As a response to the unique challenges facing the twenty-first-century American church, church planting has become a popular topic. But at a time when churches that spread the seed of the Word through preaching, the sacraments, and prayer are greatly needed, much of the focus has been on planting churches that adapt pop culture to meet \u0302consumer demand.\u0302 In *Planting, Watering, Growing*, the authors of this collection of essays weave together theological wisdom, personal experiences, and practical suggestions, guiding readers through the foundations and methods of planting confessional churches that uphold the Word of God.

### THE EVANGEL DEAN BASIC TRAINING MANUAL

Dag Heward-Mills

Practical, proven, and challenging-everything you need to know to plant a church!Essentials in church planting - from concept through year 1 - have been captured in anew handbook recently released by Dynamic Church Planting International. DCPI is a leader in training church planting leaders in staff in the U.S. and world-wide.

This book tells the story of the revitalization of Guilford Baptist Church in northern Virginia. Weaving together scripture and biblical principles with humor and personal anecdotes, author Michael McKinley asserts that a pastor's faithful exposition of God's Word, passion for sharing the gospel, and care in the training of other godly leaders are more important than the size of his church. McKinley honestly shares his own fears and rookie mistakes, along with encouraging stories of how God moved at Guilford Baptist. We are reminded that God uses weak and fearful pastors in plants and revitalizations; church planting is indeed for "wimps." For pastors and seminarians considering a church plant and those already struggling in their own fledgling congregations, this book is a thoughtful and encouraging resource.

David Garrison, PhD University of Chicago, defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment. Garrison's Church Planting Movements: How God Is Redeeming a Lost World signaled a breakthrough in missionary church planting. After the publication of Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. Church Planting Movements examines more than two-dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common characteristics, factors identified in most, but not all, of the movements. He concludes his examination with a list of "Seven Deadly Sins," i.e. harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house-church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity. With nearly fifty years combined global church-planting experience, Craig Ott and Gene Wilson are well qualified to write a comprehensive, up-to-date guide for cross-cultural church planting. Combining substantive biblical principles and missiological understanding with practical insights, this book walks readers through the various models and development phases of church planting. Advocating methods that lead to church multiplication, the

authors emphasize the role of the missionary church planter. They offer helpful reflection on current trends and provide best practices gathered from research and empirical findings around the globe. The book takes up a number of special issues not addressed in most church planting books, such as use of short-term teams, partnerships, and wise use of resources. Full of case studies and real examples from around the world, this practical text will benefit students, church planters, missionaries, and missional church readers.

### GLOBAL CHURCH PLANTING

Wigtake Resources LLC

Every aspect of planting a church is personal. Like giving birth to a child, church planters give all they have to start new churches. So when people leave the church or criticize it, it's hard not to take it personally. And while many pastors feel called by God to plant new churches, few are prepared for the inevitable toll it can take on their lives...and their families and friendships. Brian and Amy Bloye know firsthand that planting churches isn't easy. While planting a church, they learned that God does not promise to make up for mis-guided priorities. In this book they talk about having a healthy marriage, raising children, finding the right balance of family and ministry, dealing with spiritual warfare, staffing and leadership challenges, and dealing with criticism—issues every church leader must deal with. An authentic manual for day-to-day life in ministry, couples will learn to identify and relate to experiences in the book, and will come away feeling empowered and inspired to thrive - not only in planting a church, but also for the long haul of life and ministry. They will also be challenged and encouraged to avoid some of the pitfalls of planting a church and be equipped to build, not just strong, prevailing ministries, but healthy marriages and families. It will also include intimate interviews in each chapter with several church planting couples who will open up their personal lives to give the reader some practical, real, authentic advice on dealing with some of the challenging issues that church planters face everyday.

