*The Why of the Buy*

Houghton Mifflin

Ever since 1989, the Faculty of Organizational Sciences, University of Belgrade, has been the host of SymOrg, an event that promotes scientific disciplines of organizing and managing a business. Traditionally, the Symposium has been an opportunity for its participants to share and exchange both academic and practical knowledge and experience in a pleasant and creative atmosphere. This time, however, due the challenging situation regarding the COVID-19 pandemic, we have decided that all the essential activities planned for the International Symposium SymOrg 2020 should be carried out online between the 7th and the 9th of September 2020. We are very pleased that the topic of SymOrg 2020, "Business and Artificial Intelligence", attracted researchers from different institutions, both in Serbia

and abroad. Why is artificial intelligence a disruptive technology? Simply because "it significantly alters the way consumers, industries, or businesses operate." According to the European Commission document titled Artificial Intelligence for Europe 2018, AI is a key disruptive technology that has just begun to reshape the world. The Government of the Republic of Serbia has also recognized the importance of AI for the further development of its economy and society and has prepared an AI Development Strategy for the period between 2020 and 2025. The first step has already been made: the Science Fund of the Republic of Serbia, after a public call, has selected and financed twelve AI projects. This year, more than 200 scholars and practitioners authored and co-authored the 94 scientific and research papers that had been accepted for publication in the Proceedings. All the contributions to the Proceedings are classified into the following 11 sections: Information Systems and Technologies

in the Era of Digital Transformation Smart Business Models and Processes Entrepreneurship, Innovation and Sustainable Development Smart Environment for Marketing and Communications Digital Human Resource Management Smart E-Business Quality 4.0 and International Standards Application of Artificial Intelligence in Project Management Digital and Lean Operations Management Transformation of Financial Services Methods and Applications of Data Science in Business and Society We are very grateful to our distinguished keynote speakers: Prof. Moshe Vardi, Rice University, USA, Prof. Blaž Zupan, University of Ljubljana, Slovenia, Prof. Vladan Devedžić, University of Belgrade, Serbia, Milica Đurić-Jovičić, PhD, Director, Science Fund of the Republic of Serbia, and Harri Ketamo, PhD, Founder & Chairman of HeadAI Ltd., Finland. Also, special thanks to Prof. Dragan Vukmirović, University of Belgrade, Serbia and Prof. Zoran

Ševarac, University of Belgrade, Serbia for organizing workshops in fields of Data Science and Machine Learning and to Prof. Rade Matić, Belgrade Business and Arts Academy of Applied Studies and Milan Dobrota, PhD, CEO at Agremo, Serbia, for their valuable contribution in presenting Serbian experiences in the field of AI. The Faculty of Organizational Sciences would to express its gratitude to the Ministry of Education, Science and Technological Development and all the individuals who have supported and contributed to the organization of the Symposium. We are particularly grateful to the contributors and reviewers who made this issue possible. But above all, we are especially thankful to the authors and presenters for making the SymOrg 2020 a success!

*Exploring the Dynamics of Consumerism in Developing Nations* Wiley  
This volume provides an outline of the changing landscape of international business and consumer behaviour, in the light of ongoing disruption caused by the COVID-19 pandemic. It highlights a

number of key factors that have shaped (and continue to shape) the business world and society as a whole. Its focus is on identifying and explaining emerging trends in the field of business management and consumer behaviour, paying attention to the influence of context (both cultural context and corporate context) and generational belonging. This knowledge is needed for a better understanding of the changing world, and for developing digital products and services that meet the evolving needs of individuals and businesses.

### EXPLORING MARKETING RESEARCH

IGI Global  
Consumers no longer simply "buy stuff" -- they forge their entire identities around a carefully selected set of brands. Consequently, they must become active participants in the development and marketing of products. This book details the factors that contribute to this continuing revolution, and reveals how companies can leverage their customers as an integral part of their branding and marketing strategies. It contains

cutting-edge content, written in a lively, conversational style.

### MARKETING RESEARCH

IGI Global  
To gain the most competitive edge, marketers must continually optimize their promotional strategies. While the adult population is a prominent target, there is significant market potential for young consumers as well. Analyzing Children's Consumption Behavior: Ethics, Methodologies, and Future Considerations presents a dynamic overview of the best practices for marketing products that target children as consumers and analyzes the most effective promotional strategies being utilized. Highlighting both the advantages and challenges of targeting young consumers, this book is a pivotal reference source for marketers, professionals, researchers, upper-level students, and practitioners interested in emerging perspectives on children's consumption behavior.

Pearson  
**ADVERTISING AND INTEGRATED BRAND PROMOTION**, 4th Edition is highly visual and provides an integrated learning experience for the student. The new edition continues the tradition of delivering a solid understanding of advertising strategy, through a clearly written text as well as through the most contemporary ads. The table of contents follows the same process as an advertising agency. Like other aspects of business, good advertising is the result of hard work and careful planning. The new edition of Advertising and Integrated Brand Promotion illustrates how to best accomplish this.  South Western Educational Publishing  
**EXPLORING MARKETING RESEARCH**, 11E, provides a thorough guide to the design, execution,

analysis, and reporting of marketing research to support effective business decisions. The text prepares students to approach marketing research from a management perspective rather than as hands-on practitioners, providing valuable business context while introducing both traditional research methods, such as designing questionnaires, and the latest technological advances, including current data collection devices, data analysis tools, practical approaches to data analytics, and the impact of social media and artificial online data. In addition to updates based on recent trends and technology, the new 11th Edition features an increased emphasis on ethical and international issues, reflecting their growing importance in modern marketing research. ### **POST-COVID-19 PERSPECTIVES ON INTERNATIONAL**

