Designed for North American students, this special version of the Oxford Latin Course combines the best features of

both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part. Parts I-III (now available in hardcover editions) are built around a narrative detailing the life of Horace, now based more closely on historical sources, which helps students to get to know real Romans--with their daily activities, concerns, and habits--and to develop an understanding of Roman civilization during the time of Cicero and Augustus. Part IV (paperback) is a reader consisting of extracts from Caesar, Cicero, Catullus, Virgil, Livy, and Ovid. The second edition of the Oxford Latin Course has been carefully designed to maximize student interest, understanding, and competence. It features a clearer presentation of grammar, revised narrative passages, new background sections, more emphasis on daily life and on the role of women, a greater number and variety of exercises, and review chapters and tests. Each chapter opens with a set of cartoons with Latin captions that illustrate new grammar points. A Latin reading follows, with new vocabulary highlighted in the margins and follow-up exercises that focus on reading comprehension and grammatical analysis. A background essay in English concludes each chapter. Covering a variety of topics--from history to food, from slavery to travel, these engaging essays present a well-rounded picture of

Augustan Rome. The Oxford Latin Course, Second Edition offers today's students and teachers an exceptionally engaging and attractive introduction to the language, literature, and culture of Rome--one that builds skills effectively and is exciting to use.

Reading Latin, first published in 1986, is a bestselling Latin course designed to help mature beginners read classical Latin fluently and intelligently. It does this in three ways: it encourages the reading of continuous texts from the start; it offers generous help with translation at every stage; and it integrates the learning of classical Latin with an appreciation of the influence of the Latin language upon English and European culture from antiquity to the present. The Text and Vocabulary, richly illustrated, consists at the start of carefully graded adaptations from original classical Latin texts. The adaptations are gradually phased out until unadulterated prose and verse can be read. The accompanying Grammar and Exercises volume completes the course by supplying all the grammatical help needed, and the second edition has been fully revised and updated. It has also been extensively redesigned to

make it clearer and easier to navigate.

The Cambridge Grammar of Classical Greek Cambridge University Press

This reader contains selections from Tacitus, Suetonius and Seneca on the first five Roman emperors. They present a dark world of murder, mayhem, debauchery and palace intrigue: Augustus with his firm moral policies and secret adulterous affairs; the sour and depraved Tiberius; the extravagance and madness of Caligula; the slobbering and ineffective Claudius; and Nero with his absurd artistic pretensions. Exciting, horrific and moving, the selections are also valuable for studying style and rhetoric, human nature and the roles of women, imperialism and corruption. The book is aimed at students moving on to genuine, unsimplified Latin prose after completing an introductory Latin course. It contains a useful introduction, detailed notes providing a lot of help with

grammar, expression and translation, a full vocabulary, and an appreciation offering historical comment for context and analysis and literary criticism to make the passages come alive as literature and enhance students' perception and enjoyment.
