The People's Advocate is the  
autobiography of American*

Constitutional Trial Attorney Daniel Sheehan. Sheehan traces his personal journey from his working-class roots through Harvard Law School and his initial career in private practice. His early disenchantment led to his return for further study at Harvard Divinity School, and rethinking the nature of his career. Eventually his role as President and Chief Trial Counselor for the famous Washington, D.C.-based Christic Institute would help define his role as America's preeminent cause lawyer. In *The People's Advocate*, Sheehan details "the inside story" of over a dozen historically significant American legal cases of the 20th Century, all of which he litigated. The remarkable cases covered in the book include both The Pentagon Papers Case in 1971 and The Watergate

Burglary Case in 1973. In addition, Sheehan served as the Chief Attorney on The Karen Silkwood Case in 1976, which additionally revealed the C.I.A.'s Israeli Desk had been smuggling 98% bomb-grade plutonium to the State of Israel and to Iran. In 1984, he was the Chief Trial Counsel on The American Sanctuary Movement Case, establishing the right of American church workers to provide assistance to Central American political refugees fleeing Guatemalan and Salvadorian "death squads." His involvement with the sanctuary movement ultimately led to Sheehan's famous Iran/Contra Federal Civil Racketeering Case against the Reagan/Bush Administration, which he investigated, initiated, filed, and then litigated. The resulting "Iran/Contra

Scandal" nearly brought down that Administration, leading Congress to consider the impeachment over a dozen of the top-ranking officials of the Reagan/Bush Administration. The People's Advocate is the "real story" of these and many other historic American cases, told from the unique point of view of a central lawyer.

From a young age Albie Sachs played a prominent part in the struggle for justice in South Africa. As a result he was detained in solitary confinement, tortured by sleep deprivation and eventually blown up by a car bomb which cost him his right arm and the

sight of an eye. His experiences provoked an outpouring of creative thought on the role of law as a protector of human dignity in the modern world, and a lifelong commitment to seeing a new era of justice established in South Africa. After playing an important role in drafting South Africa's post-apartheid Constitution, he was appointed by Nelson Mandela to be a member of the country's first Constitutional Court. Over the course of his fifteen year term on the Court he has grappled with the major issues confronting modern South Africa, and the challenges posed to the fledgling democracy as it sought to overcome the injustices of the apartheid regime. As his term on the Court approaches its end, Sachs here conveys in intimate fashion what it has been like

to be a judge in these unique circumstances, how his extraordinary life has influenced his approach to the cases before him, and his views on the nature of justice and its achievement through law. The book provides unique access to an insider's perspective on modern South Africa, and a rare glimpse into the working of a judicial mind. By juxtaposing life experiences and extracts from judgments, Sachs enables the reader to see the complex and surprising ways in which legal culture transforms subjective experience into objectively reasoned decisions. With rare candour he tells of the difficulties he has when preparing a judgment, of how every judgment is a lie. Rejecting purely formal notions of the judicial role he shows how both reason and passion (concern for

protecting human dignity) are required for law to work in the service of justice. *Discourses Upon Holy Scripture* Fine Print PressLtd

The perfect gift for the lawyers in your life -- for law school graduation, birthdays, firm holiday gifts, retirement, or just because. More than 70 vignettes from life in the practice of law are rendered here as wryly humorous poems. Each one stands alone as the sort of snapshot one lawyer might forward along to another for a laugh or a knowing nod. Together, they comprise a collection to be treasured by anyone who has lived through law school, first jobs, thrilling victories, eye-opening disappointments, and the lifestyle particular to this career choice. This book is not about laughing at lawyers.

