This publication has been prepared primarily for the use of leaders of young people's forestry clubs. Its purpose is to suggest forestry activities suitable for young people and ways and means of carrying on those activities. Some are suitable only for clubs formed by boys and girls, living on farms or in smaller towns; others are more suitable for young people living in the larger cities.

Geology and Ground-water Resources of Dimmit County, Texas

Spanning millions of years and using cartoons, this book is a primer on Texas history, best read in brief intervals.

*Journal*

This book is the third volume of a three volume reference set that will provide comprehensive information on breeding commercial horticultural crops. In a systematic way, it deals with the history and commercial importance of each fruit, the origin and early development of cultivation, regional characteristics, breeding objectives, and fruit characteristics such as color shape and disease resistance. Volume III deals with, for example, almonds, pecans/hickories, and walnuts.

**Federal Register**

Some vols. include supplemental journals of "such proceedings of the sessions, as, during the time they were depending, were ordered to be kept secret, and respecting which the injunction of secrecy was afterwards taken off by the order of the House."
