BURGESS NEAL

Operation DOWNFALL and the Invasion of Japan, 1945-1947 Challenger's Call An electrifying and timely book, by leading Russian expert Richard Lourie, that explores Putin's failures and whether Trump's election gives Putin extraordinarily dangerous opportunities in our mad new world. "A master chronicler of modern Russia. Drawing on his own expertise, Lourie paints a convincing portrait of a ruthless authoritarian leader headed toward failure. This book serves as an essential primer on Putin and, by extension, Russia."—Publishers Weekly For reasons that are made clear in this book, Putin's Russia will collapse just as Imperial Russia did in 1917 and as Soviet Russia

did in 1991. The only questions are when, how violently, and with how much peril for the world. The U.S. election complicates everything, including: · Putin's next land grab · Exploitations of the Arctic · Cyber-espionage · Putin and China ...and many more crucial topics. *Putin: His Downfall and Russia's Coming Crash* is an essential read for everybody bewildered and dismayed by the new world order.

Germany's Hyperinflation and the Destruction of the Middle Class Simon and Schuster

Sheds new light on the end of the Pacific campaign during World War II, including such controversies as Russia's role in the war and the dropping of the atomic bomb

RACING THE ENEMY

W. W. Norton & Company

An economic horror story: The complete meltdown of a major modern country's financial system, and its disastrous effects on every aspect of society. A hundred years ago, many theorists believed—just as they did at the beginning of our twenty-first century—that the world had reached a state of economic perfection, a never before seen human interdependence that would lead to universal growth and prosperity. Then, as now, the German mark was one of the most trusted currencies in the world. Yet the early years of the Weimar Republic in Germany witnessed the most calamitous meltdown of a developed economy in modern times. The Downfall

of Money will tell anew the dramatic story of the hyperinflation that saw the mark-worth 4.2 to the dollar in 1914—plunge until it traded at over 4 trillion to 1 by the autumn of 1923. The story of the Weimar Republic's financial crisis clearly resonates today, when the world is again anxious about what money is, what it means, and how we can judge if its value is true. It is a trajectory of events uncomfortably relevant for our own uncertain world. Frederick Taylor—one of the leading historians of Germany writing today—explores the causes of the crisis and what the collapse meant to ordinary people and traces its connection to the dark decades that followed. Drawing on a wide range of sources and accessibly presenting vast amounts of research, The Downfall of

Money is a timely and chilling exploration of a haunting episode in history.

Simon and Schuster

It's the end of the world as we know it...

Someday soon, you might wake up to the call to prayer from a muezzin.

Europeans already are. And liberals will still tell you that "diversity is our strength"--while Talibanic enforcers cruise Greenwich Village burning books and barber shops, the Supreme Court decides sharia law doesn't violate the "separation of church and state," and the Hollywood Left decides to give up on gay rights in favor of the much safer charms of polygamy. If you think this can't happen, you haven't been paying attention, as the hilarious, provocative, and brilliant Mark Steyn--the most

popular conservative columnist in the English-speaking world--shows to devastating effect. The future, as Steyn shows, belongs to the fecund and the confident. And the Islamists are both, while the West is looking ever more like the ruins of a civilization. But America can survive, prosper, and defend its freedom only if it continues to believe in itself, in the sturdier virtues of self-reliance (not government), in the centrality of family, and in the conviction that our country really is the world's last best hope. Mark Steyn's America Alone is laugh-out-loud funny--but it will also change the way you look at the world.

WHAT ENTREPRENEURS AND EXECUTIVES SHOULD DO BEFORE

WRITING A BUSINESS PLAN

Little, Brown Spark

June 2019: The minutes tick away toward six pm. As commuters stream out of central London a truck idles by the pavement in Whitehall, its cargo bay packed with powerful explosives. Chaos is about to begin. The face of Europe is about to change, moulded by a series of events that will have global repercussions far into the future.

