When Dilbert first
appeared in newspapers

across the country in 1989, office workers looked around suspiciously. Was its creator, Scott Adams, a pen name for someone who worked amongst them? After all, the humor was just too eerily funny and familiar. Since then, Dilbert has become more than a cartoon character. He's become an office icon. In Another Day in Cubicle Paradise Dilbert and his cohorts, Dogbert, Catbert, Ratbert, and the pointy-haired boss, once again entertain with their cubicle humor. From

bizarre personnel decisions to meetings gone bad, from schizoid secretaries to consultants from hell, Another Day in Cubicle Paradise provides a way to get all those darn comic strips off the breakroom bulletin board. **The Cyclopaedia; Or, an Universal Dictionary of Arts, Sciences, and Literature** Scribner In AD 3150 on Zerian, the home world of the Intergalactic Riders, the past has come back to haunt the peoples of the galaxy. A chain of events is about to unleash an

ancient and powerful evil. Every living being in the galaxy faces the very real threat of annihilation unless a young guardian named Altar can find a way to get a message across the time barrier. Can an action of the present truly impact history? As Altar travels ahead of a team of extraordinary heroes to locate the signal that is resonating from the Trimex galaxy, he finds his capsule being pulled into a temporal superstorm that bridges the gap to another galaxy

from the past called the Milky Way. Altar is transported back in time to man's earliest beginnings, where his directives and mission becomes entangled. There, the guardian must piece together all the clues and make a choice, as time becomes his greatest enemy. Will Altar decipher the diabolical scheme in time to stop a tyrant's revenge, or will the fate of the past and future galaxies be decided by an ancient and terrifying evil with access to powers beyond his

comprehension? Altar and the Intergalactic Riders must race against time to save the galaxy from annihilation. If Zerian falls from the heavens, could Earth be next?

A “vividly told” history of torpedo attacks from the air in the Second World War, by a member of the Royal Air Force (The Sunday Times). Low-level strikes against enemy shipping by torpedo-carrying aircraft were perhaps the most dangerous forms of air attack developed during WWII, and few isolated actions had such a direct impact on naval and military actions. This book tells the story of the RAF men involved, from the early attacks by single Beauforts off the Dutch

and Norwegian coasts to the massed assaults of later years by the famous “strike-wings.” The author, who joined the RAF in 1940 as a wireless operator/ air gunner, and served in the UK, the Middle East, and West Africa, and whose career on torpedo work ended in a crash in which his pilot and navigator were killed, includes many historic actions: the lone moonlight attack by a twenty-two-year-old flight sergeant on the pocket-battleship Lützow; the torpedoing of the

Gneisenau in Brest harbor; the Channel Dash of the Scharnhorst, Gneisenau, and Prinz Eugen and the heroic Swordfish attacks; and the vital strikes from Malta in 1942 against the Italian fleet and the supply shipping of the Afrika Korps. The result is a fascinating book, vivid in its true picture of aircrew life, stirring in its descriptions of heroic actions, intensely moving in its record of human endeavor.

The #1 international bestseller reminiscent of *After I'm Gone*, *Sister*, *Before I Go to Sleep*, and *The Silent Wife*—an intricately plotted, thoroughly addictive thriller that introduces a major new voice in suspense fiction—a mesmerizing and powerful novel that will keep you guessing to the very end. No one has ever guessed Emily's secret. Will you? A happy marriage. A beautiful family. A lovely home. So what makes Emily Coleman get up one morning and walk right

out of her life—to start again as someone new? Now, Emily has become Cat, working at a hip advertising agency in London and living on the edge with her inseparable new friend, Angel. Cat's buried any trace of her old self so well, no one knows how to find her. But she can't bury the past—or her own memories. And soon, she'll have to face the truth of what she's done—a shocking revelation that may push her one step too far. . . . **A Novel** Independently Published

Have you ever gone just a little too far? Lexie Banks has. Yep. She just had mind-blowing sex with her stepbrother. In her defense, she was on the rebound, and it's more of a my-dad-happened-to-marry-a-woman-with-a-super-hot-son situation. But still, he's been her best friend and confidant for the better part of the last few years . . . and is so off limits. It's a good thing she's leaving in two days for a year abroad in Rome. But even thousands of miles away, Lexie can't seem to

escape trouble. Raised Catholic, she goes to confession in hopes of alleviating some of her guilt . . . and maybe not burning in hell. Instead, she stumbles out of the confessional and right into Alessandro Moretti, a young and very easy-on-the-eyes deacon . . . only eight months away from becoming a priest. Lexie and Alessandro grow closer, and when Alessandro's signals start changing despite his vow of celibacy, she doesn't know what to think. She's torn between falling in

love with the man she shouldn't want and the man she can't have. And she isn't sure how she can live with herself either way.

