### BLACK TRAVEL WRITING

Bloomsbury Publishing  
Africa has long gripped the American imagination. From the Edenic wilderness of Edgar Rice Burroughs's Tarzan novels to the 'black Zion' of Garvey's Back-to-Africa movement, all manner of Americans - whether white or black, male or female - have come to see Africa as an idealized stage on which they can fashion new, more authentic selves. In this remarkable, panoramic work, David Peterson del Mar explores the ways in which American fantasies of Africa have evolved over time, as well as the role of Africans themselves in subverting American attitudes to their continent. Spanning seven decades, from the post-war period to the present day, and encompassing sources ranging from literature, film and music to accounts by missionaries, aid workers and travel writers, African, American is a fascinating deconstruction of 'Africa' as it exists in the American mindset.

### BLACK WRITERS AND THE PHOTOGRAPH IN THE TWENTIETH CENTURY

A startling and gripping reexamination of the Jim Crow era, as seen through the eyes of some of the most important American writers In this dramatic reexamination of the Jim Crow South, Anders

Walker demonstrates that racial segregation fostered not simply terror and violence, but also diversity, one of our most celebrated ideals. He investigates how prominent intellectuals like Robert Penn Warren, James Baldwin, Eudora Welty, Ralph Ellison, Flannery O'Connor, and Zora Neale Hurston found pluralism in Jim Crow, a legal system that created two worlds, each with its own institutions, traditions, even cultures. The intellectuals discussed in this book all agreed that black culture was resilient, creative, and profound, brutally honest in its assessment of American history. By contrast, James Baldwin likened white culture to a "burning house," a frightening place that endorsed racism and violence to maintain dominance. Why should black Americans exchange their experience for that? Southern whites, meanwhile, saw themselves preserving a rich cultural landscape against the onslaught of mass culture and federal power, a project carried to the highest levels of American law by Supreme Court justice and Virginia native Lewis F. Powell, Jr. Anders Walker shows how a generation of scholars and judges has misinterpreted Powell's definition of diversity in the landmark case Regents v. Bakke, forgetting its Southern origins and weakening it in the process. By resituating the decision in the context of Southern intellectual history, Walker places diversity on a new footing, independent of affirmative action but also free from the constraints currently placed on it by the Supreme Court. With great clarity and insight, he offers a new lens through which to understand the history of civil rights in the United States.

Look Away! considers the U.S. South in relation to Latin America and the Caribbean. Given that some of the major characteristics that mark the South as exceptional within the United States—including the legacies of a plantation economy and slave trade—are common to most of the Americas, Look Away! points to postcolonial studies as perhaps the best perspective from which to comprehend the U.S. South. At the same time it shows how, as part of the United States, the South—both center and margin, victor and defeated, and empire and colony—complicates ideas of the postcolonial. The twenty-two essays in this comparative, interdisciplinary collection

rethink southern U.S. identity, race, and the differences and commonalities between the cultural productions and imagined communities of the U.S. South and Latin America. Look Away! presents work by respected scholars in comparative literature, American studies, and Latin American studies. The contributors analyze how writers—including the Martinican Edouard Glissant, the Cuban-American Gustavo Pérez Firmat, and the Trinidad-born, British V. S. Naipaul—have engaged with the southern United States. They explore William Faulkner's role in Latin American thought and consider his work in relation to that of Gabriel García Márquez and Jorge Luis Borges. Many essays re-examine major topics in southern U.S. culture—such as race, slavery, slave resistance, and the legacies of the past—through the lens of postcolonial theory and postmodern geography. Others discuss the South in relation to the U.S.-Mexico border. Throughout the volume, the contributors consistently reconceptualize U.S. southern culture in a way that acknowledges its postcolonial status without diminishing its distinctiveness. Contributors. Richard Wright is one of the most important African American writers. He is also one of the most prolific. Best known as the author of Native Son, he wrote 7 novels; 2 collections of short fiction; an autobiography; more than 250 newspaper articles, book reviews, and occasional essays; some 4,000 verses; a photo-documentary; and 3 travel books. By attacking the taboos and hypocrisy that other writers had failed to address, he revolutionized American literature and created a disturbing and realistic portrait of the African American experience. This encyclopedia is a guide to his vast and influential body of works.

