"A beautiful, intelligent book that renders pain both ordinary and extraordinary into art."—Susanna Sonnenberg, San Francisco Chronicle In 2007, during the months before Nick Flynn's daughter's birth, his growing outrage and obsession with torture, exacerbated by the Abu Ghraib photographs, led him to Istanbul to meet some of the Iraqi men depicted in those photos. Haunted by a history of addiction, a relationship with his unsteady father, and a longing to connect with his mother who committed suicide, Flynn artfully interweaves in this memoir passages from his childhood, his relationships with women, and his growing obsession—a questioning of terror, torture, and the political crimes we can neither see nor understand in post-9/11 American life. The time bomb of the title becomes an unlikely metaphor and vehicle for exploring the fears and joys of becoming a father. Here is a memoir of profound self-discovery—of being lost and found, of painful family memories and losses, of the need to run from love, and of the ability to embrace it again.

*A Billion Years* Chicago Review Press

Set in the early 1940s, *The Newsboy Legion* is the first of Joe Simon and Jack Kirby's very successful "kid gang" comics, featuring a group of scrappy boys who work together to stop crime in their home of Suicide Slum. Watched over by adult hero The Guardian - a.k.a. policeman Jim Harper - The Newsboy Legion battle crime through their own newspaper reporting, taking on crooked politicians, slum lords, fifth column agents and much more.

**Cooking 4 Change** Hal Leonard

Cooking 4 Change is the brainchild of celebrated New Zealand artist Dick Frizzell, his business partner Christian Kasper and TV host Erin Simpson. They asked a wide range of New Zealand celebrities to share their all-time favourite dishes in order to raise money for longstanding local charities Paw Justice, Leukaemia and Blood Cancer New Zealand, Starship Foundation and Auckland City Mission. What resulted is a diverse selection of recipes and intimate cooking stories from a raft of our favourite personalities who want to make a difference. The recipes and stories are accompanied by sumptuous photography, mostly taken inside each celebrity's own kitchen. In true New Zealand style, *Cooking 4 Change* showcases the amazing results Kiwis can achieve when we all work together and give back to some of our hardest-working charities.

Marianne Evelyn Gabriel Faithfull, born on 29th December 1946, Hampstead, London, England, UK is a singer, songwriter, and actress, who rose to fame during the '60s with the release of her hit single *As Tears Go By*, becoming one of the leading female artists of the British Invasion of the US.

Marianne's career started in 1964 after attending a Rolling Stones party, where she was discovered by Andrew Loog Oldham. After the issue of *As Tears Go By*, she became an international star, her eponymous debut album *Marianne Faithfull* (1965) put out at the same time as her L.P. *Come My Way*, was a hit, being followed by a number of albums on Decca Records. From 1966 to 1970, she had a highly publicised romantic relationship with Mick Jagger. Faithfull's popularity was further boosted by her film roles, including *I'll Never Forget What's*isname (1967), *The Girl on a Motorcycle*

(1968), and *Hamlet* (1969) but was overshadowed by her personal problems during the '70s, when she became an anorexic, homeless heroin addict.

*Letters at 3am* Plume Books

"May be the best book ever written about jazz."—David Thomson, Los Angeles Times In eight poetically charged vignettes, Geoff Dyer skillfully evokes the music and the men who shaped modern jazz. Drawing on photos, anecdotes, and, most important, the way he hears the music, Dyer imaginatively reconstructs scenes from the embattled lives of some of the greats: Lester Young fading away in a hotel room; Charles Mingus storming down the streets of New York on a too-small bicycle; Thelonious Monk creating his own private language on the piano. However, music is the driving force of *But Beautiful*, and wildly metaphoric prose that mirrors the quirks, eccentricity, and brilliance of each musician's style.

### HAND OF FIRE

Wizards of the Coast

Based on interviews with Stan Lee and dozens of his colleagues and contemporaries, as well as extensive archival research, this book provides a professional history, an appreciation, and a critical exploration of the face of Marvel Comics. Included is a complete examination of the rise of Marvel Comics, Lee's work in the years of postwar prosperity, and his efforts in the 1960s to revitalize the medium after it had grown stale.

*The New Gods (1971-)* #7 Basic Books

The idea for this book was conceived by the late Dr. Irvine A. Watson of the University of Sydney, and he developed the first outline. I was then invited by Dr. Watson to share in its writing. Unfortunately, shortly thereafter, recurring heart problems forced him to curtail his activities and withdraw from the project. He died before the book could be completed. Dr. Watson's intention was to produce a very practical book that would provide wheat breeders with all of the information necessary to breed successfully for resistance to the three wheat rusts: leaf rust, stem rust, and yellow rust. It was intended to be very specific in describing procedures to be used and at the same time provide all of the necessary theoretical background. I hope that I have been successful in meeting these objectives. The book assumes that the reader has some knowledge of plant pathology, genetics, and plant breeding. Extensive use has been made of the literature, but it was not possible to cite all of the papers on a given topic. In making a choice, an attempt was made to choose key papers or more recent papers that provided references to the earlier literature.

Acknowledgements This book was written partly at the University of Saskatchewan and partly at the University of California, Davis, while I was on a sabbatical leave.