THE GREAT GATSBY BY F. SCOTT

FITZGERALD Key features of this book: * Unabridged with 100% of it's original content * Available in multiple formats:

eBook, original paperback, large print paperback and hardcover * Easy-to-read 12 pt. font size * Proper paragraph formatting with Indented first lines, 1.25 Line Spacing and Justified Paragraphs * Properly formatted for aesthetics and ease of reading. * Custom Table of Contents and Design elements for each chapter * The Copyright page has been placed at the end of the book, as to not impede the content and flow of the book. Original publication: 1925 The Great Gatsby - The story of the mysteriously wealthy Jay Gatsby and his love for the beautiful Daisy Buchanan, This book is F. Scott Fitzgerald's third book and stands as the supreme achievement of his career. First published in 1925, this classic novel of the Jazz Age has been acclaimed by generations of readers

which depicts the life of lavish parties on Long Island is an exquisitely crafted tale of America in the 1920s. This book is great for schools, teachers and students or for the casual reader, and makes a wonderful addition to any classic literary library At Pure Snow Publishing we have taken the time and care into formatting this book to make it the best possible reading experience. We specialize in publishing classic books and have been publishing books since 2014. We now have over 500 book listings available for purchase. Enjoy!

Iron Kingdom Troubadour Publishing Ltd
“Brilliant...an enormous work based on the most meticulous research.”—LA Times Book Review The battle at Guadalcanal—which began eight months to the day after Pearl Harbor—marked

the first American offensive of World War II. It was a brutal six-month campaign that cost the lives of some 7,000 Americans and over 30,000 Japanese. This volume, ten years in the writing, recounts the full story of the critical campaign for Guadalcanal and is based on first-time translations of official Japanese Defense Agency accounts and recently declassified U.S. radio intelligence, Guadalcanal recreates the battle—on land, at sea, and in the air—as never before: it examines the feelings of both American and Japanese soldiers, the strategies and conflicts of their commanders, and the strengths and weaknesses of various fighting units.

A BRADY NOVEL OF SUSPENSE

Bloomsbury Publishing USA

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the

humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

Billion Dollar Loser Penguin UK

Two of America's leading national security experts offer a definitive account of the global impact of COVID-19 and the political shock waves it will have on the United States and the world order in the 21st Century. "Informed by history, reporting, and a truly global perspective, this is an indispensable first draft of history and blueprint for how we can move forward." —Ben Rhodes *The COVID-19 pandemic* killed millions, infected hundreds of millions, and laid bare the deep vulnerabilities and inequalities of our

interconnected world. The accompanying economic crash was the worst since the Great Depression, with the International Monetary Fund estimating that it will cost over \$22 trillion in global wealth over the next few years. Over two decades of progress in reducing extreme poverty was erased, just in the space of a few months. Already fragile states in every corner of the globe were further hollowed out. The brewing clash between the United States and China boiled over and the worldwide contest between democracy and authoritarianism deepened. It was a truly global crisis necessitating a collective response—and yet international cooperation almost entirely broke down, with key world leaders hardly on speaking terms. Colin Kahl and Thomas

Wright's *Aftershocks* offers a riveting and comprehensive account of one of the strangest and most consequential years on record. Drawing on interviews with officials from around the world and extensive research, the authors tell the story of how nationalism and major power rivalries constrained the response to the worst pandemic in a century. They demonstrate the myriad ways in which the crisis exposed the limits of the old international order and how the reverberations from COVID-19 will be felt for years to come.

The Downfall of the American Order? *Downfall: The End of the Imperial Japanese Empire*
1945: Russian troops have entered Berlin, and are engaged in a violent orgy of robbery, rape, and revenge...

Wehrmacht officer Hasso Pemsel, a career soldier on the losing end of the greatest war in history, flees from a sniper's bullet, finding himself hurled into a mysterious, fantastic world of wizards, dragons, and unicorns. There he allies himself with the blond-haired, blue-eyed Lenelli, and Velona, their goddess in human form, offering them his knowledge of warfare and weaponry in their genocidal struggle against a race of diminutive, swarthy barbarians known as Grenye. But soon, the savagery of the Lenelli begins to eat at Hasso Pemsel's soul, causing him to question everything he has long believed about race and Reich, right and wrong, Übermenschen and Untermenschen. Hasso Pemsel will learn the difference between following orders... and following his conscience.

The End of the Imperial Japanese Empire
HarperCollins

Named a Best History Book of 2019 by The Times (UK) The astounding true story of how thousands of ordinary Germans, overcome by shame, guilt, and fear, killed themselves after the fall of the Third Reich and the end of World War II. By the end of April 1945 in Germany, the Third Reich had fallen and invasion was underway. As the Red Army advanced, horrifying stories spread about the depravity of its soldiers. For many German people, there seemed to be nothing left but disgrace and despair. For tens of thousands of them, the only option was to choose death -- for themselves and for their children. "Promise Me You'll Shoot Yourself" recounts this little-known mass event.

