Diane Ackerman's poems reveal her intense response to the several worlds of nature, science, and society. Her lyricism fuses wit and sobriety,

meditation and activism, and she confronts us with figures both real and fantastic. As always, her strong connection with the natural world, the

realms of language and literature, myth and imagination, combines with her deep understanding of the sciences to offer her readers a singular American voice. This is not a voice crying in the wilderness, but one that gives forth songs of joy and wonder. Organized into seven sections, including "Timed Talk," "By Atoms Moved," and "Tender Mercies," I Praise My Destroyer is less an assorted collection than an organically coherent whole, one that reveals

Ackerman's true calling as a twentieth-century metaphysical poet of the highest order. Naval Institute Press

The seventh novel in Cherryh's Foreigner space opera series, a groundbreaking tale of first contact and its consequences... It has been two years since the starship Phoenix left Alpha Station on a rescue mission where over four thousand human spacers were under attack by a hostile alien race. Now, exhausted from their journey, the crew of the Phoenix yearns for home. But when the ship makes the jump into atevi space and contacts Alpha, they

learn the worst: that supplies to the station have been cut off; that civil war has broken out on the atevi mainland; that the powerful Western Association has been overthrown; and that Tabini-ajji, Bren Cameron's primary supporter and Ilisidi's grandson and ally, is missing and may be dead. With no one left to lead the Western Association, Ilisidi and Bren know that the survival of their allies lies in their hands. And with the atevi world at war, the only safe landing

strip lies on the human colony at Mospheira. Although there are many dangers inherent in bringing a powerful atevi leader such as Ilisidi onto human lands, Bren realizes they have no other choice. But even if they safely survive their landing, will Bren and Ilisidi together prove strong enough to muster the remaining shards of the Western Association and regain control of their planet? The long-running Foreigner series can also be enjoyed by more casual genre readers in

sub-trilogy installments. Destroyer is the 7th Foreigner novel, and the 1st book in the third subtrilogy.

 The first issue of Destroyer dropped like a bomb in May 2006. For the first time since the 1970's, a gay magazine dared to openly celebrate the beauty of the teenage boy. Reactions were fierce. The Swedish LGBT establishment cried out against the magazine, claiming it gave gay people a bad name. Neo Nazis were just as upset, and the Ombudsman for Children demanded a

change in the law to make the magazine illegal. A police investigation was instigated and Destroyers editor Karl Andersson was summoned to an interrogation. Gay Man's Worst Friend is not only the thrilling story of Europes most controversial gay magazine, told from Stockholm, Prague and Berlin. Its also the story of the gay movement in the 21st century. The outraged reactions to Destroyer expose hidden power structures and show how gay identity has

been steadily shrunk over recent decades, excluding ever more expressions of homosexuality.

When you're on death row, minutes from the electric chair, and a hook-handed monk offers to save your life if you'll just swallow a simple little pill...what've you got to lose? You take the pill.

Then you wake up, officially "dead," in the back of an ambulance, headed for an undisclosed location. Welcome to your new life, working for CURE, the most secret,

most deniable, most extra-judicial government agency ever to exist. Only the President knows about it, and even he doesn't control it. ABOUT THE SERIES: Sentenced to death for a crime he didn't commit, ex-cop Remo Williams is rescued from the electric chair and recruited by a secret government organization as an assassin, targeting criminals who are beyond the law. Remo's trainer is a curmudgeonly old Korean named Chiun, whose mastery of the terrifyingly powerful

martial art of Sinanju makes him the deadliest man alive. The winning combination of action, humor, and mysticism has made the Destroyer one of the best-selling series of all time. With more than 150 books and over 50 million copies sold worldwide, the Destroyer has been praised by the LA Times as "flights of hilarious satire," and gave birth to the mythology of the brash young Westerner taught by an ancient, inscrutable master.

The Matrix meets an Afro-futuristic retelling of Persephone set in a science fiction underworld of aliens, refugees, and genetic engineering in Jennifer Marie Brissett's Destroyer of Light Having destroyed Earth, the alien conquerors resettle the remains of humanity on the planet of Eleusis. In the four habitable areas of the planet—Day, Dusk, Dawn, and Night—the haves and have nots, criminals and dissidents, and former alien

conquerors irrevocably bind three stories: *A violent warlord abducts a young girl from the agrarian outskirts of Dusk leaving her mother searching and grieving. *Genetically modified twin brothers desperately search for the lost son of a human/alien couple in a criminal underground trafficking children for unknown purposes. *A young woman with inhuman powers rises through the insurgent ranks of soldiers in the borderlands of Night. Their stories, often

containing disturbing physical and sexual violence, skate across years, building to a single confrontation when the fate of all—human and alien—balances upon a knife’s-edge. At the Publisher’s request, this title is being sold without Digital Rights Management Software (DRM) applied.

BACKPACKER

This book takes us beyond the usual writings about religious ministry. It invites us into closed communities, some more

closed than others, and allows us to observe the day-to-day crisis ministries in which the chaplains are engaged. We visit battlefields, prisons, hospitals, hospice settings, college campuses, veterans’ centers, and retirement facilities. The writer draws some interesting conclusions about the uniqueness of the chaplaincy and what the greater church can learn from this growing model. *Flying Magazine*
