This thoroughly revised edition includes

updated essays on cultural themes and
literary analysis, and its new essays
analyze the full scope of the seven-book
series as both pop cultural phenomenon
and as a set of literary texts. *Critical
Perspectives on Harry Potter, Second
Edition* draws on a wider range of
intellectual traditions to explore the
texts, including moral-theological
analysis, psychoanalytic perspectives,
and philosophy of technology. The Harry

Potter novels engage the social, cultural, and psychological preoccupations of our times, and *Critical Perspectives on Harry Potter, Second Edition* examines these worlds of consciousness and culture, ultimately revealing how modern anxieties and fixations are reflected in these powerful texts. ("DISCLAIMER: This book is not authorized, approved, licensed, or endorsed by J.K. Rowling, Warner Bros. Entertainment Inc., or anyone associated with the Harry Potter books or movies.")

Ian Tyson's classic song, beautifully illustrated for horse-loving youngsters everywhere. The story of the wild mustang in North America is the subject of "La Primera," a song written and performed by Canadian folk singer and horse aficionado, Ian Tyson. And it is the subject of this handsome picture book with paintings by equine artist Adeline Halvorson. In 1493, the first Spanish horses were loaded onto a ship and

taken on a long, hard voyage to the Americas. Many died along the way and only a few survived. Among them was La Primera. Little by little, their numbers grew, and in time they were in Mexico with Cortez and his conquistadors, on the grasslands with the Comanche upon their backs, and in frontier towns serving the needs of cowboys. The rugged wild mustangs still exist, and their bloodlines are traceable all the way back to those first horses and the careful records the Spaniards kept. That the animals have survived for five hundred years, while the world around them changed, is a tribute to their endurance and fiery spirit. Included with the story of the song is a section of historical facts on these amazing and beautiful animals and a CD of Ian Tyson singing "La Primera."

A study viewed the existing motor vehicle sector, structure, and trading

conditions and identified and analyzed the best and most significant continuing vocational training practices in Ireland. In 1991, the motor vehicle sector accounted for 6.2 percent of the Gross National Product. Employment in the sector has decreased from an estimated 24,000 in 1988 to 17,000 in 1992. The impact of legislation on the Irish motor industry was significant, requiring those engaged in the industry to cope with a wide variety of laws and statutory instruments. The industry has been well served by the statutory scheme for apprentices. Companies involved in four case studies were a component manufacturer, Nissan, Ford, and Volkswagen/Audi. Each case study described the case, the firm, providers of continuing vocational education, training

policy of the firm, evaluation of the training concepts, and conclusions in relation to best practice and normal practice. The case studies demonstrated the organization of work at distributor level was very professional. At no time in the history of the motor industry in Ireland did polarization of skills (within trades) occur; all-round skills were found necessary for the survival of the dealership. The relationship between franchise dealers and the distributors was very good. The only regulated training was apprenticeship. Indicated trends were static or slightly increased employment in the motor vehicle sector and training needs that correspond to the overall development of vehicle technology and design. (YLB)

Slavery is not a crime confined to the far reaches of history. It is an injustice that continues to entrap twenty-seven million people across the globe. Laura Murphy offers close to forty survivor narratives from Cambodia, Ghana, Lebanon, Macedonia, Mexico, Russia, Thailand, Ukraine, and the United States, detailing the horrors of a system that forces people to work without pay and against their will, under the threat of violence,

with little or no means of escape. Representing a variety of circumstances in diverse contexts, these survivors are the Frederick Douglasses, Sojourner Truths, and Olaudah Equianos of our time, testifying to the widespread existence of a human rights tragedy and the urgent need to address it. Through storytelling and firsthand testimony, this anthology shapes a twenty-first-century narrative that many believe died with the end of slavery in the Americas. Organized around such issues as the need for work, the punishment of defiance, and the move toward activism, the collection isolates the causes, mechanisms, and responses to slavery that allow the phenomenon to endure. Enhancing scholarship in women's studies, sociology, criminology, law,

social work, and literary studies, the text establishes a common trajectory of vulnerability, enslavement, captivity, escape, and recovery, creating an invaluable resource for activists, scholars, legislators, and service providers.
