MYLA KAELYN

MRCP CRC Press

This book is an invaluable resource with 400 self-assessment cases and data interpretation questions covering all aspects of internal medicine. It has great breadth of coverage, superb illustration, lively presentation, precise answers and detailed discussion.

*Best of Five MCQs for the
MRCP Part 1 Volume 2*

Oxford University Press

This book is the essential revision guide for neurology in the Membership of the Royal College of Physicians (MRCP). Neurology has been rated as the most difficult subject in MRCP examinations and there has been no concise and easy-to-use revision guide to help candidates through the exams until now. Neurology for MRCP is written by two experienced neurologists who have taught both the written (Part 1 and Part 2) and clinical (PACES) sections of the exam. This pioneering new book will also be useful for medical students sitting for their final examinations and for

doctors who are preparing for the PLAB examination.

Mrcp 1 Pocket Book 2

World Scientific

This book is a must for all MRCP candidates.

Together with the two companion volumes, the book provides a comprehensive guide to the written paper MRCP syllabus. Volume 2 contains 60 case histories essential for preparation for the case history component of the exam. These encompass the full range of general medical problems encountered in hospital practice.

Familiarity with the contents of this book will ensure that all candidates stand the best chance of passing the exam first time!

MRCP PART 2: 450 BOFs

Lulu Press, Inc

Featuring a wealth of practice questions, **MRCP PART 2: 450 BOFs** allows trainees to test themselves on everything they need to know to pass the MRCP Part 2 written exam.

MRCP Part 2 CRC Press

Here's an essential revision tool for the MRCP exam. The second book in this three-book series, written by renowned experts, offers fully detailed answers and

helps to prepare students in data interpretation of laboratory or other results (such as ECGs) by implementing practical case histories.

PHOTOGRAPHIC INTERPRETATION QUESTIONS

CRC Press

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as candidates for the MRCP, this book will also be of interest to medical students and students of related health sciences.

MRCP PART 2

CRC Press

This book is an indispensable preparation tool for the MRCP (UK) Part 2 MCQ examinations and mirrors the current exam format. As in the exam itself, all questions are criterion referenced and incorporate a range of photographic material, case histories and data interpretation. Get Through MRCP Part 2: 450 Best of Fives, 2nd edition includes 100 more BOF's than the previous edition, making this title the ultimate revision guide. The questions cover the complete medical syllabus including ethics and medical statistics, and will also feature questions on haematology, intensive care medicine, hepatology, and oncology. As with the first edition Eric Beck, the former chief examiner of the Royal College of Physicians, has edited all of the questions to ensure they are up to the correct standard.

BEST OF FIVE CLINICAL QUESTIONS AND ANSWERS

CRC Press

This book provides a bank of multiple-choice questions for candidates preparing for Part 2 of the Membership examination

of the Royal Colleges of Physicians, the MRCP. The questions are arranged by subject area to enable structured revision and allow candidates to focus on particular areas where they feel less confident. The book has been written with a close focus on recent examinations, with the coverage of topics weighted to reflect the frequency with which they have appeared. The book is structured more as a manual than as a mock exam, and includes explanations for both correct and incorrect answers, focusing comprehensively on the fundamental principles of medical practice. As well as candidates for the MRCP, this book will also be of interest to medical students and students of related health sciences.

DATA INTERPRETATION FOR THE MRCP

Oxford University Press

This book of 250 best of five questions, focusing on data interpretation and case histories, is a title in the best-selling series The Complete MRCP, regarded as one of the most authoritative sources of self-assessment material for the MRCP written examinations. A thorough and up-to-date collection of best of five questions

for the MRCP Part 2. One of the best-selling The Complete MRCP series - widely regarded as the best revision books for the exam. Detailed answers which are useful as revision topics. The questions have been fully updated into the new format of the exam. A significant number of new topics have been added. All questions reformatted for the new exam. Fully revised and updated. A new author team - written by people who really know what the exam is like.

Best of Five Questions for MRCP CRC Press

A revision book intended primarily for candidates sitting their MRCP Part 1 examination and which covers all the essential basic sciences. It focuses on the recurring themes which come up in the questions. The book also includes a chapter on clinical pharmacology (which alone accounts for up to 30% of the questions), looking at aspects of drug-induced disease and drug interactions. Finally there is a chapter on statistics and epidemiology which is rarely covered in other texts, but is often included in the exam. Despite the changes to the teaching of the

undergraduate in medicine and the integration of the basic sciences with clinical education, the junior doctor, faced with postgraduate examinations, is always going to be poorly prepared for those increasingly important subjects. This book presents the essential information in the form of lists, tables, diagrams and flow charts.

