Excerpt from *The Story World and Photodramatist*, Vol. 4: March, 1923 Thought of that victory wrinkled David's sallow face into a smile. He was winning. Winning in spite of the destiny that had decreed Joe's downfall first by denying him a name, and then by robbing him of mother-love. By giving the boy an education, old David was helping him to rise above environment - to bridge the unfathomable gulf separating the dwellers of these disreputable buildings from the men of success who carried on the world's work. Ben's 13th year was when his family fell apart, but his 14th year is when his whole world, or more precisely, the whole world, collapses. He had thought 13 was his unlucky number, the year that Time turned its back on him, but he was wrong; that year, it was he who had turned his back on Time. The following year, the fury of the sun turns back Time for everyone in the world. On PF (Power Failure) Day, a huge electromagnetic surge from the sun destroys the power grids and civilization as we know it. Living in the middle of downtown Kansas City makes survival nearly impossible. Starvation, dehydration, disease, freezing temperatures, and out-of-control fires imperil the desperate population. After facing unimaginable losses, Ben finds hope for the future when he meets Sara, who has endured her own share of agonizing loss. But when a murderous gang threatens to take away everything Ben has left, they flee to a wilderness area of a large city park where they learn to live off the land for survival.

An Alternate Ending Story for Grown Ups IDW Publishing

This study is the first to show how state courts enabled the mass expulsion of Native Americans from their southern homelands in the 1830s. Our understanding of that infamous period, argues Tim Alan Garrison, is too often molded around the towering personalities of the Indian removal debate, including President Andrew Jackson, Cherokee leader John Ross, and United States Supreme Court Justice John Marshall. This common view minimizes the impact on Indian sovereignty of some little-known legal cases at the state level. Because the federal government upheld Native American self-dominion, southerners bent on expropriating Indian land sought a legal foothold through state supreme court decisions. As Garrison discusses *Georgia v. Tassels* (1830), *Caldwell v. Alabama* (1831), *Tennessee v. Forman* (1835), and other cases, he shows how proremoval partisans exploited regional sympathies. By casting removal as a states' rights, rather than a moral, issue, they won the wide support of a land-hungry southern populace. The disastrous consequences to Cherokees, Creeks, Choctaws, Chickasaws, and Seminoles are still unfolding. Important in its own right, jurisprudence on Indian matters in the antebellum South also complements the legal corpus on slavery. Readers will gain a broader perspective on the racial views of the southern legal elite, and on the logical inconsistencies of southern law and politics in the conceptual period of the anti-Indian and proslavery ideologies.

"Managerial styles are influenced by habit, familiarity, and workplace culture. It's no wonder that well-intentioned professionals doing their best to be good organizational leaders often repeat unhelpful supervisory practices experienced in their early careers, even if they disliked them at the time. In the DUH! Book of Management and Supervision, the author disagrees with many accepted leadership principles (unabashedly referring to them as myths) and makes new and different approaches easier to imagine. Her challenging and controversial concepts illustrated with poignant

stories suggest common-sense and immediately applicable alternatives more suitable in today's workplace"--Back cover.

What does Cockadoodle do besides crow and chase the hens? Let Kellogg explain in his humorous - and often cocky - way. Kellogg has a flock of hens to whip into shape and he's not about to chicken out. Linda L. Rigsbee wrote and illustrated this book about her rooster. While the events actually happened, she is guessing at how Kellogg perceived them. That makes it a "Sort of" true story. Kellogg is a young inexperienced Welsummer rooster who takes on the challenge of flock rooster. Using the example his father gave him, he takes charge of older hens. He learns as he goes, as does "the human hen" who owns the flock. Their communication skills are lacking, but each finds their own way to keep the flock healthy and safe. They must learn to work together.

It's been called one of B.C.'s most bizarre drug cases in recent memory. A story with a cast of characters including an oddball hippy, a pot-bellied pig, an overly friendly raccoon and twenty-four black bears. Oh, and a thousand pot plants, apparently guarded by the bears. The bust took place in August of 2010 near the Village of Christina Lake, British Columbia and the story travelled to all parts of the world, including the United States, Denmark, England, India and Russia, where a news anchor lady could not stop laughing as she read the story. The New York Post declared, "Don't Smokey near this bear." Today, Allen Piche, aka 'The Beardude', announced the release of his book, *The Beardude Story*, which chronicles his side of this strange tale.

The Founding of the Roman Catholic Church in Melanesia and Micronesia, 1850 to 1875 is the result of Father Ralph Wiltgen's years of archival work in Rome and at the headquarters of religious orders who worked in Micronesia and Melanesia. It follows his first historical book on the subject, *The Founding of the Roman Catholic Church in Oceania: 1825 to 1850*, but narrows the focus. The first book dealt with the whole of Oceania and emphasized developments in Polynesia. This book concentrates on Melanesia and Micronesia from 1850 to 1875, the period immediately before the work of large numbers of Missionaries of the Sacred Heart, Marists, and Divine Word Missionaries assumed great momentum in the period between 1875 and 1914. Micronesia is a huge area of the world, made up of numerous culturally and politically distinct groups of atolls ranging over about 1,400 miles from the northwest to the southeast. Its peoples speak scores of mutually unintelligible though related languages on such island groups as the Marshalls, the Gilberts, Nauru, and Kiribati. Far more heavily populated is Melanesia, another huge area of the Pacific where as many as one thousand distinct languages are spoken in an arc of islands extending from just below the equator in a boomerang shape from today's Indonesian controlled Papua and independent Papua New Guinea on the island of New Guinea in the northwest all the way along the Solomon Island chain to 25° south latitude to the southeast. In this book, Wiltgen shows himself the undisputed master of the

archives of the Propaganda Fide, the Vatican's chief mission agency and the religious orders that provided missionaries, all of which is supplemented by his attention to the lives of key people of the period. He shows the Propaganda now prodding missionary orders to take on the difficult work of evangelizing these areas and on other occasions struggling to keep up with and understand fast-moving events and the colorful characters--both ecclesiastical and among colonial administrators, rogue sea captains, and indigenous leaders. Wiltgen lets the contemporary records speak for themselves, though one can imagine his arched brow and mischievous grin as he selects exactly the right quote to describe now an act of missionary heroism and now an act of self-promotion. It is a masterful book, making available the early history of one of Catholicism's greatest missionary successes, helping the reader understand both the idealism of the vision and the way in which concrete events and people affected the outcome.
