Press
The first major biography of one of Old Hollywood's greatest directors. Sometime partner of the eccentric Howard Hughes, drinking buddy of William Faulkner and Ernest Hemingway, an inveterate gambler and a notorious liar, Howard Hawks was the most modern of the great masters and one of the first directors to declare his independence from the major studios. He played Svengali to Lauren Bacall, Montgomery Clift, and others, but Hawks's greatest creation may have been himself. As *The Atlantic Monthly* noted, "Todd McCarthy. . . . has gone further than anyone else in sorting out the truths and lies of the life, the skills and the insight and the self-deceptions of the work." "A fluent biography of the great director, a frequently rotten guy but one whose artistic independence and standards of film morality never failed." —*The New York Times Book Review*
"Hawks's life, until now rather an enigma, has

been put into focus and made one with his art in Todd McCarthy's wise and funny *Howard Hawks*."

—*The Wall Street Journal*

"Excellent. . . . A respectful, exhaustive, and appropriately smartass look at Hollywood's most versatile director."

In this book, Nobel Peace Prize winner and Maya activist Rigoberta Menchú Tum returns to the world of her childhood. *The Honey Jar* brings us the ancient stories her grandparents told her when she was a little girl, and we can imagine her listening to them by the fire at night. These Maya tales include creation myths, a classic story about the magic twins (which can also be found in the *Popol Vuh*), explanations of how and why certain natural phenomena came to exist, and animal tales. The underworld, the sky, the sun and moon, plants, people, animals, gods and demi-gods are all present in these stories, and through them we come to know more about the elements that shaped the Mayas' understanding of the world. Rich and vibrant illustrations by noted Mazatec-Mexican

artist Domi perfectly complement these magical Maya tales. Catastrophic risks are much greater than is commonly appreciated. Collision with an asteroid, runaway global warming, voraciously replicating nanomachines, a pandemic of gene-spliced smallpox launched by bioterrorists, and a world-ending accident in a high-energy particle accelerator, are among the possible extinction events that are sufficiently likely to warrant careful study. How should we respond to events that, for a variety of psychological and cultural reasons, we find it hard to wrap our minds around? Posner argues that realism about science and scientists, innovative applications of cost-benefit analysis, a scientifically literate legal profession, unprecedented international cooperation, and a pragmatic attitude toward civil liberties are

among the keys to coping effectively with the catastrophic risks.

We often focus on how our gifts can help those in need. But the act of giving actually improves our own lives as well. In *The Giving Way to Happiness*, Jenny Santi overturns conventional thinking about what it takes to be happy by revealing how giving to others - whether in the form of money, expertise, time, or love - has helped people from all walks of life find purpose and joy. Drawing on the wisdom of great thinkers past and present, as well as cutting-edge scientific research, Santi makes an eloquent and passionate case that oftentimes the answers to the problems that haunt us, and the key to the happiness that eludes us, lie in helping those around us. This book is filled with

inspiring stories told firsthand by Academy Award winner Goldie Hawn, Noble Peace Prize winner Muhammad Yunus, supermodel Christy Turlington Burns, Teach for America founder Wendy Kopp, philanthropist Richard Rockefeller, environmentalist Philippe Cousteau, activist Ric O'Barry, bestselling author Isabel Allende, ALS survivor Augie Nieto, and many others from all over the world. Despite their diverse backgrounds, they have all found unexpected happiness and fulfillment through giving. This book tells us not just how they changed the world but also how their acts changed their very own lives. In addition, Santi reveals- How altruism involves far more than suppressing basic selfish urges. Rather, we are wired to give, as it activates the same pleasure centers of the brain stimulated by food, sex, and drugs How helping others - whether by walking a friend through a struggle that you've also experienced or by supporting a cause to honor a loved one's memory - can be a healthy way to deal with adversity and process grief The unexpected

reasons why those who 'gave it all up' to make a difference, and who face the direst situations, are nevertheless some of the happiest, most fulfilled, and least angst-ridden people you'll ever meet. Practical, universally applicable lessons on what kind of giving makes people happy and what doesn't. How do you discover giving that is unique to you and makes you feel good? In this inspiring book, Santi turns conventional wisdom upside down about what it takes to be happy and reveals the surprising reasons that have led so many people to live lives full of meaning, purpose and happiness. 'The Giving Way to Happiness is full of interesting insights from big-ticket philanthropists and prominent personalities, but it is also about something bigger- how we can all find happiness through helping others. If done right, giving may well be the greatest gift you can give yourself.' Adam Grant, professor, The Wharton School, University of Pennsylvania, and New York Times-bestselling author of *Give and Take* This thoughtful look at philanthropy honestly examines the self-interest

often involved in it and suggests that a self-focused approach to giving may in fact be entirely appropriate.' Publishers Weekly 'Well done! A wonderful and timely contribution.' Christy Turlington Burns, founder of Every Mother Counts 'The Giving Way to Happiness will change the way you approach giving, shifting the focus from charity to empathy, from a one-way transfer to a mutually beneficial act, from guilt and obligation to pleasure and happiness. Jenny Santi, through her well-researched, eloquent, and insightful book, teaches us how we can help ourselves by helping others.' surrounding the issue of human freedom. Kierkegaard's views here have been largely ignored by modern English-speaking philosophers. Through the combined efforts of eleven philosophers and scholars this book endeavours to fill the gap by giving a clear presentation of Kierkegaard's position on such things as radical choice, autonomy, freedom and anxiety, necessity and fate, and self-deception, all the while critically assessing his contributions to one of philosophy's most perplexing problems. *Contributions to European Parliamentary History* London, Faber First English translation of Sini's important work on the influence of writing and the alphabet on Western rationality.
