"Twisty, grisly, genre-bending and immersive, Not Even Bones will grab you by the throat and drag you along as it gleefully tramples all of your expectations." —Sara Holland, New York Times best-selling author of Everless Dexter meets This Savage Song in this dark fantasy about a girl who sells magical body parts on the black market—until she's betrayed. Nita doesn't murder supernatural beings and sell their body parts on the internet—her mother does that. Nita just dissects the bodies after they've been "acquired." Until her mom brings home a live specimen and Nita decides she wants out; dissecting a scared teenage boy is a step too far. But when she decides to save her mother's victim, she ends up sold in his place—because Nita herself isn't exactly "human." She has the ability to alter her biology, a talent that is priceless on the black market. Now on the other side of the bars, if she wants to escape, Nita must ask herself if she's willing to become the worst kind of monster. Now available as a Webtoon!

Anyone can become an elven mage or an invisible rogue, join a clan and go on raids, fight, develop their characters and most importantly, escape from the daily grind. However, a game is only a game if you can quit. This is something I learned the hard way. I just wanted to let off some steam in virtual reality and ended up getting murdered and imprisoned in the body of one of the undead

Magic Dome Books
"Everything I look for in a fantasy." -- George R. R. Martin All paths lead to war. . . Marcus' hero days are behind him. He knows too well that even the smallest war still means somebody's death. When his men are impressed into a doomed army, staying out of a battle he wants no part of requires some unorthodox steps. Cithrin is an orphan, ward of a banking house. Her job is to smuggle a nation's wealth across a war zone, hiding the gold from both sides. She knows the secret life of commerce like a second language, but the strategies of trade will not defend her from swords. Geder, sole scion of a noble house, has more interest in philosophy than in swordplay. A poor excuse for a soldier, he is a pawn in these games. No one can predict what he will become. Falling pebbles can start a landslide. A spat between the Free Cities and the Severed Throne is spiraling out of control. A new player rises from the depths of history, fanning the flames that will sweep the entire region onto The Dragon's Path -- the path to war.