An incredible, true-life adventure set on the most dangerous frontier of all—outer space! In the nearly forty years since Neil Armstrong walked on the moon, space travel has come to be seen as a routine enterprise—at least until the shuttle Columbia disintegrated like the Challenger before it, reminding us, once again, that the dangers are all too real. Too Far

from Home vividly captures the hazardous realities of space travel. Every time an astronaut makes the trip into space, he faces the possibility of death from the slightest mechanical error or instance of bad luck: a cracked O-ring, an errant piece of space junk, an oxygen leak . . . There are a myriad of frighteningly probable events that would result in an astronaut's death. In fact, twenty-one people who have attempted the journey have been killed. Yet for a special breed of

individual, the call of space is worth the risk. Men such as U.S. astronauts Donald Pettit and Kenneth Bowersox, and Russian flight engineer Nikolai Budarin, who in November 2002 left on what was to be a routine fourteen-week mission maintaining the International Space Station. But then, on February 23, 2003, the Columbia exploded beneath them. Despite the numerous news reports examining the tragedy, the public remained largely unaware

that three men remained orbiting the earth. With the launch program suspended indefinitely, these astronauts had suddenly lost their ride home. Too Far from Home chronicles the efforts of the beleaguered Mission Controls in Houston and Moscow as they work frantically against the clock to bring their men safely back to Earth, ultimately settling on a plan that felt, at best, like a long shot. Latched to the side of the space station was a Russian-built Soyuz TMA-1

capsule, whose technology dated from the late 1960s (in 1971 a malfunction in the Soyuz 11 capsule left three Russian astronauts dead.) Despite the inherent danger, the Soyuz became the only hope to return Bowersox, Budarin, and Pettit home. Chris Jones writes beautifully of the majesty and mystique of space travel, while reminding us all how perilous it is to soar beyond the sky.

Simon and Schuster
 A person can never get too far from God and His plan and purpose for their life that they can't get back to Him and have a fresh start. There is always a way forward that will prevent a person's current circumstances from having the final say in life. God has a plan for a comeback. It's never too late for Him, no matter what kind of challenge an individual is facing. Adapted from material previously published in

The Comeback, Louie Giglio addresses the feelings we all have from time to time that life is disappointing and not working out as we'd hoped. We long for something different, something better, something more. Never Too Far celebrates new beginnings. It offers encouragement and perspective, and it's for you if you feel frustrated or confused, if you're sorrowing or in pain, if you've made mistakes or are grieving, if you're disappointed or feel as

though life doesn't make sense. The good news is that God is in the business of giving fresh starts to people. He gives hope to the hopeless. Direction to the directionless. Help to those who need help. God is always good, all the time, and God's plans will always prevail, even when our plans don't. God already knows what the solutions are. No matter what kind of disappointment or grief or pain or trouble or heartache you encounter, God always offers a new beginning, a change of

heart, or a powerful spiritual turnaround. God offers the way forward, and his pathways are always good.

Sourcebooks, Inc. Astrid Bjorklund wants to use her medical training to serve God and feels that He might be leading her in the direction of missionary work. Smarting from a misunderstanding with Joshua Landsverk, the young man she thought she loved, she heads east

to a missionary training school, hoping to eventually use her skills in some remote outpost in Africa. When she is called home unexpectedly to help in a family medical emergency, Astrid learns of a deadly measles outbreak on the nearby Indian reservation. She immediately senses the Spirit tugging her to help the Indians and wonders if her "mission field" is not so far away as she had imagined. But if she follows God's call, will love pass her by?

The New York Times bestselling novel that continues the passionate story of Rush and Blaire from *Fallen Too Far*. Our relationship had been short. Intense and brief. I wondered what it would have felt like to curl up in Rush's arms anytime I wanted. To know I was safe and that he loved me. We'd never had that chance. Just when Blaire allowed herself to fall for her stepbrother, Rush, he

revealed a life-altering secret so devastating that she couldn't forgive him. Unable to face him again, Blaire leaves the promise of true love behind in Rosemary Beach and returns to the comforts of her small town in Alabama, wanting nothing more than to put the summer behind her. But unexpected news complicates Blaire's plans, and she's forced to trust the one man she shouldn't. Trapped between Rush's fierce desire to win her back and her own sense of self-

preservation, Blaire doesn't know if she's doing the right thing...or if she's making the biggest mistake of her life.

