"Long ago in 1945 all the nice people in England were poor, allowing for exceptions," begins *The Girls of Slender Means*, Dame Muriel Spark's tragic and rapier-witted portrait of a London ladies' hostel just emerging from the shadow of World War II. Like the *May of Teck Club* itself—"three times window shattered since 1940 but never directly hit"—its lady inhabitants do their best to act as if the world were back to normal: practicing elocution, and jostling over suitors and a single Schiaparelli gown. The novel's harrowing ending reveals that the girls' giddy literary and amorous peregrinations are hiding some tragically painful war wounds. Chosen by Anthony Burgess as one of the Best Modern Novels in the *Sunday Times* of London, *The Girls of Slender Means* is a taut and eerily perfect novel by an author *The New York Times* has called "one of this century's finest creators of comic-metaphysical entertainment."

"This book explores Indigenous American literature and the development of an inter- and trans-Indigenous orientation in Native American and Indigenous literary studies. Drawing on the perspectives of scholars in the field, it seeks to reconcile tribal nation specificity, Indigenous literary nationalism, and trans-Indigenous methodologies as necessary components of post-Renaissance Native American and Indigenous literary studies. It looks at the work of Renaissance writers, including Louise Erdrich's *Tracks* (1988) and Leslie Marmon Silko's *Sacred Water* (1993), along with novels by S. Alice Callahan and John Milton Oskison. It also discusses Indigenous poetics and Salt Publishing's *Earthworks* series, focusing on poets of the Renaissance in conversation with emerging writers. Furthermore, it introduces contemporary readers to many American Indian writers from the seventeenth to the first half of the nineteenth century, from Captain Joseph Johnson and Ben Uncas to Samson Occom, Samuel Ashpo, Henry Quaquaquid, Joseph Brant, Hendrick Aupaumut, Sarah Simon, Mary Occom, and Elijah Wimpey. The book examines Inuit literature in Inuktitut, bilingual Mexicanoh and Spanish poetry, and literature in Indian Territory, Nunavut, the Huasteca, Yucatán, and the Great Lakes region. It considers Indigenous literatures north of the Medicine Line, particularly francophone writing by Indigenous authors in Quebec. Other issues tackled by the book include racial and blood identities that continue to divide Indigenous nations and communities, as well as the role of colleges and universities in the development of Indigenous literary studies".

Subtle yet rich descriptions of culture, society, and family life in Belize adorn Zee Edgell's beautifully narrated story of a short time in the life of 14-year-old Beka Lamb. Through flashbacks, points on politics and independence are animated, since the political struggles for independence in Belize reflect Beka's own developing maturity and need to assert herself. Two main features of this heartwarming story are Beka's penchant for lying and her relationship with her older friend Troycie, whose troubling choices lead her down a self-destructive path. The pride of winning an essay contest at her convent school releases Beka's grief over Troycie and empowers her to embrace the next phase of her life.

This book aims to provide the missing link in current debates around sustainability. The role of business, governments, NGOs and multilateral institutions are widely covered and many books discuss their possible actions, strategies and roles. But all of these organizations are made up of individuals. And it is individuals who will need to steer society and organizations toward a more just and equitable world. The book takes a holistic approach to sustainable development. The authors argue that this approach starts and ends with the human being. They believe that the personal

dimension of sustainable development has been neglected and that it is clear that sustainable societies cannot be achieved without committed individuals who are convinced of the need to be part of the sustainability project. The authors frame their ideas around the Three Levels of Sustainability (TLS) framework which they argue addresses at least some of the weaknesses inherent in a fragmented approach to sustainability. Their approach encompasses societal, organizational and individual levels; and, by looking through the lens of how sustainability has evolved, provides a roadmap for producing the kind of leaders necessary for sustainable development in all of its dimensions – people, planet and profit. The focus on how the individual can contribute to these three dimensions is unique. To arrive at this multi-level and multi-dimensional framework, the book introduces and analyzes theories from sustainable development, corporate social responsibility and personal leadership and systemically looks for linkages between them that are useful for sustainability. This framework is placed firmly in its historical context. The authors are highly literate about the development and interpretations of sustainability and bring us to their current position via informed discussions on the history of economics, business-and-environment, social development, the corporation and the profit principle, CSR, and measurement and reporting. The book has been designed as both a text for students as well as those already in management and leadership positions in the private, public or non-profit sectors and will also prove invaluable to those wishing to familiarize themselves with sustainability.

