How the new conspiracists are undermining democracy—and what can be done about it Conspiracy theories are as old as politics. But conspiracists today have introduced something

new—conspiracy without theory. And the new conspiracism has moved from the fringes to the heart of government with the election of Donald Trump. In *A Lot of People Are Saying*, Russell Muirhead and Nancy Rosenblum show how the new conspiracism differs from classic conspiracy theory, how it undermines democracy, and what needs to be done to resist it.

Conspiracy Films BoD - Books on Demand

For many years, conspiracy theories have been among the most

popular story elements in Hollywood films. According to the “conspiracy culture,” Government, Big Business, the Church, even aliens—all of which, bundled together, comprise the ubiquitous “Them”—are concealing some of the biggest secrets in American and world history. From *The Manchurian Candidate* (1962) to JFK (1991), *The Matrix* (1999) to *The Da Vinci Code* (2006), this decade-by-decade history explores our fascination with paranoia. The work paints a vivid picture of several of the more prevalent

conspiracy theories and the entertainment they have inspired, not only in theatrical films but also in such television series as *The X-Files*, *Lost* and *V*.

The Legends of many cultures claim that the world was once destroyed in a cataclysmic flood. Many cultures also claim that someday the world will again be destroyed in a similar fashion. In the Bible we are told that the disciples once asked Jesus if there would be a warning sign prior to this destructive event. He said that there would indeed a sign. Jesus said that whatever was happening in the Days of Noah will happen again before the end of this age. The Bible has only a few verses about Noah's Flood. So we are forced to turn to the ancient flood legends of over 350 other cultures to learn more about this prophecy. But Noah's days did not end with the flood, he lived for many years afterward. He saw the creation of a tower in Babylon. This is interesting because the Freemasons claim that their Order originated here. Here is the most thorough examination of Freemasonry ever undertaken, using their own texts, to solve the Days of Noah prophecy.

Aliens and the Antichrist Flat EarthA History of Strange Tales, Bizarre Beliefs, and Conspiracy Theories about the Earth's Surface Mars--a planet of endless mystery and wonder! Humanity for centuries has had a strange fascination for the enigma that is Earth's sister world. Author Rob Shelsky takes us to the red planet and tries to uncover the truth about the paradox that is Mars. He offers answers to such basic questions as: How did Mars come to be? Are there ruins on Mars? Are Ancient Alien theorists right about Mars? How might the Anunnaki be involved with the red

planet? Did another civilization once occupy our neighboring world? Was Earth, as some scientists theorize, populated by life from Mars? Is there ancient evidence of a terrible war or catastrophe on the planet? Are aliens still occupying Mars? Are humans really from Earth? Did Mars once have a different orbit and if so, why? Is the moon, Phobos hollow as some mainstream scientists would have us believe? Phobos, in reality, is it some sort of extraterrestrial spaceship? Is there one or more advanced alien species still alive on Mars? Do we need to fear our neighboring planet and what secrets it may yet hold? Are there secret human bases on Mars? Is there a secret space fleet? The author also delves into a number of the main conspiracy theories surrounding Mars. He gives the facts supporting each one, as well as the problems they have. If you want a book that tells what we know about Mars now, as well as what we think we might know, this book is for you! The author is at pains to give the facts, state his opinion, but always leaves it to the reader finally to decide for him or herself. Did Mars once have life, even intelligent life? Does it now? Do we need to fear the idea of Martians or aliens? Rob Shelsky does his best to answer these questions and some of those answers just might surprise you! What's more, they may even alarm you!

In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Conspiracy Theories Simon and Schuster

Aliens. Ley lines. Water dowsing. Conspiracies and myths captivate imaginations and promise mystery and magic. Whether it's arguing about the moon landing hoax or a Frisbee-like Earth drifting through space, when held up to science and critical thinking, these ideas fall flat. In *Weird Earth: Debunking Strange Ideas About Our Planet*, Donald R. Prothero demystifies these conspiracies and offers answers to some of humanity's most outlandish questions. Applying his extensive scientific knowledge, Prothero corrects misinformation that con artists and quacks use to hoodwink others about geology--hollow earth, expanding earth, and bizarre earthquakes--and mystical and paranormal happenings--healing crystals, alien landings, and the gates of hell. By deconstructing wild claims such as prophesies of imminent natural disasters, Prothero provides a way for everyone to recognize dubious assertions. Prothero answers these claims with facts, offering historical and scientific context in a light-hearted manner that is accessible to everyone, no matter their background. With a careful layering of evidence in geology, archaeology, and biblical and historical records, Prothero's *Weird Earth* examines each conspiracy and myth and leaves no question

unanswered.

The Mojave Desert's Mysterious Secrets Indiana University Press

The most academically credible case for alien visitation. Is the existance of civilisation on earth the result of contact from inhabitants of a planet in the system of the star Sirius prior to 3000BC? There are tribal cultures in present-day Africa whose most sacred and secret and traditions are based on this theory. Central to their cosmology is a body of knowledge concerning the system of the star Sirius that is astounding in its accuracy of detail, including specific information only recently accessible to modern science. Robert Temple traces the traditions of the Dogon and three related tribes back 5, 000 years to the ancient Mediterranean cultures of Sumer and Egypt. He shows a knowledge dependent on physics and astrophysics, which they claimed was imported to them by visitors from Sirius.

