Growing up in Benaras, Sia struggles for an identity under the shadow of her vivacious and beautiful sister, Munni. When Munni falls in love with flamboyant Abir, Sia's loneliness and misery increases even more. Tragedy strikes in the form of a scandal and Abir is accused of the misdeed. This event changes something in their lives forever and affects all their future relationships as well. Years later, Sia, now a resident of Mumbai and mother to a sixteen year old embarks on a journey back to Benaras to find out more about her sister's death. The journey, which brings revelation and insights, adds a new perspective to Sia's life. Will Sia find out the truth? Will she be freed of the past? Will Abir ever be able to give up a nomadic life in New York and settle down as a family man? Read 'Sia' to find out.

Furler - What You Need to Know Simon and Schuster

This new inter-disciplinary book is the first comparative, case-based analysis of media panoply in (and out of) Asia today. Examining what the authors call the "media/tion equation", the contributors demonstrate the multiple links between media, society and culture, and advance the claim that media is the key means through which Asians experience, understand, effect and are affected by the worlds containing them. Exploring a relatively neglected principle in cultural studies - that context counts - medi@sia highlights how the experiences of those encountering media messages differ depending on social, economic, political and ideational conditions. Balancing social, cultural and media theory with empirical research, the essays in this collection provide a better understanding of the complex relationship between media and people's practices, values and behaviour in contemporary Asia.

THE WAR ON DRUGS, HIV/AIDS, AND VIOLATIONS OF HUMAN RIGHTS

Ashgate Publishing, Ltd.

Introducing the life and times of a legend in international aviation — Lim Chin Beng — the man they called Mr SIA. Absorbing the life and work of Lim Chin Beng is like watching a fly past of airlines and aircraft old and new. In this book, his past comes to meet you in many forms — designs, shapes, figures, photographs, episodes, places, people and you discover the connections with business, society and international aviation today and into the future. Here's a man who was instrumental in taking the very basic components of a business — like a potter taking the clay — and creating what has become one of the world's leading brands, Singapore Airlines. But this airline "specialist", trained as an economist, had more jobs to do. His broad range of interests — arts and sports, property and tourism — led to him being called on to do his "national service" for Singapore. He was Ambassador to Japan for two terms and trade negotiator, chairman of the Singapore Tourism Board, Changi Airport International, Singapore Airshow, Singapore Press Holdings, Ascott Group, and ST Aerospace. Described as a quiet achiever and a visionary, this modest gentleman was not afraid to make bold decisions and take risks, even to the extent of setting up a budget airline, Valuair. Here was one man, who in his

time, played many parts, on the world's stage and at home.

THE ART OF FLOATING

Human Rights Watch

When seventeen-year-old Sia wakes up on a park bench, she has no idea who or where she is. Yet after a week of being homeless,

she's reunited with her family. At school, she's powerful and popular. At home, she's wealthy beyond her dreams. But she quickly realizes her perfect life is a lie. Her family is falling apart and her friends are snobby, cruel and plastic. Worse yet, she discovers she was the cruelest one. Mortified by her past, she embarks on a journey of redemption and falls for Kyle, the "geek" she once tormented. Yet all the time she wonders if, when her memories return, she'll become the bully she was before...and if she'll lose Kyle.

"In a world where we are so often dividing ourselves into us and them, this book feels like a kind of magic, celebrating all beliefs, ethnicities, and unknowns." —The New York Times Book Review

Aristotle & Dante Discover the Secrets of the Universe meets Roswell by way of Laurie Halse Anderson in this astonishing, genre-bending novel about a Mexican American teen who discovers profound connections between immigration, folklore, and alien life. It's been three years since ICE raids and phone calls from Mexico and an ill-fated walk across the Sonoran. Three years since Sia Martinez's mom disappeared. Sia wants to move on, but it's hard in her tiny Arizona town where people refer to her mom's deportation as "an unfortunate incident." Sia knows that her mom must be dead, but every new moon Sia drives into the desert and lights San Anthony and la Guadalupe candles to guide her mom home. Then one night, under a million stars, Sia's life and the world as we know it cracks wide open. Because a blue-lit spacecraft crashes in front of Sia's car...and it's carrying her mom, who's very much alive. As Sia races to save her mom from armed-quite-possibly-alien soldiers, she uncovers secrets as profound as they are dangerous in this stunning and inventive exploration of first love, family, immigration, and our vast,

limitless universe.

Much has been said about the driving forces of region-building processes or regionalization worldwide, yet few systematic and comparative studies have been conducted on how regions can contribute to the building of other regions - and more concretely, how the European Union has 'pushed' for regionalization worldwide. This comparative book investigates the impact that the EU has on regionalization elsewhere through its inter-regional relations. Covering agriculture, trade, ASEAN, NAFTA, MERCOSUR and Commonwealth amongst other topics, it investigates whether the EU contributes directly, as well as indirectly, to increased regional integration in different parts of the world.

Going numb after her beloved husband disappears without a trace, popular novelist Sia Dane is strangely compelled to help an unidentified and unresponsive man who appears on the beach

near her home a year later. By the author of *Thirsty*. Original. 40,000 first printing.

Transactions and Proceedings of the Botanical Society of Edinburgh Emereo Publishing

Excerpt from *The Pueblo of Sia*, New Mexico Matilda Stevenson was, therefore, the best qualified person available to prepare her husband's material for publication. But another field trip was deemed necessary, and accordingly she went to Sia in March 1890, where she remained until the middle of September of the same year (Powell, 1894 a, p. Xxx; 1894 b, pp. Xxix, xxvi - xxvii). No further fieldwork was done, apparently, before the publication of her monograph, *The Sia*, in the Eleventh Annual Report of the Bureau of American Ethnology in 1894. Mrs. Stevenson spent most of the month of August 1904 in Sia. The Bureau of American Ethnology has unpublished manuscript material gathered by her at Sia, Taos, and other pueblos. Artemisia (Sia) Martinez's mother was deported to Mexico by ICE

and disappeared in the Sonoran Desert trying to make it back to her American family; Sia believes that she was as-good-as murdered by ICE and the sheriff in their small Arizona town on the edge of the national park, and wants revenge against him and his son, Jeremy--but her search for the truth will uncover many more secrets than she counted on.

Handbook of Functionalized Nanomaterials: Environmental Health and Safety discusses the reactive properties of FNMs used in a range of applications, and their toxic impact on the environment. Nanomaterials have unique properties that can make them highly reactive. This reactivity can cause unwanted interactions with living cells, an increase in oxidative stress or damage to genetic material - resulting in damage to the environment and local wildlife. This negative impact is often further increased after surface functionalization of nanomaterials with other materials which offer unique properties of their own. To ensure environmental safety and ecological balance, rigorous toxicity testing of functionalized nanomaterials (FNMs) is necessary. This book discusses the toxicological uncertainties of FNMs and the

limitations of FNMs in a range of applications. Later chapters propose methods to reliably assess the harm that functionalized nanomaterials can cause to the environment and wildlife, as well covering recent developments in the field of environmental health safety. The book concludes with a discussion on the future prospects of safe functionalized nanomaterials. Offers a novel, integrated approach, bridging the gap between FNMs and environmental health and safety Analyses the reactive properties

of FNMs and their toxicological potential Provides an in-depth look at the impact of functionalized nanomaterials on the environment