Using diaries, letters, and memoirs, historian Florian Huber traces the euphoria of many ordinary Germans as Hitler restored national pride; their indifference as the Führer's political enemies, Jews, and other minorities began to suffer; and the descent into despair as the war took its terrible toll, especially after the invasion of the Soviet Union. Above all, he investigates how suicide became a contagious epidemic as the country collapsed. Drawing on eyewitness accounts and other primary sources, "Promise Me You'll Shoot Yourself" presents a riveting portrait of a nation in crisis, and sheds light on a dramatic yet largely unknown episode of postwar Germany.

Hitler: Downfall Henry Holt and Company
With startling revelations, Tsuyoshi

Hasegawa rewrites the standard history of the end of World War II in the Pacific. By fully integrating the three key actors in the story--the United States, the Soviet Union, and Japan--Hasegawa for the first time puts the last months of the war into international perspective. From April 1945, when Stalin broke the Soviet-Japanese Neutrality Pact and Harry Truman assumed the presidency, to the final Soviet military actions against Japan, Hasegawa brings to light the real reasons Japan surrendered. From Washington to Moscow to Tokyo and back again, he shows us a high-stakes diplomatic game as Truman and Stalin sought to outmaneuver each other in forcing Japan's surrender; as Stalin dangled mediation offers to Japan while secretly preparing to fight in the Pacific;

as Tokyo peace advocates desperately tried to stave off a war party determined to mount a last-ditch defense; and as the Americans struggled to balance their competing interests of ending the war with Japan and preventing the Soviets from expanding into the Pacific.

Authoritative and engrossing, *Racing the Enemy* puts the final days of World War II into a whole new light.

Atomic Salvation Macmillan

For decades after 1945, it was generally believed that the German army, professional and morally decent, had largely stood apart from the SS, Gestapo, and other corps of the Nazi machine. Ben Shepherd draws on a wealth of primary sources and recent scholarship to convey a much darker, more complex picture. For the first time,

the German army is examined throughout the Second World War, across all combat theaters and occupied regions, and from multiple perspectives: its battle performance, social composition, relationship with the Nazi state, and involvement in war crimes and military occupation. This was a true people's army, drawn from across German society and reflecting that society as it existed under the Nazis. Without the army and its conquests abroad, Shepherd explains, the Nazi regime could not have perpetrated its crimes against Jews, prisoners of war, and civilians in occupied countries. The author examines how the army was complicit in these crimes and why some soldiers, units, and higher commands were more complicit than others.

Shepherd also reveals the reasons for the army's early battlefield successes and its mounting defeats up to 1945, the latter due not only to Allied superiority and Hitler's mismanagement as commander-in-chief, but also to the failings—moral, political, economic, strategic, and operational—of the army's own leadership.

The Secret History Ft Press

As the final month of fighting in Europe in 1945 dawned the Allies embarked upon a series of mopping up operations, destroying the last centres of German resistance as the essentially defeated Wehrmacht fought on in increasingly desperate conditions, driven on by the explicit no surrender order issued by Hitler. Yet at the same time, the Allied alliance was already on shaky ground, as

German resistance was crushed the Allies began to eye each other nervously across a battletorn Europe, with the politically driven military decisions to have a huge impact on the future of the continent. This book traces the final operations of the war, from the liberation of Denmark, the Allied drive towards the Baltic straits, incursions in Yugoslavia, Hungary, Czechoslovakia and engagements in Eastern and Western Germany, whilst also analyzing how the Allied strategies in the final days of the war were a hint of the future difficulties that would drive the Cold War.