It's about laughing with them. It's for everyone who's in on the joke: Everyone who has witnessed the madness and met the quirky characters in this field. Everyone who, even just for a second, has wondered if they should have gone to medical school, culinary school... anything other than law school. Everyone who has ever sat down at the end of an evening and thought, "No one would even believe me if I told them about my day." We believe you. Editorial reviews: "In many of the poems, the authors capture perfectly the oddities of law practice and law school. 'Sisterhood' may be one of the most insightful poems that could be enjoyed within any profession. These poems... took the mundane and made it soar." - Arizona Bar Association "A book of candid truths

and palpable honesty, with a sincerity that can only come from experience." - North Carolina Bar Association "A must-read for lawyers persisting in long-term practice who like to keep it light, who continue to muse on the sometimes bizarre world in which a lawyer finds himself or herself, and who simply enjoy a good poem." - Colorado Bar Association Featured on Above the Law and Bitter Lawyer. Named the SmallLaw Pick of the Week by TechnoLawyer. (Authors donate a portion of book proceeds to WomensLaw.org, The WomensLaw Project of the National Network to End Domestic Violence.)

Spiritual development is an individual perception where we all must search for personal growth and for maximizing our capacities. We are not able to share our minds with anybody. From the first till the last breath of life we need other people to be a part of our life. We need a human connection to survive and thrive. Some people retreat themselves to a state of hermitic life. They escape from

the world by searching for the inner self in places hidden from others. Every person has had or will have times when he/she wants to be alone. There is a need to get your mind focused and clear and being alone can help to reach that target. The time we need to alone vary from person to person.

Are you alive? What makes you so sure? Most people believe this question has a clear answer—that some law defines our status as living (or not) for all purposes. But they are dead wrong. In this pioneering study, Elizabeth Price Foley examines the many, and surprisingly ambiguous, legal definitions of what counts as human life and death. Foley reveals that “not being dead” is not necessarily the same as being alive, in the eyes of the law. People, pre-viable fetuses, and post-viable fetuses have different sets of legal rights, which explains the law's seemingly inconsistent approach to stem cell

research, in vitro fertilization, frozen embryos, in utero embryos, contraception, abortion, homicide, and wrongful death. In a detailed analysis that is sure to be controversial, Foley shows how the need for more organ transplants and the need to conserve health care resources are exerting steady pressure to expand the legal definition of death. As a result, death is being declared faster than ever before. The "right to die," Foley worries, may be morphing slowly into an obligation to die. Foley's balanced, accessible chapters explore the most contentious legal issues of our time—including cryogenics, feticide, abortion, physician-assisted suicide, brain death, vegetative and minimally conscious states, informed consent, and advance

directives—across constitutional, contract, tort, property, and criminal law. Ultimately, she suggests, the inconsistencies and ambiguities in U.S. laws governing life and death may be culturally, and perhaps even psychologically, necessary for an enormous and diverse country like ours. After several years as a small-town lawyer in Alpena, Frank J. Kelley was unexpectedly appointed Michigan's attorney general at the end of 1961. He never suspected that he would continue to serve until 1999, a national record. During that time, he worked with everyone from John and Bobby Kennedy to Bill Clinton and jump-started the careers of dozens of politicians and

public figures, including U.S. Senator Carl Levin and Governors James Blanchard and Jennifer Granholm. In The People's Lawyer: The Life and Times of Frank J. Kelley, the Nation's Longest-Serving Attorney General, Kelley and co-author Jack Lessenberry reflect on the personal and professional journey of the so-called godfather of the Michigan Democratic Party during his incredible life and thirty-seven years in office. The People's Lawyer chronicles Kelley's early life as the son of second-generation Irish immigrants, whose father, Frank E. Kelley, started out as a Detroit saloon keeper and became a respected Democratic Party leader. Kelley tells of becoming the first of his family to go to college and law school, his early days as a lawyer in northern Michigan, and how

he transformed the office of attorney general as an active crusader for the people. Among other accomplishments, Kelley describes establishing the first Office of Consumer Protection in the country, taking on Michigan's public utility companies, helping to end racially restrictive real estate practices, and helping to initiate the multibillion-dollar Tobacco Master Settlement Agreement in 1998. Kelley frames his work against a backdrop of the social and political upheaval of his times, including the 1967 Detroit riots, the disappearance of Jimmy Hoffa, and the assassinations of John F. Kennedy, Robert F. Kennedy, and Martin Luther King, Jr. All those interested in American history and legal history will enjoy this highly readable, entertaining account of Kelley's life of public service.

