Characters in some languages, particularly Hebrew and Arabic, may not display properly due to device limitations. Transliterations of terms appear before the representations in foreign characters. This is an encyclopedic dictionary of close to 400 important philosophical, literary, and political terms and concepts that defy easy—or any—translation from one language and culture to another. Drawn from more than a dozen languages, terms such as Dasein (German), pravda (Russian), saudade (Portuguese), and

stato (Italian) are thoroughly examined in all their cross-linguistic and cross-cultural complexities. Spanning the classical, medieval, early modern, modern, and contemporary periods, these are terms that influence thinking across the humanities. The entries, written by more than 150 distinguished scholars, describe the origins and meanings of each term, the history and context of its usage, its translations into other languages, and its use in notable texts. The dictionary also includes essays on the special characteristics of particular languages—English, French, German, Greek, Italian, Portuguese, Russian, and Spanish. Originally published in French, this one-of-a-kind reference work is now available in English for the first time, with new contributions from Judith Butler, Daniel

Heller-Roazen, Ben Kafka, Kevin McLaughlin, Kenneth Reinhard, Stella Sandford, Gayatri Chakravorty Spivak, Jane Tylus, Anthony Vidler, Susan Wolfson, Robert J. C. Young, and many more. The result is an invaluable reference for students, scholars, and general readers interested in the multilingual lives of some of our most influential words and ideas. A 2019 YALSA Best Fiction for Young Adults Selection A 2018 New York Public Library Best Book for Teens Macy's school officially classifies her as "disturbed," but Macy isn't interested in how others define her. She's got more pressing problems: her mom can't move off the couch, her dad's in prison, her brother's been kidnapped by Child Protective Services, and now her best friend isn't speaking to her. Writing in a dictionary format, Macy explains the world in her own terms-- complete with gritty characters and outrageous endeavors. With an honesty that's both hilarious and fearsome, slowly Macy reveals why she acts out, why she can't tell her incarcerated father that her mom's cheating on him, and why her best friend needs protection . . . the kind of protection that involves Macy's machete.

English You Need for the Office

Dictionary Princeton University Press

"Features more than 10,000 entries that focus exclusively on words that, while outside most people's working vocabulary, are often encountered in literature, in technical writings such as computing or medical terminology, and in such diverse subject areas as law, philosophy, and art. Special attention is given to easily confused or closely related words. Usage notes are provided to ensure that readers know how to integrate these words into their vocabularies for more precision and power in speech and writing."--Back cover. *Using a Dictionary 2* Cambridge University Press

Focuses on building vocabulary that is used when looking for work and while on the job.

The Dictionary of Lost Words Central European University Press

"We visit the ugly corrugated iron structure that Murray grandly dubbed the Scriptorium -- the Scrippy or the Shed, as locals called it -- and meet some of the legion of volunteers, from Fitzedward Hall, a bitter hermit obsessively devoted to the OED, to W.C. Minor, whose story is one of

dangerous madness, ineluctable sadness, and ultimate redemption. The Meaning of Everything is a scintillating account of the creation of the greatest monument ever erected to a living language. Simon Winchester's supple, vigorous prose illuminates this dauntingly ambitious project -- a seventy-year odyssey to create the grandfather of all word-books, the world's unrivaled uber-dictionary. Book jacket."--Jacket.

ENGLISH FOR EVERYDAY ACTIVITIES

Oxford : Clarendon Press ; Oxford ; New York : Oxford University Press
This Biographical Dictionary describes the lives, works and aspirations of more than 150 women and men who were active in, or part of, women's movements and feminisms in Central, Eastern and South Eastern Europe. Thus, it challenges the widely held belief that there was no historical feminism in this part of Europe. These innovative and often moving biographical portraits not only show that feminists existed here, but also that they were widespread and diverse, and

included Romanian princesses, Serbian philosophers and peasants, Latvian and Slovakian novelists, Albanian teachers, Hungarian Christian social workers and activists of the Catholic women's movement, Austrian factory workers, Bulgarian feminist scientists and socialist feminists, Russian radicals, philanthropists, militant suffragists and Bolshevik activists, prominent writers and philosophers of the Ottoman era, as well as Turkish republican leftist political activists and nationalists, internationally recognized Greek feminist leaders, Estonian pharmacologists and science historians, Slovenian 'literary feminists,' Czech avant-garde painters, Ukrainian feminist scholars, Polish and Czech Senate Members, and many more. Their stories together constitute a rich tapestry of feminist activity and redress a serious imbalance in the historiography of women's movements and feminisms.

In a linguistic climate that is hyperaware of so-called language death, dictionaries have been touted as stalwarts for language preservation. When wielded by communities undertaking language revitalization, dictionaries can be designed to facilitate reversing language shift and fostering linguistic innovation. Indeed, dictionaries' reputation as multifunctional reference materials make them adaptable to a wide variety of community needs. Revitalization Lexicography provides a detailed account of creating a dictionary meant to move a once-sleeping language into a language of active daily use. This unique look under the hood of lexicography in a small community highlights the ways in which the dictionary was intentionally leveraged to shape the Tunica language as it inevitably changes throughout revitalization. Tunica, one of the heritage languages of the Tunica-Biloxi Tribe of Marksville, Louisiana, has been undergoing active revitalization since 2010. The current generation of speakers

began learning Tunica, a once-sleeping language, through written documentation. Now enough Tunica speakers to confer amongst themselves when questionable language use arises. Marrying both the theoretical and the practical aspects that contributed to the Tunica dictionary, this book discusses complex lexicographic tasks in a manner accessible to both academic and community readers. This work is firmly backdropped in a fieldwork approach that centers the community as owners of all aspects of their revitalization project. This book provides concrete and practical considerations for anyone attempting to create a dictionary. Contrasting examples from Tunica and English dictionaries, this book challenges readers to rethink their relationship to dictionaries in general. A must-read for anyone who has ever touched a dictionary.