A HISTORY OF STRANGE TALES AND BIZARRE BELIEFS ABOUT THE PLANET

Perennial Press

Conspiracy is a political thriller that will leave you breathless.

Synopsis: Jake the lobbyist and Billy the congressman know the game of power is rigged. They want to know by whom. They can't trust the media, and can't trust the information Billy is fed as a congressman. And they certainly can't trust conspiracy theories, which they find hopelessly naive. So to crack the big puzzle, they recruit a team of freelance spies. A ten-thousand dollar a night DC hooker, a teenage hacker, and an ex-KGB surveillance expert help them spy on the world's leaders, who turn out to be puppets. They find the puppet masters and set out to learn their agenda. Jake and the hooker fall for each other. They joke that they are in a James Bond movie without M to answer to. But the joke fades as they learn that they themselves are puppets of the conspirators, who control nearly all the events of the world. What Readers are Saying: "The best thriller of 2013 " "Drama, danger, romance, conspiracy theories... all in one book. Brilliant " "A captivating conspiracy thriller that will leave you on the edge of your seat." "Conspiracy is a political thriller that feels so real... it's action, adventure, mystery, intrigue, drama, romance - all in one novel." Excerpt: "Look, I'm sick of hearing about your FEMA camps. I don't believe it." "No, really, you should see the videos. They've got

barbed wire all around, thousands of coffins stacked up, cells with electronic card readers. But nobody's there. It's creepy. I didn't believe it either until I started looking around on the web. There are hundreds of them all over the country. Jesse Ventura's talking all about it." "Yeah, yeah. I saw it. But didn't some guys debunk it on Prison Planet dot com? I think what's really happening is the chemtrails. It's all over the web. I mean, just go outside and look up. Some days there are dozens of them criss-crossing the sky. They last for a really long time. Normal contrails wouldn't do that. They say they're spraying us with barium or something, to reduce the population, or control the weather, some shit like that." If there's anything remarkable about this conversation, it is how commonplace it is. Once considered an inconsequential fringe group, conspiracy theorists are now a demographic to be reckoned with. The World Trade Center towers were brought down by controlled demolition. The government is covering up UFO's. Illuminati are running the Federal Reserve. You hear it in shopping malls. You hear it in the stands at little league games. You even hear it in a DC bar where a banking industry lobbyist is having drinks with a new congressman from California. "Did you hear this one?" asked Jake the lobbyist. "Kennedy was killed because he was about to blow the whistle on the aliens." "Yeah, whoever came up with that was probably dumbed-down by chemtrails," said Billy the congressman. "Yeah, I have a hard time with the chemtrail idea. I mean, wouldn't they rain down on the Illuminati along with the rest of us?" "So you don't think there's such a thing as Illuminati? What about the Trilateral Commission, the Bilderburg group, Skull and Bones, the Bohemian Grove, all of those?" "Well if they're so smart they've been running things for hundreds of years, do you think you'd ever know about them?" "Do you think 9/11 was an inside job?" Jake asked. "It wouldn't surprise me, but it wouldn't surprise me if it wasn't either. What I am pretty sure of is, the information we get, even in congress, is so controlled that it's just a waste of time to try to figure out what's going on by reading it. And the general public doesn't have a chance in hell of ever getting to the bottom of anything. All those conspiracy theory websites are just as full of shit as the main stream media.""

THE LIFE, WORK AND IDEAS OF CHARLES FORT

McFarland

A heart-wrenching romance full of twists that are sure to bring tears to readers' eyes, from Cat Jordan, author of *The Leaving Season*. How long does it take to travel twenty light years to Earth? How long does it take to fall in love? To the universe, eight days is a mere blip, but to Matty Jones, it may be just enough time to change his life. On the hot summer day Matty's dad leaves for good, a strange girl suddenly appears in the empty field next to the Jones farm—the very field in rural Pennsylvania where a spaceship supposedly landed fifty years ago. She is uniquely beautiful, sweet, and smart, and she tells Matty she's waiting for her spaceship to pick her up and return her to her home planet. Of course she is. Matty has heard a million impossible UFO stories for each of his seventeen years: the conspiracy theories, the wild rumors, the crazy belief in life beyond the stars. When he was a kid, he and his dad searched the skies and studied the constellations. But all of that is behind him. Dad's gone—but now there's Priya. She must be crazy...right? As Matty unravels the mystery of the girl in the field, he realizes there is far more to her than he first imagined. And if he can learn to believe in what he can't see: the universe, aliens...love...then maybe the impossible is possible, after all.

Is ELVIS ALIVE?

