Girls' Feminist Blogging in a Postfeminist Age explores the practices of U.S.-based teenage girls who actively maintain feminist blogs and participate in the feminist blogosphere as readers, writers, and commenters on platforms including Blogspot, Facebook, Twitter, and Tumblr. Drawing on interviews with bloggers between the ages of fifteen and twenty-one, as well as discursive textual analyses of feminist blogs and social networking postings authored by teenage girls, Keller addresses how these

girls use blogging as a practice to articulate contemporary feminisms and craft their own identities as feminists and activists. In this sense, feminist girl bloggers defy hegemonic postfeminist and neoliberal girlhood subjectivities, a finding that Keller uses to complicate both academic and popular assertions that suggest teenage girls are uninterested in feminism. Instead, Keller maintains that these young bloggers employ digital media production to educate their peers about feminism, connect with like-minded activists, write feminist history, and make feminism visible within popular culture, practices that build upon and continue a lengthy tradition of American feminism into the twenty-first century. *Girls' Feminist Bloggers in a Postfeminist Age* challenges readers to not only reconsider teenage girls' online practices as politically and culturally significant, but to better understand their crucial role in a thriving contemporary feminism.

**Fearless Love** Gospel Light Publications

A New York Times bestseller. "A funny, intimate, and often jaw-dropping account of life behind the scenes."—*People* *Nurses* is the compelling story of the year in the life of four nurses, and the drama, unsung heroism, and unique sisterhood of nursing—one of the world's most important professions (nurses save lives every day), and one of the world's most dangerous, filled with violence, trauma, and PTSD. In following four nurses, Alexandra Robbins creates sympathetic characters while diving deep into their world of controlled chaos. It's a world of hazing—"nurses eat their young." Sex—not exactly like on TV, but surprising just the same. Drug abuse—disproportionately a problem among the best and the brightest, and a constant temptation. And bullying—by peers, by patients, by hospital bureaucrats, and especially by doctors, an epidemic described as lurking in the "shadowy, dark corners of our profession." The result is a page-turning, shocking look at our health-care system.

The physical, emotional, and social milestones of every girl's life: what we've lost and gained in the 21st century. Caitlin Flanagan's essays about marriage, sex, and families have sparked national debates. Now she turns her attention to girls: the biological and cultural milestones for girls today,

and how they shape a girl's sense of herself. The transition from girl to woman is an experience that has changed radically over the generations: everything from how a girl learns about her period to how she expects to be treated by boys and men. Girls today observe these passages very differently, and yet the landmarks themselves have remained remarkably constant—proof, Flanagan believes, of their significance. In a world where protections of girls' privacy and personal freedom seem to disappear every day, the ultimate challenge modern parents face is finding a way to defend both.

**DEFIANT TEENS, SECOND EDITION**

Seal Press

An exciting new angle on purity that gives parents powerful and practical encouragement to motivate their teens to take a stand against the cultural norm. Doug Herman explains the challenges teens face—challenges of love, identity, and the influence of character on sexual choices—and shows the critical role parents play in creating character and purity within their teens and ultimately igniting a "Pure Revolution."

Don't believe everything you read. Open any magazine or turn on any T.V. show and you'll be bombarded with air brushed, perfectly styled and made-up celebrities and super models, icons of beauty that real women can never match. Too often, girls, measure themselves against these unrealistic images and find themselves lacking. But we can all break free from the cult of celebrity and start liking the face we see in the mirror once we understand that many of these images of beauty are all made up. In the spirit of *Fast Food Nation*, media-awareness activist Audrey Brashich delivers an in-depth, informative, and eye-opening look at the effect the media and pop culture has on young women's self images.

Sexually transmitted diseases among teens has become a full blown epidemic a national emergency that's killing our kids. In this groundbreaking book Dr. Meeker uncovers the story of this serious epidemic and the pattern of political correctness and marketing hype that has caused this tidal wave of disease.

**Demons Are a Girl's Best Friend** Lippincott Williams & Wilkins

In turn heartbreaking, irreverent, moving—and at times raucously humorous—one of the nation's leading pediatric researchers recounts his first years as a newly minted, struggling, and insecure doctor at Massachusetts General Hospital in Boston. A graduate of a state university medical school, Scott Rivkees was competing with elite students from some of the most prestigious schools in the country. Nervous and uncertain, he worked unholy hours with patients ranging from indigent street people to celebrity guests drawn to the reputation and care offered by Mass General. Along the way he learned what medical school textbooks don't teach: how to deal with immense pressure, exhaustion, unruly patients, mysterious conditions, the joy of saving a life, and the wrenching suddenness of losing a patient, more often than not a young child. His resident education did not prevent him from losing his sense of irony and humor as he recounts bleary nights on the town, the allure of young nurses, substandard housing, and the value of pricking an inflated ego.