Michael Ratner (1943-2016) was one of America's leading human rights lawyers. He worked for more than four decades at the Center for Constitutional Rights (CCR) becoming first the Director of Litigation and then the President of what Alexander Cockburn called "a small band of tigerish people." He was also the President of the National Lawyers Guild. Ratner handled some of the most significant cases in American history. This book tells why and how he did it. His last case, which he worked on until he died, was representing truth-telling whistleblower and now political prisoner Julian Assange, the editor of WikiLeaks. Ratner "moved the bar" by organizing some 600 lawyers to successfully defend

habeas corpus, that is, the ancient right of someone accused of a crime to have a lawyer and to be brought before a judge. Michael had a piece of paper taped on the wall next to his desk at the CCR. It read: 4 key principles of being a radical lawyer: 1. Do not refuse to take a case just because it is long odds of winning in court. 2. Use cases to publicize a radical critique of US policy and to promote revolutionary transformation. 3. Combine legal work with political advocacy. 4. Love people. Compelling and instructive, *Moving the Bar* is an indispensable manual for the next generation of activists and their lawyers.

'Public theology' involves the application

of biblical and theological principles outside the confines of the church and assesses their implications for wider society. It examines both the theoretical structures of society (the nature of secularity, government, globalisation, pluralism and so forth) and the myriad specific issues involved in daily life (everything from sport to work-place relations to economics). Public theology is also, very importantly, a discipline that is practiced by the 'ordinary' Christian as well as the academic, and it is done in public (with all the scrutiny that entails) and in such a way that it communicates to non-Christians (although it remains a theological endeavour). In a real sense it is theology for the world, from the Word, by the people of God. The volume has a variety of contributors and includes an

article on the role of public theology in Islam.

We live in a moral world in which reasons come in different kinds as well as different weights, so that the claims of one reason upon us are often different from but no greater than the claims of some other reason. Yet law, in its self-presentation and in theoretical accounts of it, proceeds as if its rational pull was conclusive, as if there were no sensible alternative to compliance with its terms.

In itself that should not be surprising: each of us often acts as if the reasons that animate us were morally determinative. Why should law operate in any other way? Yet we know that in fact reasons are usually not determinative of action, and while pretence to the contrary may not much matter in individual settings, it matters very much in the setting of the law. The ability of the law to build a life in common, of whatever kind, is dependent on its ability to function, most of the time at least, as if its claims were pre-eminent, rather than undefeated at best. If law is to succeed in its basic project of binding people to its aims, it must buttress its limited rational claims with arational appeals. It needs partners, not only in the prudential considerations that

force gives rise to, but also in the beguilement that shared imaginings make possible. This book is an exploration of those partnerships, in principle and in their most important details.

How to restore the can-do spirit that made America great, from the author of the best-selling *The Death of Common Sense*. Americans are losing the freedom to make sense of daily choices—teachers can't maintain order in the classroom, managers are trained to avoid candor, schools ban tag, and companies plaster inane warnings on everything: "Remove Baby Before Folding Stroller." Philip K. Howard's urgent argument is full of examples, often darkly humorous. He describes the historical and cultural

forces that led to this mess and lays out the basic shift in approach needed to fix it. Today we are flooded with legal threats that prevent us from taking responsibility. We must rebuild boundaries of law that protect an open field of freedom. The voices here will ring true to every reader. The analysis is powerful, and the solution unavoidable. What's at stake, Howard explains in this seminal book, is the vitality of American culture.

