(Guitar Method). Play great jazz while you learn from this revered guitar method! These solos and

duets map directly to the lessons in William Leavitt's Modern Method for Guitar, Volume 1, the basic guitar text at Berklee College of Music. Since the 1960s, the Modern Method for Guitar series has been one of world's most popular guitar methods, translated into Spanish, French, and Japanese, and selling over half a million copies. Carefully overseen by Larry Baione, chair of Berklee's Guitar Department (and a former student of William Leavitt), these arrangements are crafted to Leavitt's time-proven approach, giving you the chance to apply what you learn to music by Miles Davis, Duke Ellington, Sonny Rollins, Django Reinhardt, and other jazz greats. The accompanying audio demonstrates all the tunes and offers play-along tracks for practicing the duets. Songs include: Afternoon in Paris * Basin Street Blues * A Child Is Born * Daphne * Here's That Rainy Day * In a Sentimental Mood * My Little Suede Shoes * St. Thomas * Samba De Orfeu * So What * Swing 42 * Valse Hot * The Very Thought of You * When I Fall in Love * Willow Weep for Me. The audio examples are accessed online using the unique code inside each book and can be downloaded or streamed according to personal preference. The files also include PLAYBACK+, a multi-functional audio player that allows you to slow down audio without changing pitch, set loop points, change keys, and pan left or right.

The Jazz Saxophone Book Outskirts Press

Written by a jazz teacher for jazz teachers, The Real Jazz Pedagogy Book is based on the premise that successful jazz teachers must be constantly working four main areas: 1) the wind instruments--including tone production, intonation, and section playing skills; 2) playing styles correctly--such as rhythmic and time feel approach, articulation approach, and phrasing; 3) the rhythm section--playing the instruments, time feel and concept, coordination of comping, harmonic voicings, drum fills and setups, stylistic differences; and 4) the soloists--developing improvisational skills (both right brain and left brain), jazz theory, the ballad soloist, and the vocal soloist. Ray Smith, who has taught

and directed jazz ensembles, including the acclaimed Brigham Young University group, Synthesis, and given private lessons for over forty years, also discusses the details of running school programs. Smith's YouTube channel complements The Real Jazz Pedagogy Book.

Kenny Werner is an accomplished pianist who began to perform at age 4 and by age 11 had appeared on television. While at the Manhattan School of Music, he became restless with his musical direction and began to explore Jazz as new means of creativity and expression. Along his journey, he was inspired by the masters of the craft to rethink not only the technical aspects of creativity, but also the spiritual aspects. Effortless Mastery is not only an account of that journey, but also an insightful guide for all those wishing to remove their own barriers to creativity in life and the arts. While Mr. Werner happens to be a musician, the concepts presented here are applicable to every profession, aspiration, or lifestyle where there is a need for free-flowing effortless thinking.

Jazz: Research and Pedagogy is the third edition of an annotated bibliography to books, recordings, videos, and websites in the field of jazz. Since the publication of the 2nd edition in 1995, the quantity and quality of books on jazz research, performance, and teaching materials have increased. Although the 1995 book was the most comprehensive annotated jazz bibliography published to that date, several books on research, performance, and teaching materials were omitted. In addition, given the proliferation of new books in all jazz areas since 1995, the need for a new, comprehensive, and annotated reference book on jazz is apparent. Multiply indexed, this book will serve as an excellent tool for librarians, researchers, and scholars in sorting through the massive amount of new material that has appeared in the field over the last decade.
