History that doesn't suck:
Smart, crude, and
hilariously relevant to
modern life. Those who
don't know history are

doomed to repeat it. Too
bad it's usually boring as
sh*t. Enter The Captain,
the ultimate storyteller
who brings history to life
(and to your life) in this
hilarious, intelligent,
brutally honest, and crude
compendium to events
that happened before any
of us were born. The
entries in this
compulsively readable
book bridge past and
present with topics like
getting ghosted, handling
haters, and why dog
owners rule (sorry, cat

people). Along the way
you'll get a glimpse of
Edith Wharton's sex life,
dating rituals in Ancient
Greece, catfishing in 500
BC, medieval flirting
techniques, and squad
goals from Catherine the
Great. You'll learn why
losing yourself in a
relationship will make you
crazy--like Joanna of
Castile, who went from
accomplished badass to
Joanna the Mad after
obsessing over a guy
known as Philip the
Handsome. You'll discover

how Resting Bitch Face has been embraced throughout history (so wear it proudly). And you'll see why it's never a good idea to f*ck with powerful women--from pirate queens to diehard suffragettes to Cleo-f*cking-patra. People in the past were just like us--so learn from life's losers and emulate the badassess. The Captain shows you how.

the New York-based Japanese sculptor, Yasue Maetake. Developed as a segment of his art writing column, Shedding, first published online at The Quarterless Review, author Addison Bale constructs a unique portrait of the artist, Yasue Maetake. Through an assemblage of dialogue interlaced with email exchanges and prose passages, Bale crafts a written reflection of Maetake's abstract sculptures, which are themselves assemblages of materials such as bone,

metal, and resin. This limited-run, bilingual edition of *Sculptural Autopsies with Yasue Maetake Pt. 1* is printed using both digital and risograph processes. Translated from English into Japanese, this riso-booklet presents the reader with both languages beginning at the outside covers and reading towards the centerfold to create a linguistic mirror image. 100 Great Lives
I took a three-year break from work to explore the topic of peace, love, and success. I spent the time analyzing my thoughts and the effects my thoughts had on my emotional state of mind. The things I found out were quite intriguing. I came to the realization that many of us are not living to our full potential. We live with a measured joy. We keep our

happiness in check. Our smiles are met with a restriction from our breath, which makes it short-lived. We seldom breathe fully because our breath is interrupted by the depth of our thoughts. We never really let go fully. We are bound by layers of chains that have entangled our thinking chains from an uncertain future, chains of work, chains of relationships, chains of our finances, too many chains to mention. My time away from work gave me the opportunity

to explore how to break the chains. I admit that even a broken chain is not permanently broken but can be easily reunited if old habits are not changed. My book focuses on the actions we can take to break chains and keep them broken. My book explores how our thoughts control our destiny. It teaches thought control and the importance of silence. It teaches how to overcome fear, anger, negative thoughts, stress, and hatred. You will learn how to nurture your emotions,

embrace moments, and the importance of spiritual peace. I will teach you how to live in thankfulness, with compassion, while activating love.

Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have

thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as

those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the

director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.
