Designed to develop skilled readers versus skilled memorizers, this letters sounds back to basics teaching resource, with up to 3 years of complete lesson plans is broken down into 4 reading skill-level master books, each complete with a quick reference letter sounds glossary. This work is an anti-multitasking, child-favored, conquer 1 step-at-a-time, unique, fun-learning, hands-on, (get out your seat and on your feet: starting at lesson 7) easy life-long learning experience. The Instant Reading Teacher training does not begin decodable sentence reading practices until lesson 15, and believes that a learners' teacher should not feel anxious or eager to have their student begin reading pure skill-level decodable story books until lesson 23 and ideally wait until after lesson 34, at which point your student will be 100% read by themselves independent. HOWEVER, if you have a quick- learning word-consuming book-loving child or older student who already has advanced reading skills... and you want to be able to quickly explain and give them hands-on practice of a specific sound-out-tool, for example, how to recognize and automatically recall words with the soft 'c' (lessons 37 and 50), or you don't know how to explain in a way that a child will easily understand and remember that in a word like 'apple' why the letter 'e' is silent (lessons 33 - 34) or why the double letter 'p' makes only 1 sound (lesson 14), the companion student workbooks offers the convenience of custom ordering only your advanced child's specific interest. Four school friends arrange an appointment in 15 years and are committed to keeping it, no matter what surprises and unforeseen adventures are prepared for them by life. A novel starts with the reflections of one of the protagonists on whether the others will keep the promise or he is the only one to keep the foolish promise of childhood. All four come. Father Time has given each of them a peculiar role in life. One is a respected doctor. The other one is an archeologist. The third one is a correspondent. The fourth hero is a traveler. Neither of them is married, and that means they are free to depart from the monotonous routine of their loves into an exciting journey full of mysteries, betrayal, love, politics, and adventures that will keep the reader suspended from the first to the last page of the book.

on the themes: myself, family and relationships, daily activities, my role model, hobbies and leisure. Each unit consists of a knowledge organiser recapping the target sentence patterns and lexical items, a series of receptive vocabulary building activities; a set of narrow reading texts and activities; a set of translation tasks. The tasks are graded in order to pose an increasingly demanding but manageable cognitive load and challenge and are based on Dr Conti's P.I.P.O. framework: Pre-reading tasks (activation of prior knowledge and pre-teaching) In-reading tasks (intensive exploitation of texts) Post-reading tasks (consolidation) Output (pushed-output tasks) Consistent with Dr Conti's E.P.I. approach, each of the 16 units in the book provide extensive recycling of the target lexical items both within each unit and throughout the book, across all the dimensions of receptive and productive processing, i.e.: orthography (single letters and syllables), lexis (both words and chunks), grammar/syntax (with much emphasis on functional and positional processing), meaning and discourse. The recycling occurs through input-flooding and forced retrieval through a wide range of engaging, tried and tested, classic Conti tasks (more than 20 per unit). These include student favourites such as slalom writing, faulty translation, spot the missing detail, sentence puzzles, etc. Table of contents 1 Introducing myself 2 Describing myself, my family and friends 3 Talking about my hobbies and interests 4 Describing a typical day in school 5 Describing what I do after school 6 Talking about a typical weekend 7 Talking about what I did last weekend 8 Talking about when I was younger 9 Discussing the qualities of a good friend 10 Describing the qualities of a good partner 11 Saying why I don't get along with people 12 Saying why I get along with people 13 Saying why I argue with my parents 14 Discussing why couples break up 15 Talking about a person I admire 16 Bringing it all together - Parts 1-5

Designed to develop skilled readers versus skilled memorizers, this letters sounds back to basics teaching resource, with up to 3 years of complete lesson plans is broken down into 4 reading skill-level master books, each complete with a quick reference letter sounds glossary. This work is an anti-multitasking, child-favored, conquer 1 step-at-a-time, unique, fun-learning, hands-on, (get out your seat and on your feet: starting at lesson 7) easy life-long learning experience. The Instant Reading Teacher training does not begin decodable sentence reading practices until lesson 15, and believes that a learners' teacher should not feel anxious or eager to have their student begin reading pure skill-level decodable story books until lesson 23 and ideally wait until after lesson 34, at which point your student will be 100% read by themselves independent. HOWEVER, if you have a quick- learning word-consuming book-loving child or older student who already has advanced reading skills... and you want to be able to quickly explain and give them hands-on practice of a specific sound-out-tool, for example, how to recognize and automatically recall words with the soft 'c' (lessons 37 and 50), or you don't know how to explain in a way that a child will easily understand and remember that in a word like 'apple' why the letter 'e' is silent (lessons 33 - 34) or why the double letter 'p' makes only 1 sound (lesson 14), the companion student workbooks offers the convenience of custom ordering only your advanced child's specific interest. Just visit the products menu page of the Sweet Sounds of Reading website or send an email to the Reading Lady and you will quickly receive a handy reference copy of the Letter Sounds Table of Contents. How can we determine the big

ideas worth understanding? Why is understanding an important teaching goal, and how do we know when students have attained it? How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high-stakes, standards-based environment? Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of *Understanding by Design*. Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998, the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum, assessment, and instruction. With an improved UbD Template at its core, the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks. Readers will learn why the familiar coverage- and activity-based approaches to curriculum design fall short, and how a focus on the six facets of understanding can enrich student learning. With an expanded array of practical strategies, tools, and examples from all subject areas, the book demonstrates how the research-based principles of *Understanding by Design* apply to district frameworks as well as to individual units of curriculum. Combining provocative ideas, thoughtful analysis, and tested approaches, this new edition of *Understanding by Design* offers teacher-designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike.
