This is a fun and user-friendly way to learn English English Made Easy is a breakthrough in English language learning—imaginatively exploiting how pictures and text can work together to create understanding and help learners learn more productively. It gives beginner English learners easy access to the vocabulary, grammar and functions of English as it is actually used in a comprehensive range of social situations. Self-guided students and classroom learners alike will be delighted by the way they are helped to progress easily from one unit to the next, using a combination of pictures and text to discover for themselves how English works. The pictorial method used in this book is based on a thorough understanding of language structure and how language is successfully learned. The authors are experienced English language teachers with strong backgrounds in language analysis and language learning. English Made Easy, Volume 2 consists of a total of 20 units arranged in groups of five. The first four units presents language and provide learners the opportunities to practice as they learn. The first page of each unit has a list of all the words and phrases to be learned in that unit, together with pronunciation guide. At the end of each unit, an interesting story which uses the language that has just been learned is presented. The fifth unit in each group contains exercises designed to reinforce the language learned in the first four units.

The present age is the age of competition. One has to face challenges in every walk of life. Students of the present era are expected to possess sufficient information relating to various fields of knowledge. Children who lack general knowledge are sure to lag behind even if they are, otherwise, competent. CURRENT GENERAL KNOWLEDGE, a series of books has been prepared keeping this fact in view. The books are prepared in such a way which is sure to teach the learners what they ought to know at each level of their schooling. The materials for various units of these books are judiciously chosen from encyclopedia, year books and textbooks on a variety of subjects. We are sure that the books will surely encourage the learners to know more about the outside world and impart useful knowledge and information necessary for their bright career. ANSWERS OF THE EXERCISES FROM THE BOOK IS ALSO GIVEN....

Objective Ways to Measure Thinking Cambridge University Press

From Zeus and Europa, to Diana, Pan, and Prometheus, the myths of ancient Greece and Rome seem to exert a timeless power over us. But what do those myths represent, and why are they so enduringly fascinating? Why do they seem to be such a potent way of talking about our selves, our origins, and our desires? This imaginative and stimulating Very Short Introduction goes beyond a simple retelling of the stories to explore the rich history and diverse interpretations of classical mythology. It is a wide-ranging account, examining how classical myths are used and understood in both high art and popular culture, taking the reader from the temples of Crete to skyscrapers in New York, and

finding classical myths in a variety of unexpected places: from Arabic poetry and Hollywood films, to psychoanalysis, the Bible, and New Age spiritualism.