Digital Downfall Vintage

Mave knows where she stands in life. She's an Andinna. A member of the winged, horned, and tailed warrior race that the Elvasi Empire defeated in the

Hundred Year War and then enslaved. She's a slave, and has been one for a thousand years, the personal property of the Empress of the Elvasi Empire, since the end of the War. She's a gladiator, thrown onto the sands of the Colosseum to die, though it backfired on those who wanted her dead. She's the Champion of the Colosseum, and has been for roughly nine hundred years. All of these things have marked her as an outcast among her own people. Hated, distrusted, and despised, she knows the name of her people, but not much else. But she knows where she stands. Keeping her head down and her blades sharp has carried her this far, and she refuses to acknowledge the deepest wishes she holds in her heart. Those will only get her killed. Alone, she's stood against

everything they have ever thrown at her, refusing to give them what they want. What Mave doesn't know is that it's all about to change. The Gladiator's Downfall is a 129,000+, full-length novel. Age of the Andinna is a reverse harem epic fantasy series. The female lead will collect her lovers as the series progresses. There is triggering content in this series including but not limited to: abuse, violence, mature language, and sexual content. It's recommended for mature audiences.

A History of Nazi Germany Naval Institute Press

• New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the

climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, *Vox* “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and

apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in

the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

End of History and the Last Man

Penguin UK

An eye-opening, pathbreaking account of the onset of the Asia-Pacific War, by the acclaimed author of *Downfall* and *Guadalcanal*. In 1937, the swath of the globe east from India to the Pacific Ocean enclosed half the world's population, all save a fraction enduring under some form of colonialism. Japan's onslaught into China that year unleashed a tidal wave of events that fundamentally transformed this region

and killed about twenty-five million people. From just two nation states with real sovereignty, Thailand and Japan, and two with compromised sovereignty, China and Mongolia, the region today encompasses at least nineteen major sovereign nations. This extraordinary World War II narrative vividly describes in exquisite detail the battles across this entire region and links those struggles on many levels with their profound twenty-first-century legacies. Beginning with China's long-neglected years of heroic, costly resistance, Tower of Skulls explodes outward to campaigns including Singapore, the Philippines, the Netherlands East Indies, India, and Burma, as well as across the Pacific to Pearl Harbor. These pages cast penetrating light on how struggles in

Europe and Asia merged into a tightly entwined global war. They feature not just battles, but also the sweeping political, economic, and social effects of the war, and are graced with a rich tapestry of individual characters from top-tier political and military figures down to ordinary servicemen, as well as the accounts of civilians of all races and ages. In this first volume of a trilogy, award-winning historian Richard B. Frank draws on rich archival research and recently discovered documentary evidence to tell an epic story that gave birth to the world we live in now.

Hitler's Soldiers Harvard University Press

A blistering exposé of the National Rifle Association, revealing its people, power, corruption, and ongoing downfall, from acclaimed NPR investigative reporter Tim Mak “Tenacious, careful and incisive.”—Jonathan Swan • “Deeply and meticulously reported, colorfully and precisely written.”—Olivia Nuzzi • “Nonstop revelations are told with gripping detail and intimate insider knowledge.”—David Frum • “Fantastic.”—Chris Hayes The NRA once compelled respect—even fear—from Republicans and Democrats alike. Once a grassroots club dedicated to gun safety, the NRA ballooned into a powerful lobbyist organization that maintained an iron hold on gun

legislation in America. This influential nonprofit raised millions in small fees from members across the country, which funded hidden, lavish lifestyles of designer suits, private jets and yachts, martini lunches and Champagne dinners—while the group manipulated legislators and flirted with a Russian spy. Yet in 2012, the NRA’s grip on Washington began to loosen in the wake of the massacre at Sandy Hook Elementary. Facing nationwide outrage, NRA CEO Wayne LaPierre gave a speech claiming the solution was not fewer guns, but more guns, in schools. The group’s rhetoric only escalated from there, a misstep that sparked a backlash and invited the scrutiny of the government. Unveiled here for the first time ever are surprising, revelatory

details spotlighting decades of poor leadership and mismanagement by LaPierre; the NRA's long association with marketing firm Ackerman-McQueen; NRA executives' 2015 trip to Moscow, a by-invitation affair packed with meetings with Russian government officials, diplomats, and oligarchs seeking influence in American politics; as well as the power struggle between LaPierre and former NRA president Oliver North that

fractured the organization. Misfire is the result of a four-year investigation by journalist Tim Mak, who scoured thousands of pages of never-before-publicized documents and cultivated dozens of confidential sources inside the NRA's orbit to paint a vivid picture of the gun group's rampant corruption and slow decline, marking a sea change in the battle over gun rights and control in America.
