Preparing students to be active, informed, literate citizens is one of the primary functions of public schools. But how can students become engaged citizens if they can't read, let alone understand, their social studies texts? What can educators--and social studies teachers in particular--do to help students develop the knowledge, skills, and motivation to become engaged in civic life? Building Literacy in Social Studies addresses this question by presenting both the underlying concepts and the research-based techniques that teachers can use to engage students and build the skills they need to become successful readers, critical thinkers, and active citizens. The authors provide targeted strategies--including teaching models, graphic organizers, and step-by-step instructions--for activities such as \* Building vocabulary, \* Developing textbook literacy skills, \* Interpreting primary and secondary sources, \* Applying critical thinking skills to newspapers and magazines, and \* Evaluating Internet sources. Readers will also learn how to organize classrooms into models of democracy by creating learning communities that support literacy instruction, distribute authority, encourage cooperation, and increase accountability among students. Realistic scenarios depict a typical social studies teacher's experience before and after implementing the strategies in the classroom, showing their potential to make a significant difference in how students respond to instruction. By making literacy strategies a vital part of content-area instruction, teachers not only help students better understand their schoolwork but also open students' eyes to the power that informed and engaged people have to change the world.

A gritty, spirited inside look at the world of amateur boxing today The Golden Gloves tournament is center stage in amateur boxing-a single-elimination contest in which young hopefuls square off in steamy gyms with the boxing elite looking on. Robert Anasi took up boxing in his twenties to keep in shape, attract women, and sharpen his knuckles for the odd bar fight. He thought of entering "the Gloves," but put it off. Finally, at age thirty-two-his last year of eligibility-he vowed to fight, although he was an old man in a sport of teenagers and a light man who had to be even lighter (125 pounds) to fight others his size. So begins Anasi's obsessive preparation for the Golden Gloves. He finds Milton, a wily and abusive trainer, and joins Milton's "Supreme Team": a black teenager who used to deal guns in Harlem, a bus driver with five kids, a hard-hitting woman champion who becomes his sparring partner. Meanwhile, he observes the changing world of amateur boxing, in which investment bankers spar with ex-convicts and everyone dreads a fatal blow to the head. With the Supreme Team, he goes to the tournament, whose outcome, it seems, is rigged, like so much in boxing life today. Robert Anasi tells his story not as a journalist on assignment but as a man in the midst of one of the great adventures of his life. The Gloves, his first book, has the feel of a contemporary classic.