Richard Wright and Transnationalism sees Dr. Mamoun Alzoubi argue that renowned American Author, Richard Wright, transformed the way that we approach comparative literature by beginning to look at matters of American racism and Civil Rights in transnational contexts, formed by the new nations surfacing from colonial rule. Richard Wright and Transnationalism demonstrates how Wright, beginning with his work in the 1950s, began to hypothesize the shared history of suffering that linked the experience of slavery, Jim Crow and racism in African American life with the impact of colonialism and neocolonialism on the large communities of Africa, Asia and Europe.

Writers of the Black Chicago Renaissance comprehensively explores the contours and content of the Black Chicago Renaissance, a creative movement that emerged from the crucible of rigid segregation in Chicago's "Black Belt" from the 1930s through the 1960s. Heavily influenced by the Harlem Renaissance and the Chicago Renaissance of white writers, its participants were invested in political activism and social change as much as literature, art, and aesthetics. The revolutionary writing of this era produced some of the first great accolades for African American literature and set up much of the important writing that came to fruition in the Black Arts Movement. The volume covers a vast collection of subjects, including many important writers such as Richard Wright, Gwendolyn Brooks, and Lorraine Hansberry as well as cultural products such as black newspapers, music, and theater. The book includes individual entries by experts on each subject; a discography and filmography that highlight important writers, musicians, films, and cultural presentations; and an introduction that relates the Harlem Renaissance, the white Chicago Renaissance, the black Chicago Renaissance, and the Black Arts Movement. Contributors are Robert Butler, Robert H. Cataliotti, Maryemma Graham, James C. Hall, James L. [Contemporary Narratives of Travel to Africa by African American and Black British Authors](#) HarperCollins

What does it mean for Black diasporic writers to travel to Africa? Focusing on the period between the 1990s and 2010s, Isabel Kalous examines autobiographical narratives of travel to Africa by African American and Black British authors. She places the texts within the long tradition of Black diasporic engagement with the continent, scrutinizes the significance of Black mobility, and demonstrates that travel writing serves as a means to negotiate questions of identity, belonging, history, and cultural memory. To provide a framework for the analyses of contemporary narratives, her study outlines the emergence, development, and key characteristics of the multifaceted genre of Black travel writing. Authors discussed include, among others, Saidiya Hartman, Barack Obama, and Caryl Phillips.

A pillar of African American literature, Richard Wright is one of the most celebrated and controversial authors in American history. His work championed intellectual freedom amid social and political chaos. Despite the popular and critical success of books such as *Uncle Tom's Children* (1938), *Black Boy* (1945), and *Native Son* (1941), Wright faced staunch criticism and even censorship throughout his career for the graphic sexuality, intense violence, and communist themes in his work. Yet, many political theorists have ignored his radical ideas. In *The Politics of Richard Wright*, an interdisciplinary group of scholars embraces the controversies surrounding Wright as a public intellectual and author. Several contributors explore how the writer mixed fact and fiction to capture the empirical and emotional reality of living as a black person in a racist world. Others examine the role of gender in Wright's canonical and lesser-known writing and the implications of black male vulnerability. They also discuss the topics of black subjectivity, internationalism and diaspora, and the legacy of and responses to slavery in America. Wright's contributions to American political thought remain vital and relevant today. *The Politics of Richard Wright* is an indispensable resource for students of American literature, culture, and politics who strive to interpret this influential writer's life and legacy.