A great American crank, in the best sense of the word, Charles Hoy Fort (1874-1932) spent his life hunting down reports of "anomalous phenomena"—"damned" events such as rains of frogs, cattle mutilations, and UFO sightings—and studying them from a true outsider's perspective, one that characterized even objective science as wearing blinders in its approach to them. In this modern classic of analytical biography, Colin Bennett examines not only the life of this one-man investigator of real-life X-Files but his work as well, likening him to such diverse figures that loom in the cultural imagination as Lee Harvey Oswald and Shakespeare's Hamlet. A must-read for fans of the strange, this riveting book explores why the 20th century, which gave rise to conspiracy-theory philosophies and widespread distrust of social authority, embraced Fort so wholly that his name has been immortalized in the adjective "Fortean." In the course of a delightfully misspent youth, COLIN BENNETT was employed as both a musician and as a mercenary soldier. He was far better at the second than at the

first. Educated at Balliol College, Oxford, he is the author of the novels *Infantryman* and *The Entertainment Bomb*, and paranormal nonfiction including *Looking for Orthon*, a biography of George Adamski; *Politics of the Imagination*, a biography of Charles Fort; and *An American Demonology*, about the head of the 1950s UFO-hunting agency Project Blue Book.

Angels, Aliens and Prophecy Red Adept Publishing, LLC

*Includes pictures *Includes online resources and a bibliography for further reading The world is filled with mysteries, and even in the modern age, much of the planet remains unexplored. The depths of the oceans and the intricate and extensive cave systems that honeycomb some parts of the Earth are still largely unknown. Thus, it should come as no surprise that when it comes to this terra incognita, people have projected all sorts of ideas. Tales of sunken cities or lost civilizations are just some of the fanciful theories, and those could even be considered tame in comparison to the idea that Earth is flat. Despite this notion being rejected by the scientific community for millennia, and despite the fact that geology, volcanology, oceanography, and physics have all proven that the planet is not flat, the idea of a hollow Earth continues to intrigue people and gain eager and sincere adherents. This is made all the more remarkable by the fact that space programs are more than 60 years old, and people can fly around the world on planes in a matter of hours. Taken at face value, this idea is patently ridiculous, but it provokes strong emotions in some people, sincere people who have thought extensively about their beliefs. These people feel they are privy to a hidden truth, and that the rest of the world is wrong and ignorant, but this feeling of mental superiority isn't the only appeal in clinging to radical notions. There is also the thrill of adventure, the feeling that one is part of a dangerous minority attempting to overthrow the dominant paradigm. It is far better, some would feel, to live in a world full of mystery and hope, than a decaying, "rational" world where everything can be explained but nothing solved. *Flat Earth: A History of Strange Tales, Bizarre Beliefs, and Conspiracy Theories about the Earth's Surface* offers a sampling of the many strange stories and theories regarding the planet's surface. Along with pictures of important people, places, and events, you will learn about the theories like never before. Lulu Press, Inc

Is it possible ancient aliens and time travelers have changed time lines and events? Absolutely, says Lewis who investigated these enigmatic subjects for the past forty years. In 1983, Lewis uncovered surprising information about her UFO encounters from the hypnosis session conducted by renowned UFO investigator Ann Druffel, included in the book. A secret was given to Lewis as a child, but erased from her memory until recently. She reveals the secret, her startling predictions for 2012 and beyond, and the connection between angels and aliens. Our moon is an enigma. The ancients viewed it as a light to guide them in the darkness, and a god to be worshipped. In modern times, it has been taught that the Moon is simply a dead rock that is caught in Earth's gravity, with no activity. As a researcher of metaphysical, paranormal and cosmic subjects, I have come across stories and information about the Moon that tell us that indeed there is activity there, and there has been for generations. Just who or what is causing the commotion is a mystery. There are stories that suggest that the Moon is home to extraterrestrials, theories that it is not a natural satellite, tales of anomalous lights, and tales that NASA astronauts saw extraterrestrial ships and ruins of an ancient civilization there. There is a rumor that Apollo13 was saved by extraterrestrials. Another story states that there are extraterrestrial bases on the Moon. There is even a tale that states that a part of the kingdom of Atlantis was once located there. Some even believe that there

are cities beneath the surface of the Moon. There is an interesting account of a government employee using remote viewing as a means of seeing what is on the Moon. His experience is eye-opening! This is just a sample of the information that will be in *The Encyclopedia of Moon Mysteries: Secrets, Conspiracy Theories, Anomalies, Extraterrestrials and More*. For example, did you know that: • Aristotle and Plato wrote about a time when there was no Moon? They even gave a name of an ancient tribe of people that lived during that moonless period. • several of the NASA astronauts reported seeing UFOs while traveling to the Moon? • the Moon might be hollow? • Apollo 10 astronauts heard strange "space music" when traveling on the far side of the Moon? • strange and unexplained lights have been seen on the Moon for centuries? • there are said to be ruins of structures on the Moon? • there is an ancient tale that suggests that the first human was created on the Moon? • that radio signals have been

detected coming from the Moon? • that famed astronomer Sir John Herschel saw unidentified lights above the Moon during an eclipse? • that ancient Bolivian symbols tell us that the Moon came into Earth's orbit around 12,000 years ago? • a psychic was used by the government to relay information about the Moon? The book is separated into A to Z sections for easy reference and reading.
