Discusses the work of a central, but poorly understood, figure in the development of Persian Sufism, Aḥmad al-Ghazālī. The teachings of Aḥmad al-Ghazālī changed the course of Persian Sufism forever, paving the way for luminaries such as Rūmī, Aṭṭār, and Ḥāfīz. Yet he remains a poorly understood thinker, with many treatises incorrectly attributed to him and conflicting accounts in the historiographical literature. This work provides the first examination of Aḥmad al-Ghazālī and his work in Western scholarly literature. Joseph E. B. Lumbard seeks to ascertain the authenticity of works attributed to this author, trace the development of the dominant trends in the biographical literature, and reconstruct the life and times of Aḥmad al-Ghazālī with particular attention to his relationship with his more famous brother, Abū Hamid al-Ghazālī. Lumbard's findings revolutionize our understanding of Aḥmad al-Ghazālī's writings, allowing for focus on his central teachings regarding Divine Love and the remembrance of God.

Ibn Juzay al-Kalbi began his exegesis of the Quran with an introduction to the various disciplines related to explaining the Quran. One of these topics he included is sufism. The basic concern of sufism is the heart: knowing its good and bad qualities, how to rid it of bad qualities, and how to instill it with the good. Sufism is connected to the Quran since the Quran mentions divine knowledge, struggling against the self (nafs), and illuminating and purifying hearts via obtaining praiseworthy character and avoiding blameworthy character. In his tafsir he then covers twelve of these topics: thanks (shukr); Godfearingness (taqwa); remembrance (dhikr); patience (sabr); tawhid; love for Allah; reliance upon Him (tawakkul); vigilance (mur'qabah); fear and hope (khawf and raja); repentance (tawbah); and sincerity (ikhlaʿ?).

Standing at the crossroads of psychology and religion, this catalyzing work applied the scientific method to a field abounding in abstract theory. William James believed that individual religious experiences, rather than the precepts of organized religions, were the backbone of the world's religious life. His discussions of conversion, repentance, mysticism and saintliness, and his observations on actual, personal religious experiences - all support this thesis. In his introduction, Martin E. Marty discusses how James's pluralistic view of religion led to his remarkable tolerance of extreme forms of religious behaviour, his challenging, highly original theories, and his welcome lack of pretension in all of his observations on the individual and the divine.

The Qur'an is the foundational sacred text of the Islamic faith. Traditionally revered as the literal word of God, its pronouncements and discussions form the bedrock of Islamic beliefs and teachings. Notwithstanding its religious pre-eminence and the fact that it is the sacred text for over one billion of the world's Muslims, the Qur'an is also considered to be the matchless masterpiece of the Arabic language. Its historical impact as a text can be discerned in all aspects of the heritage of the Arabic literary tradition. Over recent decades, academic engagement with the Qur'an has produced an impressive array of scholarship, ranging from detailed studies of the text's unique language, style and structure, to meticulous surveys of its contents, concepts and historical contexts. The Oxford Handbook of Qur'anic Studies is an essential reference and starting point for those with an academic interest in the Qur'an. It offers not only detailed reviews of influential subjects in the field, but also a critical overview of developments in the research discourse. It explores the tradition of Qur'anic exegesis and hermeneutics, making it a comprehensive academic resource for the study of the Qur'an. No single volume devoted to such a broad academic survey of the state of the field currently exists.

Cemalnur Sargut, the Turkish leader of the Rifa'i Sufi order, occupies a special place in the intellectual and social landscape of contemporary Islam. This is so for multiple reasons. As a female Sufi teacher who commands a loyal and active worldwide following, especially in Turkey, Sargut's career as a scholar and Sufi leader represents an important case study in the dynamics of contemporary global Sufism. This volume represents the first text in English translation that brings together some of her major discourses and teachings as presented to her students through the genre of oral discourses. More specifically, the discourses that form the core of this book were collected through oral interviews with Cemalnur conducted by her students as part of a weekly program aired on a national Turkish radio station. The original Turkish transcription on which this English translation is based is titled Dinle (Listen), and was published in 2012 by Nefes Press. Cemalnur has been actively training disciples and students in the teachings and practices of the Rifa'i Sufi order for the last forty years. While her oral and written discourses are widely available in Turkish, they have until now remained inaccessible to an English language audience. This book seeks to address this lacuna by introducing key aspects of her thought and spiritual orientation in English. In this brief introduction I wish to provide readers a broad outline of the key themes and concepts that animate the lineaments of Cemalnur's thoughts as presented in this book. In addition, I also hope to provide readers with the intellectual and institutional context in which one might be able to place Cemalnur's thought and scholarly career. Moreover, I will also have the occasion to discuss the literary genre within Sufism and Islamic literature that corresponds to the kind of oral teachings and sermons that populate the pages of this book. Finally I will briefly explain the stylistic decisions and choices that were made in the presentation of this text.

