Do you have to lower your ethical standards in order to succeed at your job? High-Performance Ethics authors Wes Cantrell and James Lucas say that the answer is no. The authors outline ways to make ethical decisions (based on the Ten Commandments) that lead to highly successful business practices. High-Performance Ethics includes tips on how to lead a team with integrity, practical tools for resisting the pressure to compromise workplace standards, and encouragement for workers who want to see strong businesses--and strong values--thrive. 10 Principles: First Things Only (priorities) Ditch the Distractions Align with Reality (never claim support for a bad cause) Find Symmetry Respect the Wise Protecct the Souls Commit to the Relationships Spread the Wealth Speak the Truth Limit Your Desires

ETHICS

HarperCollins Leadership

If you don't believe God has a sense of humor, just look in the mirror. Humor is a truly human phenomenon—crossing history, culture, and every stage of life. Jokes often touch on the biggest topics of our existence. And although it may seem simple on the surface, humor depends on the use of our highest faculties: language, intelligence, sympathy, sociability. To the philosopher Steve Wilkens, these facts about humor are evidence that God just has to be in there somewhere. Yet many Christians, scholars and laypeople alike, haven't taken humor seriously. In What's So Funny About God? Wilkens launches an exploration of the connections between humor and many of the central topics of Christian theology. He argues that viewing Scripture and theology through the lens of humor brings fresh insight to our understanding of the gospel, helps us avoid the pitfalls of both naturalism and gnosticism, and facilitates a humble, honest, and appealing approach to faith. Wilkens turns this lens on the paradoxes of human nature, the Christian calendar, church life, and new readings of well-known biblical texts, including the book of Esther, the nativity narratives, and Jesus' own teachings. Taking into account the problems of suffering and the need for timely lament, he portrays the Christian story as one that ultimately ends in cosmic comedy. Full of wit and thoughtful jokes throughout, it's enough fun that you may not realize you're reading theology.

Readings in Christian Ethics Beyond Bumper Sticker Ethics

Steve Wilkens introduces the study of philosophy by exploring a single issue from each of these well-known philosophers: Socrates, Plato, Aristotle, Augustine, Aquinas, Descartes, Kierkegaard, Marx, Nietzsche and Sartre.

HIDDEN WORLDVIEWS

InterVarsity Press

We live in a world increasingly governed by technology—but to what end? Technology rules us as much as laws do. It shapes the legal, social, and ethical environments in which we act. Every time we cross a street, drive a car, or go to the doctor, we submit to the silent power of technology. Yet, much of the time, the influence of technology on our lives goes unchallenged by citizens and our elected representatives. In *The Ethics of Invention*, renowned scholar Sheila Jasanoff dissects the ways in which we delegate power to technological systems and asks how we might regain control. Our embrace of novel technological pathways, Jasanoff shows, leads to a complex interplay among technology, ethics, and human rights. Inventions like pesticides or GMOs can reduce hunger but can also cause unexpected harm to people and the environment. Often, as in the case of CFCs creating a hole in the ozone layer, it takes decades before we even realize that any damage has been done. Advances in biotechnology, from GMOs to gene editing, have given us tools to tinker with life itself, leading some to worry that human dignity and even human nature are under threat. But despite many reasons for caution, we continue to march heedlessly into ethically troubled waters. As Jasanoff ranges across these and other themes, she challenges the common assumption that technology is an apolitical and amoral force. Technology, she masterfully demonstrates, can warp the meaning of democracy and citizenship unless we carefully consider how to direct its power rather than let ourselves be shaped by it. *The Ethics of Invention* makes a bold argument for a future in which societies work together—in open, democratic dialogue—to debate not only the perils but even more the promises of technology.

Publisher description

People Over Profit InterVarsity Press

Christian Book Award® program Outreach Resource of the Year Have you ever felt too progressive for conservatives, but too conservative for progressives? Too often, political questions are framed in impossible ways for the faithful Christian: we're forced to choose between social justice and biblical values, between supporting women and opposing abortion. As a result, it's easy for Christians to grow disillusioned with civic engagement or fall back into tribal extremes. This state of affairs has damaged Christian public witness and divided the church. The authors of this book represent the AND Campaign, which exists to educate and organize Christians for faithful civic and cultural engagement. They insist that not only are we called to love our neighbors through the political process but also that doing so requires us to transcend the binary way the debates are usually framed. In

simple, understandable language, they lay out the biblical case for political engagement and help Christians navigate the complex world of politics with integrity, from political messaging and the politics of race to protests, advocacy, and more. The book includes a study guide for classroom use and group discussion. When we understand our civic engagement as a way to obey Christ's call to love our neighbor, we see that it is possible to engage the political process with both love and truth—compassion and conviction.