Where have we come from and where do we go? Why are human beings born? Are our lives just random events or do they have some greater purpose? What is the meaning of death? Nichiren Buddhism, based on the Lotus Sutra, is a teaching

of hope that provides answers to these and other important questions for modern life. Ranked among the most important works in Mahayana Buddhism, Nichiren's 13th-century writings were revolutionary. They sought to give people a deep sense of confidence and self-reliance in this lifetime by exploring the topics of death and eternal life. In his *The Heritage of the Ultimate Law of Life*, Nichiren explains the ultimate Buddhist view, which frees people from both their fear of death and their unhealthy attachment to self. Daisaku Ikeda's simple and straightforward commentary brings alive this important writing for the modern world. Lawyers, You Can Revitalize Your Career Starting Today. Whether you are in law school or a senior partner at an Am Law 100 firm, this book can help you revitalize your career to find the perfect job and create your ideal career.

Benjamin Barton, a law professor at the University of Tennessee, in his recent book on the legal profession, stated that only "44 percent of BigLaw lawyers report satisfaction with their careers." According to a 2014 Gallup poll, only 32.4% of professionals in the United States were engaged with their jobs. And over 15% were actively disengaged. There is a disconnect between lawyer's passions and their work. Some lawyers detest their jobs. Others tolerate their work for the paycheck. Either way, these lawyers are detached and dissatisfied with their jobs. They desire something deeper and more meaningful in their work and career. This book can help you revitalize your career and achieve success, prosperity, and personal fulfillment. Success, prosperity, and

personal fulfillment as you, and only you, define those terms. The Professional Prosperity For Lawyers System Through the career revitalization system in this book, you will use your strengths to achieve goals reflecting your personal vision of an ideal career. You will explore jobs aligned with who you are and create a career path you have only dreamed of pursuing. Your career revitalization is based on two central premises. First, lawyers must view their career as a business. Whether you are a lawyer at the largest law firm in the world or are a sole practitioner, you are a business. Your career should be run like a business. Second, run your business as an entrepreneur if you want to be successful, prosperous, and personally fulfilled. If you want to realize your

dreams of a perfect job and ideal career, the career revitalization process provides the framework. Use the framework, follow the process, and take the actions. You will get your perfect job and create your ideal career. A career giving you the freedom to do the work you want to do. When you want to do it. And, with the people you want to do it with. Imagine getting up in the morning looking forward to your day. Being rested and full of energy. Controlling your schedule. Working on projects that interest and excite you. This career revitalization system is grounded in the

practices, processes and actions of many lawyers who are successful, prosperous and personally fulfilled. You will live your dreams by implementing the career revitalization process. Why I Can Help You Revitalize Your Career I had a successful legal career, developed a book of business over \$3.5 million, was an equity partner at two Am Law 100 firms, was an in-house counsel at a publicly traded investment bank, went from in-house counsel to a law firm partner and left the law on several occasions. Most importantly, I know how you can achieve success, prosperity and personal fulfillment, and I have a strong desire to help you discover the path to your ideal career and life. I also endured decades of boredom and stress as a practicing lawyer. I disliked much of my

work and was frequently disengagement from it. Substance abuse, bouts of depression, divorce, and financial issues are part of my career story. And, consideration of suicide on more than one occasion. I could not enjoy the fruits of my career "success" story. I am now on a mission. A mission to help you create an epic career of success, prosperity and personal fulfillment. Now is the time to take action. Start today by buying and reading this book.

Law is intended to apply to common life and should be comprehensible to ordinary folk, but increasingly, it is not. The meaning of the law is becoming inaccessible, not only to the public but to the bar itself. In *The Life of the Law*, Alfred H. Knight outlines how some of the main contours of American law came to be as he recounts twenty-one stories beginning with Alfred the Great in the

late ninth century and ending with the Rodney King trials in 1993. Knight gives us a veritable "biography" of our legal tradition by focusing on the key individuals, and the pivotal cases that have helped to mold the law as we know it today. *The Life of the Law* finds a riveting story behind each historic decision and recounts the tales with both narrative flair and ironic wit. The law is a living organism, constantly changing as new cases are decided, building on and modifying decisions that went before. Every case, no matter how lofty the principles involved, represents a human drama, a clash of competing desires. Alfred Knight's reflections on how twenty-one of these cases have left their mark on our society will inform and fascinate anyone interested in the law.
