Practice Makes Perfect Intermediate ESL Reading and Comprehension (EBOOK) Cambridge University Press

This innovative and engaging book discusses the contribution of business to the Sustainable Development Goals (SDGs) adopted by the United Nations in 2015. It critically analyses selected impact measurement and management tools to highlight their respective benefits and limitations, and also provides guidance on critical management decisions to support high-quality impact measurement and management. The analyses underlying this book are the result of a three year research project conducted by an international consortium in the EU-funded research project GLOBAL VALUE - Managing Business Impact on Development. The research is complemented by examples from corporate practice and expert interviews to demonstrate and measure the contribution of business to sustainable development in the context of the SDGs.

In this exploration of how people lived and died in eighteenth-

and nineteenth-century New Mexico, Martina Will weaves together the stories of individuals and communities in this cultural crossroads of the American Southwest. The wills and burial registers at the heart of this study provide insights into the variety of ways in which death was understood by New Mexicans living in a period of profound social and political transitions. This volume addresses the model of the good death that settlers and friars brought with them to New Mexico, challenges to the model's application, and the eventual erosion of the ideal. The text also considers the effects of public health legislation that sought to protect the public welfare, as well as responses to these controversial and unpopular reforms. Will discusses both cultural continuity and regional adaptation, examining Spanish-American deathways in New Mexico during the colonial (approximately 1700-1821), Mexican (1821-1848), and early Territorial (1848-1880) periods.

In this series of intricately related texts, internationally known poet, critic, and performance artist David Antin explores the experience of time how it's felt, remembered, and recounted. These free-form talk pieces sometimes called talk poems or simply talks began as improvisations at museums, universities, and poetry centers where Antin was invited to come and think out loud. Serious and playful, they move rapidly from keen analysis to powerful storytelling to passages of pure comedy, as they range kaleidoscopically across Antin's experiences: in the New York City of his childhood and youth, the Eastern Europe of family and friends, and the New York and Southern California of his art and literary career. The author's analysis and abrasive comedy have been described as a mix of Lenny Bruce and Ludwig Wittgenstein, his commitment to verbal invention and narrative as a fusion of Mark Twain and Gertrude Stein. Taken together, these pieces provide a rich oral history of and critical context for the evolution of the California art scene from the 1960s onward."

This graduate textbook covers topics in statistical theory essential for graduate students preparing for work on a Ph.D. degree in statistics. This new edition has been revised and updated and in this fourth printing, errors have been ironed out. The first chapter provides a quick overview of concepts and results in measure-theoretic probability theory that are useful in statistics. The second chapter introduces some fundamental concepts in statistical decision theory and inference. Subsequent chapters contain detailed studies on some important topics:

unbiased estimation, parametric estimation, nonparametric estimation, hypothesis testing, and confidence sets. A large number of exercises in each chapter provide not only practice problems for students, but also many additional results.

Based on the blockbuster movie starring Meryl Streep and Kevin Bacon. To help heal a marriage on the rocks, river-rafting expert Gail, her husband Tom, and their son embark on a white water adventure in Montana. Along the way, they encounter two inexperienced rafters supposedly looking for their friends downriver. Little do they know that the men are escaped convicts whose bid for freedom has a body count. Things take a turn when the young family learns that they are now the captives of two armed killers, and it becomes clear that there is much more at stake than a marriage. Desperate to evade both the police and federal marshals, the men force the family down the river and into the mouth of a deadly class 5 white-water rapid. Careening towards mortal peril, Gail and Tom must bond together to save their family from the brutality of nature and the savageness of man. This high-stakes thriller is both a testament to the power of mother nature and a classic adventure story that is perfect for fans of CJ Box and Craig Johnson. Denis O'Neill, the screenwriter for the movie *The River Wild*, brings the striking beauty of the film into his writing and ratchets up the danger that races forward to a breathtaking conclusion.