Christianity Today Book of the Year What is ethics? Why should Christians care? Beginning with these basic questions, Stanley Grenz masterfully leads his readers into a theological engagement with moral inquiry. In *The Moral Quest* he sets forth the basics of ethics, considers the role and methods of Christian ethics in particular, and examines the ethical approaches of the Old Testament, the Gospels and Paul. He introduces the foundational theological ethics of Augustine, Thomas Aquinas, and Luther and the Reformers. And he concludes with an evenhanded discussion of modern and contemporary Christian ethicists, including Albert Ritschl, Walter Rauschenbusch, Karl Barth, James Gustafson, Paul Ramsey, Dietrich Bonhoeffer, Martin Luther King Jr., Gustavo Gutiérrez, Rosemary Radford Ruether, Stanley Hauerwas, Carl F. H. Henry and Oliver O'Donovan. Clear, concise, and well apprised of relevant literature, Grenz (a theologian recognized for the excellence of his own theological and ethical work) provides in this book a first-rate introduction to Christian ethics. *The Moral Quest* will well serve students, pastors and interested laypersons alike.

The field of Christian ethics is the subject of frequent conversation as Christians seek to understand how to live faithfully within a pluralistic society. The range of ethical systems and moral philosophies available can be confusing to people seeking clarity about what the different theories mean for everyday life. This Spectrum Multiview volume presents a dialogue between four main approaches to ethics in the Christian tradition. Virtue ethics focuses less on the action itself and more on the virtuous character of the moral agent. A divine command approach looks instead at whether an action has been commanded by God, in which case it is morally right. Natural law ethics argues for a universal, objective morality grounded in nature. Finally, prophetic ethics judges what is morally right in light of a biblical understanding of divine justice and shalom. The four views and their proponents are as follows: Brad J. Kallenberg: Virtue Ethics John Hare: Divine Command Ethics Claire Peterson: Natural Law Ethics Peter Heltzel: Prophetic Ethics Christian Ethics: Four Views, edited by noted ethicist Steve Wilkens, presents an accessible introduction to the key positions in Christian ethics today. Spectrum Multiview Books offer a range of viewpoints on contested topics within Christianity, giving contributors the opportunity to present their position and also respond to others in this dynamic publishing format.

Media Ethics: Cases and Moral Reasoning, Ninth Edition challenges students to think analytically about ethical situations in mass communication by using original case studies and commentaries about real-life media experiences. This market-leading text facilitates and enhances students' ethical awareness by providing a comprehensive introduction to the theoretical principles of ethical philosophies. Media Ethics introduces the Potter Box (which uses four dimensions of moral analysis: definitions, values, principles and loyalties) to provide a framework for exploring the important steps in moral reasoning and analyzing the cases that follow. Focusing on a wide spectrum of ethical issues facing media practitioners, the cases in this new Ninth Edition include the most recent issues in journalism, broadcasting, advertising, public relations and entertainment.

MEDIA ETHICS

McGraw-Hill Medical Publishing

In this second of three volumes which survey the dynamic interplay of Christianity and Western thought from the earliest centuries through the twentieth century, Steve Wilkens and Alan Padgett tell the story of the monumental changes of the nineteenth century.

[Good Ideas from Questionable Christians and Outright Pagans](#) InterVarsity Press

A few years ago, the first distinction that ethicists drew was the line between Christian ethics and philosophical ethics. However, in our global context, Christian ethicists must now, in addition, compare and contrast various ethics. Christian ethics has become increasingly multivocal not only because of a plurality of faiths but also because of a plurality of Christianities. In light of these new realities, this book will introduce Christian ethics. It will lay out history, methods, and basic principles every student must know. The author also will include case studies for further explanation and application.

Baker Academic

What should we do or not do? This comprehensive text on biblical ethics is completely revised, focusing on how we fulfill the purposes of God for our lives. New content includes discussions of living virtuously, ethical alternatives, bioethical issues, technology, helping the poor, animal rights, sexual ethics, and the media.

An Introduction to Christian Ethics Macmillan

From the early days of the church to the present, the Old Testament Law has been a subject of much confusion, debate, and outright theological division. And with good reason: the way Christians understand the Law has massive implications for their individual lives and for the life of the church. To sort through the numerous interpretations and approaches to this thorny issue, we need to start with a solid knowledge of the Law itself. Richard Averbeck provides a comprehensive, accessible discussion of how the Law fits into the arc of the Bible and its relevance to the church today. Beginning with the way God intended the Law to work in its original historical and cultural context, he then explores the New Testament perspective on the Law. Averbeck identifies three biblical theological theses: the Law is good, the Law is weak, and the Law is a unified whole. Rejecting common partitions between categories of law, he makes the case that the whole Law applies to the Christian. Our task is to discern how it applies in the light of Christ. The Old Testament Law for the Life of the Church invites readers to consider how all of Scripture is illuminating and useful for God's people. The church, as the new temple, has much to learn from the Law and about what it means for our doctrine and practice.