Islam: A Worldwide Encyclopedia [4 volumes] Interlink Books The Sufi commentary on the Qur'an by 'Abd al-Razzaq al-Kashani (Ta'wilat al-Qur'an)—long believed to have been written by Muhyi al-Din Ibn 'Arabi (d. 1240)—is one of the masterpieces of Sufi exegesis. It is a complete commentary on the Qur'an, commenting on every chapter but not on every verse. A Sufi Commentary on the Qur'an is the first translation into English of this seminal work. Though little is known about the life of 'Abd al-Razzaq al-Kashani (d. between 1329-35), it is accepted that he studied under Mu'ayyid al-Din al-Jandi, who himself had studied with Sadr al-Din Qunawi, the stepson of Ibn 'Arabi and leading exponent of Akbarian doctrine. Despite the paucity of information on his life, Kashani is recognised for the significant contribution he made to the school of Ibn 'Arabi; his influence and legacy lie in his systemisation of the ideas and thoughts of Ibn 'Arabi. The central theme of Kashani's commentary on the Qur'an is gnosis or direct experiential knowledge of God: the seeker of the Divine is to engage in dedicated spiritual exertion in conformity with the Sacred Law until the heart becomes illuminated. The Ta'wilat al-Qur'an has been translated in two volumes: Volume I includes the commentary from the first Chapter, The Opening (al-Fatiha), until the eighteenth Chapter, The Cave (al-Kahf); while Volume II includes the commentary from Chapter nineteen, Mary (Maryam), to the end of the Qur'an.

A Study in Human Nature Qur'anic Studies

"A welcome expansion of the fragile territory known as common ground." —The New York Times When Reza Aslan's bestseller *Zealot* came out in 2013, there was criticism that he hadn't addressed his Muslim faith while writing the origin story of Christianity. In fact, Ross Douthat of The New York Times wrote that "if Aslan had actually written in defense of the Islamic view of Jesus, that would have been something provocative and new." Mustafa Akyol's *The Islamic Jesus* is that book. *The Islamic Jesus* reveals startling new truths about Islam in the context of the first Muslims and the early origins of Christianity. Muslims and the first Christians—the Jewish followers of Jesus—saw Jesus as not divine but rather as a prophet and human Messiah and that salvation

comes from faith and good works, not merely as faith, as Christians would later emphasize. What Akyol seeks to reveal are how these core beliefs of Jewish Christianity, which got lost in history as a heresy, emerged in a new religion born in 7th Arabia: Islam. Akyol exposes this extraordinary historical connection between Judaism, Jewish Christianity and Islam—a major mystery unexplored by academia. From Jesus' Jewish followers to the Nazarenes and Ebionites to the Qur'an's stories of Mary and Jesus, *The Islamic Jesus* will reveal links between religions that seem so contrary today. It will also call on Muslims to discover their own Jesus, at a time when they are troubled by their own Pharisees and Zealots.

An Introduction to Islamic Spirituality Harper Collins "Neither as Christians or Jews, nor simply as intellectually responsible individuals," says Hixon, "have members of Western civilization been sensitively educated or even accurately informed about Islam." As tensions between America and the Middle East grow, we should promote cross-cultural understanding, not violence. This new edition, with a new foreword and commentary by Neil Douglas-Klotz, allows the reader to drink from the illuminating fountain of the Holy Qur'an—the foundation of Islamic culture. First published in 1988, Hixon's poetic meditations on over nine-hundred passages from the Qur'an show that they are not relics from the past but exist in a timeless present, communicating as vividly as when they were first uttered. Through clear and accessible language, Hixon illustrates how the teachings of Islam can be applied to contemporary everyday life issues such as love, relationships, justice, work, and self-knowledge. In addition to the selections themselves, the book contains readable, lively introductions to the tradition of Islam, its basic precepts, and what it says about other religions. As the first such work in English to be written by a Muslim, *The Heart of the Qur'an* continues to show that Islam is among the great wisdom traditions of humanity.

Philip Pullman, author of 'His Dark Materials' trilogy, has remarked that "after nourishment, shelter, and companionship, stories are the thing we need most in the world." This new collection of Rumi

stories fills that need. This fresh prose translation of 105 short teaching stories by Rumi, which form the core of the six-volume *Masnavi*, explores the hidden spiritual aspects of everyday experience. Rumi transforms the seemingly mundane events of daily life into profound Sufi teaching moments. These prose gems open the mystical portal to the world of the ancient mystic. These stories include well-known and popular tales such as "Angel of Death," "The Sufi and His Cheating Wife," "Moses and the Shepherd," "Chickpeas," and "The Greek and Chinese Painters" as well as the less commonly quoted parables: "The Basket Weaver," "The Mud Eater," and "A Sackful of Pebbles." Rumi's voice alternates between playful and authoritative, whether he is telling stories of ordinary lives or inviting the discerning reader to higher levels of introspection and attainment of transcendent values. Mafi's translations delicately reflect the nuances of Rumi's poetry while retaining the positive tone of all of Rumi's writings, as well as the sense of suspense and drama that mark the essence of the *Masnavi*.
