CONCEALMENT AND REVELATION

Effortless Math Education www.EffortlessMath.com

This book explores the practical and symbolic resources of legitimacy which the elites of medieval Scandinavia employed to establish, justify, and reproduce their social and political standing between the end of the Viking Age and the rise of kingdoms in the thirteenth century. Geographically the chapters cover the Scandinavian realms and Free State Iceland. Thematically the authors cover a wide palette of cultural practices and historical sources: hagiography, historiography, spaces and palaces, literature, and international connections, which rulers, magnates or ecclesiastics used to compete for status and to reserve halting glory for themselves. The volume is divided in three sections. The first looks at the sacral, legal, and acclamatory means through which privilege was conferred onto kings and ruling families. Section Two explores the spaces such as aristocratic halls, palaces, churches in which the social elevation of elites took place. Section Three explores the traditional and novel means of domestic distinction and international cultural capital which different orders of elites - knights, powerful clerics, ruling families etc. - wrought to assure their dominance and set themselves apart vis-à-vis their peers and subjects. A concluding chapter discusses how the use of symbolic capital in the North compared to wider European contexts.

It is a common—and fundamental—misconception that Paul told people how to live. Apart from forbidding certain abusive practices, he never gives any precise instructions for living. It would have violated his two main social principles: human freedom and dignity, and the need for people to love one another. Paul was a Hellenistic Jew, originally named Saul, from the tribe of Benjamin, who made a living from tent making or leatherworking. He called himself the “Apostle to the Gentiles” and was the most important of the early Christian evangelists. Paul is not easy to understand. The Greeks and Romans themselves probably misunderstood him or skimmed the surface of his arguments when he used terms such as “law” (referring to the complex system of Jewish religious law in which he himself was trained). But they did share a language—Greek—and a cosmopolitan urban culture, that of the Roman Empire. Paul considered evangelizing the Greeks and Romans to be his special mission. “For you were called to freedom, brothers and sisters; only do not use your freedom as an opportunity for self-indulgence, but through love become slaves to one another. For the whole law is summed up in a single commandment, ‘You shall love your neighbor as yourself.’” The idea of love as the only rule was current among Jewish thinkers of his time, but the idea of freedom being available to anyone was revolutionary. Paul, regarded by Christians as the greatest interpreter of Jesus’ mission, was the first person to explain how Christ’s life and death fit into the larger scheme of salvation, from the creation of Adam to the end of time. Preaching spiritual equality and God’s infinite love, he crusaded for the Jewish Messiah to be accepted as the friend and deliverer of all humankind. In *Paul Among the People*, Sarah Ruden explores the meanings of his words and shows how they

might have affected readers in his own time and culture. She describes as well how his writings represented the new church as an alternative to old ways of thinking, feeling, and living. Ruden translates passages from ancient Greek and Roman literature, from Aristophanes to Seneca, setting them beside famous and controversial passages of Paul and their key modern interpretations. She writes about Augustine; about George Bernard Shaw’s misguided notion of Paul as “the eternal enemy of Women”; and about the misuse of Paul in the English Puritan Richard Baxter’s strictures against “flesh-pleasing.” Ruden makes clear that Paul’s ethics, in contrast to later distortions, were humane, open, and responsible. *Paul Among the People* is a remarkable work of scholarship, synthesis, and understanding; a revelation of the founder of Christianity.