This book is a complete English translation of Augustin-Louis Cauchy's historic 1823 text (his first devoted to calculus), *Résumé des leçons sur le calcul infinitésimal*, "Summary of Lectures on the Infinitesimal Calculus," originally written to benefit his *École Polytechnique* students in Paris. Within this single text, Cauchy succinctly lays out and rigorously develops all of the topics one encounters in an introductory study of the calculus, from his classic definition of the limit to his detailed analysis of the convergence properties of infinite series. In between, the reader will find a full treatment of differential and integral calculus, including the main theorems of calculus and detailed methods of differentiating and integrating a wide variety of functions. Real, single variable calculus is the main focus of the text, but Cauchy spends ample time exploring the extension of his rigorous development to include functions of multiple variables as well as complex functions. This translation maintains the same notation and terminology of Cauchy's original work in the hope of delivering as honest and true a Cauchy experience as possible so that the modern reader can experience his work as it may have been like 200 years ago. This book can be used with advantage today by anyone interested in the history of the calculus and analysis. In addition, it will serve as a particularly valuable supplement to a traditional calculus text for those readers who desire a way to create more texture in a conventional calculus class through the introduction of original historical sources.

The 14th century Javanese epic poem, Sutasoma, relates the life of a prince, born an incarnation of the Jina-Buddha Wairocana. It follows his spiritual journey to enlightenment and his temporal journey through marriage, kingship and eventual victory over the mighty, world-threatening demon, Porusada. Kate O'Brien's new

translation delivers to the reader a highly approachable and lively rendition of this Buddhist epic, comparable in both complexity and scale to that of the Ramayana, yet significantly less known or understood.

Lahirnya Kurikulum 2013 sebagai langkah lanjutan dari proses pengembangan Kurikulum Berbasis Kompetensi yang telah dirintis pada tahun 2004 dan KTSP 2006 mencakup kompetensi sikap, pengetahuan, dan keterampilan secara terpadu. Keberadaan Kurikulum 2013 didasarkan karena adanya berbagai tantangan yang dihadapi, baik tantangan internal maupun tantangan eksternal. Dalam tataran konsep dan implementasinya, kurikulum dimaknai sebagai seperangkat rencana dan pengaturan yang berisi tujuan, isi dan bahan pelajaran, metode yang digunakan dalam penyelenggaraan pembelajaran, serta alat evaluasi pembelajaran. Keberadaan kurikulum sangat terkait langsung dengan tujuan atau target yang diharapkan dalam pendidikan, seperti tujuan nasional jangka panjang yang termaktub dalam UU No. 20. Tahun 2003, tujuan institusional sekolah/madrasah, maupun tujuan pembelajaran yang menjadi target pendidik dalam melakukan kegiatan pembelajaran. Terkait dengan tujuan tersebut dalam Kurikulum 2013, dikenal dengan istilah Standar Kompetensi Lulusan (SKL), Kompetensi Inti (KI), dan Kompetensi Dasar (KD). Ketiga komponen tujuan tersebut semua bermuara pada tuntutan pembelajaran yang dapat mengarahkan peserta didik menjadi manusia Indonesia yang selalu taat dan menjalankan ajaran agama yang dianutnya (selanjutnya disebut sikap spiritual atau

KI 1), bertanggung jawab sebagai warga negara yang mandiri dan demokratis (selanjutnya disebut sikap sosial atau KI 2), wawasan pengetahuan (selanjutnya disebut pengetahuan atau KI 3) dan skill (selanjutnya disebut keterampilan atau KI 4) yang dapat dipertanggungjawabkan. Hal lain yang tak kalah penting dari kurikulum selanjutnya adalah proses penyampaian materi ajar dan evaluasi yang akan dilakukan seorang pendidik. Oleh karena itu, setiap terjadi perubahan kurikulum (termasuk Kurikulum 2013) berimplikasi pada perubahan SKL, Isi, Proses Pembelajaran, dan Evaluasi Pembelajaran.