A STORY OF LIFE AND DEATH IN SPACE

Cambridge University Press

In the bestselling tradition of *The Perfect Storm* and *The Finest Hours*, “an exquisitely written and dramatic book...a literary page-turner” (Doug Stanton, #1 New York Times bestselling author of *Horse Soldiers*)—the 2015 mysterious disappearance of the SS *El Faro*, a gigantic American cargo ship that sank in the Bermuda Triangle, taking with it

thirty-three lives. On October 1, 2015, the SS *El Faro*, a massive American cargo ship disappeared in Hurricane Joaquin, a category 4 storm. The ship, its hundreds of shipping containers, and its entire crew plummeted to the bottom of the ocean, three miles down. It was the greatest seagoing US merchant marine shipping disaster since World War II. The massive ship had a seasoned crew, state-of-the-art navigation equipment, and advance warning of the storm. It

seemed incomprehensible that such a ship could sink so suddenly. How, in this day and age, could something like this happen? Relying on Coast Guard inquest hearings, as well as on numerous interviews, George Michelsen Foy brings us “the most insightful exploration of this unthinkable disaster” (*Outside*), a story that lasts only a few days, but which grows almost intolerably suspenseful as deep-rooted flaws leading to the disaster inexorably link together and worsen.

We see captain, engineers, and crew fight for their lives, and hear their actual words (as recorded on the ship's black box) while the hurricane relentlessly tightens its noose around the ship. We watch, minute by minute, all that is happening on board—the ship's mysterious tilt to one side, worried calls to the engine room, ship-to-shore reports, the courage of the men and women as they fight to survive, and the berserk ocean's savage

consumption of the massive hull. And through it all, the pain and ultimate resilience of the families of El Faro's crew. Now with a new afterword, this "tour de force of nautical expertise" (Ocean Navigator) is a masterwork of stunning power.

it only took a summer to for everything to change... Fallen Too Far was Blaire's story. Now it's time for Rush to share his side, and for readers to fall all over again!

FOREVER TOO FAR

Anchor

Driven by a passion for travel and history and a love of ships and the sea, former Monty Python stalwart and beloved television globe-trotter Michael Palin explores the world of HMS Erebus, last seen on an ill-fated voyage to chart the

Northwest Passage. Michael Palin brings the fascinating story of the Erebus and its occupants to life, from its construction as a bomb vessel in 1826 through the flagship years of James Clark Ross's Antarctic expedition and finally to Sir John Franklin's quest for the holy grail of navigation—a route through the Northwest Passage, where the ship disappeared into the depths of the sea for more than 150 years. It was rediscovered under the arctic waters in 2014.

Palin travels across the world—from Tasmania to the Falkland Islands and the Canadian Arctic—to offer a firsthand account of the terrain and conditions that would have confronted the Erebus and her doomed final crew. Delving into the research, he describes the intertwined careers of the two men who shared the ship's journeys: Ross, the organizational genius who mapped much of the Antarctic coastline and oversaw some of the earliest scientific experiments to be

conducted there; and Franklin, who, at the age of sixty and after a checkered career, commanded the ship on its last disastrous venture. Expertly researched and illustrated with maps, photographs, paintings, and engravings, *Erebus* is an evocative account of two journeys: one successful and forgotten, the other tragic yet unforgettable. *A Ship Too Far* Harper Collins
This thrilling bestseller and National Book Award Finalist is a gritty, high-

stakes adventure of a teenage boy faced with conflicting loyalties, set in a dark future America devastated by the forces of climate change. In America's flooded Gulf Coast region, oil is scarce, but loyalty is scarcer. Grounded oil tankers are being broken down for parts by crews of young people. Nailer, a teenage boy, works the light crew, scavenging for copper wiring just to make quota- and hopefully live to see another day. But when, by luck or by chance, he

discovers an exquisite clipper ship beached during a recent hurricane, Nailer faces the most important decision of his life: Strip the ship for all it's worth or rescue its lone survivor, a beautiful and wealthy girl who could lead him to a better life.... In this powerful novel, Hugo and Nebula Award winning author Paolo Bacigalupi delivers a fast-paced adventure set in the vivid and raw, uncertain future of his companion novels *The Drowned Cities* and *Tool*

of War. "Suzanne Collins may have put dystopian literature on the YA map with *The Hunger Games*...but Bacigalupi is one of the genre's masters, employing inventively terrifying details in equally imaginative story lines." -- Los Angeles Times A New York Times Bestseller A Michael L.