COMPLETE DATA INTERPRETATION FOR THE MRCP

CRC Press

"Structured in the same way as the MRCP part 2 written exam, the two volumes of this self-assessment book together contain over 270 questions based on clinical scenarios which address the more difficult aspects of the medical curriculum. Chapters are divided by clinical specialties. Volume 1 includes: cardiology, dermatology, endocrinology and metabolic medicine, gastroenterology, haematology, and infectious diseases. Volume 2 includes: neurology and ophthalmology, oncology and palliative care,

psychiatry and clinical pharmacology, nephrology, respiratory medicine and rheumatology. The first section of each chapter contains a clinical scenario followed by a multiple-choice, 'best-of-five', question written in the style of the MRCP exam. The second section of each chapter contains the answer, a concise and clear explanation of the reasoning behind the given answer being correct, as well as a comprehensive tutorial on the subject matter which uses high-quality diagrams and tables to help readers absorb and retain information quickly and orderly. References for further reading are also then given for those interested in a broader review"--

SELF ASSESSMENT: TEACHING QUESTIONS FOR MRCPUK AND MRCPI PART 2 WRITTEN EXAMS

Jaypee Brothers, Medical Publishers Pvt. Limited Part of the MRCP 1 Pocket Book series, this title features questions and answers providing essential practice for the MRCP Part 1 exam.

BASIC MEDICAL SCIENCES FOR MRCP

Oxford University Press

This new edition is completely in the Best of Five format to be relevant to the current Part 1 examinations. Chapters are by subject areas following the MRCP Part 1 syllabus. The questions have excellent clinical scenarios and the answers have topic summaries to aid revision in the specific subject areas.

MRCP

Churchill Livingstone

Finding the time to revise

effectively is one of the

greatest challenges that

modern MRCP candidates face. This unique book by a recent successful candidate provides precisely what many have needed but been unable to find until now: the distilled essential knowledge required to pass the MRCP Part 2 exam. This book provides candidates with a concise and well-directed approach to fast and efficient revision, supplying comprehensive coverage of the MRCP syllabus and the key points of each topic. It stands apart from other MRCP revision resources in supplying both concise text and the essential lists needed to pass the Part 2 exam.

Medicine for MRCP

Churchill Livingstone
Based on the new form of MCQ - 'Best Of Five' Clinical Scenarios to provide readers with a complete distance-learning package.

Best of Five MCQs for the MRCP Part 1 Volume 1
CRC Press

For the MRCP Part 2 exam, candidates need to be able to interpret radiological images of commonly encountered conditions. They also increasingly need to be able to answer other questions about the condition shown in the

image, for example treatment and prognosis. This book has been designed to meet that need. It is divided into five sections: chest, abdomen, nervous system, cardiovascular system and musculoskeletal system. Each condition described is illustrated by one or two high quality radiological images and then provides a concise but holistic view of the condition, with all the important aspects of disease that the candidate will be expected to know. This information is supplemented by a short series of example exam questions.

Last Minute Picture

Tests for MRCP 2 Wiley-Blackwell

This new book contains 350 'best of five' multiple-choice questions for the new MRCP (UK) Part 1 exam. The questions cover a wide range of topics in both clinical medicine and applied basic sciences. The answers are fully descriptive and will help the candidate appreciate why the correct answer is the best of the five given, and include useful background information. The questions are in random order by topic, with the first 50 being less

difficult - and thereafter the questions get more challenging. To aid revision, there is an appendix at the end of the book that lists the questions under topic headings. A new book of 350 new-style best of five questions in the style of the MRCP (UK) Part 1 exam Questions presented randomly by topic - as they would be encountered in the real exam Has fully descriptive answers Covers both clinical and basic science topics Includes an appendix where questions are grouped according to topic

NEUROLOGY FOR MRCP

PasTest Ltd

The Complete MRCP is a series of 3 books that cover the whole of the written section of the Part 1 and Part 2 exams for the College of Physicians qualifications. All three books were originally written by registrars and senior registrars, all of whom were closely involved in Membership-level teaching. As a result they are the books most highly regarded by those preparing for the exams and they are essential for all those taking the qualification. The MRCP itself is a very difficult

professional qualification. It is jointly organised by the three UK Royal Colleges of Physicians - Edinburgh, Glasgow and London. The format of the exam is constantly changing to reflect the patterns of medicine and roughly 4000 candidates apply to take the MRCP

every year. This book covers the 3rd element of the Part 2 MRCP exam - colour photograph questions. It contains 150 colour illustrations covering a wide range of clinical conditions with related questions which are in the form encountered in the exam itself. The photographs

include radiographs, blood films and pathological examples. The questions give a certain amount of relevant history to help the candidate make the most appropriate diagnosis. The answers are very detailed and should aid the candidate in revision.