*Landscapes of Hope: Anti-Colonial Utopianism in America* examines anti-colonial discourse during the understudied but critical period before World War Two, with a specific focus on writers and activists based in the United States. Dohra Ahmad adds to the fields of American Studies, utopian studies, and postcolonial theory by situating this growing anti-colonial literature as part of an American utopian tradition. In the key early decades of the twentieth century, Ahmad shows, the intellectuals of the colonized world carried out the heady work of imagining independent states, often from a position of exile. Faced with that daunting task, many of them composed literary texts--novels, poems, contemplative essays--in order to conceptualize the new societies they sought. Beginning by exploring some of the conventions of American utopian fiction at the turn of the century, *Landscapes of Hope* goes on to show the surprising ways in which writers such as W.E.B. Du Bois, Pauline Hopkins, Rabindranath Tagore, and Punjabi nationalist Lala Lajpat Rai appropriated and adapted those utopian conventions toward their own end of global colored emancipation.

Critics in this volume reassess the prescient nature of Richard Wright's mind as well as his life and body of writings, especially those directly concerned with America and its racial dynamics. This edited collection offers new readings and understandings of the particular America that became Wright's focus at the beginning of his career and was still prominent in his mind at the end.

Virginia Whatley Smith's edited collection examines Wright's fixation with America at home and from abroad: his oppression by, rejection of, conflict with, revolts against, and flight from America. Other people have written on Wright's revolutionary heroes, his difficulties with the FBI, and his works as a postcolonial provocateur; but none have focused singly on his treatment of America. Wherever Wright traveled, he always positioned himself as an African American as he compared his experiences to those at hand. However, as his domestic settlements changed to international residences, Wright's craftsmanship changed as well. To convey his cultural message, Wright created characters, themes, and plots that would expose arbitrary and whimsical American policies, oppressive rules which would invariably ensnare Wright's protagonists and sink them more deeply into the quagmire of racial subjugation as they grasped for a fleeting moment of freedom. Smith's collection brings to the fore new ways of looking at Wright, particularly his post-*Native Son* international writings. Indeed, no critical interrogations have considered the full significance of Wright's masterful crime fictions. In addition, the author's haiku poetry complements the fictional pieces addressed here, reflecting Wright's attitude toward America as he, near the end of his life, searched for nirvana--his antidote to American racism.

A master chronicler of the African-American experience, Richard Wright brilliantly expanded his literary horizons with *Pagan Spain*, originally published in 1957. An amalgam of expert travel reportage, dramatic monologue, and arresting sociological critique, *Pagan Spain* serves as a pointed and still-relevant commentary on the grave human dangers of oppression and governmental corruption.

**THE LIFE AND TIMES**

LIT Verlag Münster

A special 75th anniversary edition of Richard Wright's powerful and unforgettable memoir, with a new foreword by John Edgar Wideman and an afterword by Malcolm Wright, the author's grandson. When it exploded onto the literary scene in 1945, *Black Boy* was both praised and condemned. Orville Prescott of the *New York Times* wrote that "if enough such books are written, if enough millions of people read them maybe, someday, in the fullness of time, there will be a greater understanding and a more true democracy." Yet from 1975 to 1978, *Black Boy* was banned in schools throughout the United States for "obscenity" and "instigating hatred between the races." Wright's once controversial, now celebrated autobiography measures the raw brutality of the Jim Crow South against the sheer desperate will it took to survive as a Black boy. Enduring poverty, hunger, fear, abuse, and hatred while growing up in the woods of Mississippi, Wright lied, stole, and raged at those around him--whites indifferent, pitying, or cruel and Blacks resentful of anyone trying to rise above their circumstances. Desperate for a different way of life, he may his way north, eventually arriving in Chicago, where he forged a new path and began his career as a writer. At the end of *Black Boy*, Wright sits poised with pencil in hand, determined to "hurl words into this darkness and wait for an echo." Seventy-five year later, his words continue to reverberate. "To read *Black Boy* is to stare into the heart of darkness," John Edgar Wideman writes in his foreword. "Not the dark heart Conrad searched for in Congo jungles but the beating heart I bear." One of the great American memoirs, Wright's account is a poignant record of struggle and endurance—a seminal literary work that illuminates our own time.

*Postcolonial Justice* addresses a crucial issue in current postcolonial theory: the question of how to reconcile an ethics of diversity and difference with the normative, if not universal thrust that appears to energize any notion of justice.