There have been many great and enduring works of literature by Caribbean authors over the last century. The Caribbean Contemporary Classics collection celebrates these deep and vibrant stories, overflowing with life and acute observations about society. Set in Belize City in the early 1950s, Beka Lamb is the record of a few months in the life of Beka and her family. Beka and her friend Toychie Qualo are on the threshold of change from childhood to adulthood. Their personal struggles and tragedies play out against a backdrop of political upheaval and regeneration as the British colony of Belize gears up for universal suffrage, and progression towards independence. Recent discussions of autobiographical writing have led to a new terminology (autographies, autre-biographies, nouvelle autobiographie, autofiction, faction, egolitterature, circonfession), and current approaches to autobiography and autofiction suggest that this literary field offers a renewal and even a revolution of life-writing. Exploring autobiographical expression from different perspectives, the thirty essays in this book were presented at an international conference held at Södertörn University in 2014. As the essays in this anthology suggest, literary critics and authors alike are rethinking autobiographical writing and its definitions. Through the variety of papers, this anthology offers a thought-provoking overview of different approaches to autobiography and autofiction."

This new edition of Understanding Morphology has been fully revised in line with the latest research. It now includes 'big picture' questions to highlight central themes in morphology, as well as research exercises for each chapter. Understanding Morphology presents an introduction to the study of word structure that starts at the very beginning. Assuming no knowledge of the field of morphology on the part of the reader, the book presents a broad range of morphological phenomena from a wide variety of languages. Starting with the core areas of inflection and derivation, the book presents the interfaces between morphology and syntax and between morphology and phonology. The synchronic study of word structure is covered, as are the phenomena of diachronic change, such as analogy and grammaticalization. Theories are presented clearly in accessible language with the main purpose of shedding light on the data, rather than as a goal in themselves. The authors consistently draw on the best research available, thus utilizing and discussing both functionalist and generative theoretical approaches. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics, or anyone in a related discipline looking for a first introduction to morphology.

Kidnapped and sold into slavery in the American South, freeman Solomon Northup spent twelve years in bondage before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

Over the course of the last twenty years, Native American and Indigenous American literary studies has experienced a dramatic shift from a critical focus on identity and authenticity to the intellectual, cultural, political, historical, and tribal nation contexts from which these Indigenous literatures emerge. The Oxford Handbook of Indigenous American Literature reflects on these changes and provides a complete overview of the current state of the field. The Handbook's forty-three essays, organized into four sections, cover oral traditions, poetry, drama, non-fiction, fiction, and other forms of Indigenous American writing from the seventeenth through the twenty-first century. Part I attends to literary histories across a range of communities, providing, for example, analyses of Inuit, Chicana/o, Anishinaabe, and Métis literary practices. Part II draws on earlier disciplinary and historical contexts to focus on specific genres, as authors discuss Indigenous non-fiction, emergent trans-Indigenous autobiography, Mexicanoh and Spanish poetry, Native drama in the U.S. and Canada, and even a new Indigenous children's literature canon. The third section delves into contemporary modes of critical inquiry to expound on politics of place, comparative Indigenism, trans-Indigenism, Native rhetoric, and the power of Indigenous writing to communities of readers. A final section thoroughly explores the geographical breadth and expanded definition of Indigenous American through detailed accounts of literature from Indian Territory, the Red Atlantic, the far North, Yucatán, Amerika Samoa, and Francophone Quebec. Together, the volume is the most comprehensive and expansive critical handbook of Indigenous American literatures published to date. It is the first to fully take into account the last twenty years of recovery and scholarship, and the first to most significantly address the diverse range of texts, secondary archives, writing traditions, literary histories, geographic and political contexts, and critical discourses in the field.