### **BUSINESS**

McGraw-Hill/Irwin  
 This book sets out the new frontier of marketing and communication through real case histories. Companies must rethink their traditional approaches to successfully face the upcoming challenges. They must learn how to innovate and change things when they go well. New emerging technologies such as AI and IoT are the new frontiers of the digital transformation that are radically changing the way consumers and companies communicate and engage with each other. Marketing makes a company a change-maker, while communications tell the story to engage customers and stakeholders. The book introduces brand positioning (to match brand values and consumers' attributes), and brand as human being (to raise trust, loyalty and engagement among customers and stakeholders), through Enel X and its partnership with Formula E in the e-mobility case, and the PMI case (its disruptive effect on tobacco industry). After a deep analysis of

the disruptive effects on business models of the digital transformation, the book explores digital communications through the Pietro Coricelli case (how a well-designed digital strategy can raise reputation and sales). The book also provides a new holistic approach and identifies a future leader, through the H-FARM case (how to disrupt business models and education). The book is aimed at researchers, students and practitioners, and provides an improved understanding of marketing and communications, and the evolution of the strategic, organisational, and behavioural model.

'Clothing that is not purchased or worn is not fashion' (to paraphrase Armani) Knowledge of marketing is essential to help ensure success and reduce the risk of failure in fashion. For the designer starting up in business, this book offers a guide to the major decisions that will enable

you to fulfil your creative potential and be a financial success: What are the major trends we should be monitoring?; How should we set our prices?; What is the most effective way to get our message across about the new product range?; Which colour-wash will be the most popular with buyers? Marketing is now a firmly established element of most fashion and clothing courses. Fashion Marketing is written to meet students' requirements and has many features making it essential reading for anyone involved in the fashion and clothing business: · deals with contemporary issues in fashion marketing · up-to-date examples of global good practice · exclusively about fashion marketing · a unique contribution on range planning with a practical blend of sound design sense and commercial realism · a balance of theory and practice, with examples to illustrate key concepts · clear worked numerical examples to ensure that the ideas are easily understood and retained · over 50 diagrams · a glossary of the main fashion marketing terms and a guide to further reading · a systematic

approach to fashion marketing, not hyperbole or speculation. The new edition has been updated throughout with new material on different promotional media, visual marketing and international marketing research; and new coverage of internal marketing, supply chain management, international marketing communications as well as the role of the internet. See [www.blackwellpublishing.com/easey](http://www.blackwellpublishing.com/easey) for supporting pack for tutors, including PowerPoint slides for each chapter plus ideas and exercises for seminars. [Marketing Pearson Etext Access Card](#) Infinite Ideas Why is BASIC MARKETING RESEARCH the best-selling marketing textbook? Because it's written to your perspective as a student. Authors Churchill and Brown know that for a marketing textbook to be effective, students have to be able to understand it. And they've achieved that time and again. This edition is packed with the features that made it a best-seller in the first place, from study tools to updated content to an easy-to-read writing style. Plus, in this volume you'll learn more about how

experts gather data and how to use it yourself to turn greater profits.

### **Consumer Behavior**

Irwin Professional Publishing In the past few years, interest in plug-in electric vehicles (PEVs) has grown. Advances in battery and other technologies, new federal standards for carbon-dioxide emissions and fuel economy, state zero-emission-vehicle requirements, and the current administration's goal of putting millions of alternative-fuel vehicles on the road have all highlighted PEVs as a transportation alternative. Consumers are also beginning to recognize the advantages of PEVs over conventional vehicles, such as lower operating costs, smoother operation, and better acceleration; the ability to fuel up at home; and zero tailpipe emissions when the vehicle operates solely on its battery. There are, however, barriers to PEV

deployment, including the vehicle cost, the short all-electric driving range, the long battery charging time, uncertainties about battery life, the few choices of vehicle models, and the need for a charging infrastructure to support PEVs. What should industry do to improve the performance of PEVs and make them more attractive to consumers? At the request of Congress, *Overcoming Barriers to Deployment of Plug-in Electric Vehicles* identifies barriers to the introduction of electric vehicles and recommends ways to mitigate these barriers. This report examines the characteristics and capabilities of electric vehicle technologies, such as cost, performance, range, safety, and durability, and assesses how these factors might create barriers to widespread deployment. *Overcoming Barriers to Deployment of Plug-in Electric Vehicles* provides an overview of the current status of PEVs and makes recommendations to spur the industry and increase the attractiveness of this promising technology for consumers. Through consideration of consumer behaviors, tax incentives,

business models, incentive programs, and infrastructure needs, this book studies the state of the industry and makes recommendations to further its development and acceptance.

## RESEARCH IN CONSUMER BEHAVIOR

Cerebellum Press

This work shows how the various elements of consumer analysis fit together in an integrated framework, called the Wheel of Consumer Analysis. Psychological, social and behavioural theories are shown as useful for understanding consumers and developing more effective marketing strategies. The aim is to enable students to develop skills in analyzing consumers from a marketing management perspective and in using this knowledge to develop and evaluate marketing strategies. The text identifies three groups of concepts - affect and cognition, behaviour and the environment - and shows how these they influence each other as well as marketing strategy. The focus of the text is managerial, with a distinctive emphasis on strategic issues and problems. Cases and questions are included in each chapter.