This book clearly explains how to plant churches that are simple enough to keep on reproducing and even grow into a movement of churches. Planting Churches that Reproduce is the fruit of Comiskey's extensive research and personal experience (three church plants in a wide variety of settings). Comiskey not only uses the latest North American church planting statistics but also extends the illustrations to include worldwide church planting. More than anything else, this book will provide practical solutions for those planting churches today. Comiskey's book is a must-read for all those interested in starting Christ-honoring, multiplying churches. LEONARD SWEET (Drew University) wrote: Better late than never but best never late. Where has this book been? How different might the church be today if Comiskey's invaluable resource had been available even ten years ago? Don't discover Comiskey ten years from now and exclaim, Where have I been! The book we've needed and been waiting for is here now. Tag, you're it. ALAN HIRSCH (Author of The Forgotten Ways) wrote: Here is a thoroughly practical, encouraging and thoughtful contribution to the small but growing body of literature on multiplication movements. This is an important book not only because it involves a return to a more genuinely biblical ecclesiology but also because it envisions the much more dynamic form of church that will advance the cause of Jesus in the 21st Century. JEANNETTE BULLER (Church planter and coach) wrote: Joel Comiskey brings both his experience and the experience of others together in a clear, easy to understand fashion that will be helpful to any simple church planter today. As I read, I kept thinking of chapters I wanted to recommend to the various church planters I coach. Based on timeless principles of church planting, Comiskey lays a firm foundation for multiplying churches which I believe is on the heart of God. His practical application of these principles keeps the reader focused on the path toward church planting success. BOB ROBERTS (Pastor NorthWood, author of The Multiplying Church) wrote: Joel Comiskey does a great job in his book of explaining what a simple church is and how to plant them. He provides solid theology, numerous examples and strategic steps for planting simple churches. We will use it with our planters as a resource. I've read a lot of books on simple, cell, house churches defending them or promoting them - I don't think I've read anything as clear and as concise as this or as practical to get them started as this. PETER WAGNER (Presiding Apostle, International Coalition of Apostles) wrote: Joel Comiskey's lifelong passion for multiplying churches does not allow him to get stuck in the past. I love this excellent book because it is a book for the future. Joel's blueprint will help many find their proper position for enriching their life and for extending the kingdom of God. DR. TOM JONES (Stadia East Regional Director) wrote: Joel Comiskey is a veteran church planter. His new book Planting Churches that Reproduce is biblical, practical and inspirational. If indeed church planters are going to get serious about evangelistic reproducing movements that start new testament churches then we must take a long and creative look at Simple churches or some variation of the house church movement. The typical suburban church planting model will not get the job done alone. JIMMY SEIBERT (senior pastor of Antioch Community Church) wrote: Over the last ten years Joel's writings and research have deeply influenced who we are as a people. His genuine love for Jesus and his heart to capture what God is doing and saying is bearing great fruit for the body of Christ. His latest book, Planting Churches that Reproduce, is at the heart of what God is speaking to the body of Christ worldwide, whether in the United States or around the world. RALPH NEIGHBOUR (author, professor, and church planter) wrote: Once again, Joel Comiskey has felt the pulse of the body of Christ and has given a prescription for its well being. This book is a combination of spiritual insights coupled with personal experience in the field of planting Biblical communities. I recommend this for the group that God forms to form a new Christ centered missional congregation. BEN WONG (founder of CCMN) wrote: Joel Comiskey's books have always been a blessing to me personally they have brought special insight into issues that people in cell churches are interested in. Joel, you have out done yourself

again! You have written a book that will be used to bring the house church and cell church people together. Well done! All those who are interested in the new move of God for these final days must read this book! BOB LOGAN (author, professor, and church planter) wrote: Planting Churches that Reproduce is a good solid manual for planters who want to get back to the basics and discover what church is really all about. Comiskey helps Christian leaders make the paradigm shift from buildings and events to people and evangelism--and then provides clear strategies for moving forward. He underscores that what makes a church effective is not about size so much as it is about how well it can reproduce. AUBREY MALPHURS (lead Vision Navigator with the Malphurs Group) wrote: If you're a church planter or part of a church plant that is passionate about reaching the Next Generation-the future of the North American church, then this book is a must read!

This book is a practical step-by-step guide for church planters and their coaches. It covers everything they need to know to start healthy, growing churches that are biblically faithful and yet culturally relevant. While addressing the who, why, and where of planting new congregations, this comprehensive manual focuses primarily on the "how-tos." The authors use a five-stage "life cycle" (conception, pre-natal development, birth/infancy, adolescent growth, and adult reproduction) to flesh out the entire process of starting and growing a new church. Under each of these stages, a host of essential ministry and planning tasks is addressed so the planter can keep his "baby" church on course and can have the joy of watching the new church grow to maturity and eventually reproduce itself.

*Planting, Watering, Growing* Karis Publishing

This book is a manual that enforces Biblical principles, proven models and practical application for church planting. The content of this book is the fruit of many spiritual pioneers. These snapshots are of very brave men and women who chose to obey God and step out into spheres where there was no road map, operating instructions, and no guarantee of resources. The common denominator that all possessed was a responsive heart towards God, a heart that provoked bold action steps, and at the end of the day that left great legacies.
