JEWISH SOURCES AND THE TRANSFORMATION OF EUROPEAN POLITICAL THOUGHT

Routledge

According to a commonplace narrative, the rise of modern political thought in the West resulted from secularization—the exclusion of religious arguments from political discourse. But in this pathbreaking work Eric Nelson argues that this familiar story is wrong. Instead, he contends, political thought in early-modern Europe became less, not more, secular with time, and it was the Christian encounter with Hebrew sources that provoked this radical transformation. During the sixteenth and seventeenth centuries, Christian scholars began to regard the Hebrew Bible as a political constitution designed by God for the children of Israel. Newly available rabbinic materials became authoritative guides to the institutions and practices of the perfect republic. This thinking

resulted in a sweeping reorientation of political commitments. In the book's central chapters Nelson identifies three transformative claims introduced into European political theory by the Hebrew revival: the argument that republics are the only legitimate regimes; the idea that the state should coercively maintain an egalitarian distribution of property; and the belief that a godly republic would tolerate religious diversity. One major consequence of Nelson's work is that the revolutionary politics of John Milton, James Harrington, and Thomas Hobbes appear in a brand-new light. Nelson demonstrates that central features of modern political thought emerged from an attempt to emulate a constitution designed by God. This paradox, a reminder that while we may live in a secular age, we owe our politics to an age of religious fervor, in turn illuminates fault lines in contemporary political discourse.

Political Theory from Plato to Weber Clarendon Press
In 1942 the threat of Japanese invasion hung over Australia. The men were away overseas, fighting on other fronts,

and civilians were left unprotected at home. Following the attack on Pearl Harbor and the Japanese advance south, Prime Minister Curtin ordered state governments to prepare. From January 1942, a team frantically pulled together secret plans for a 'scorched earth' strategy. The goal was to prevent the Japanese from seizing resources for their war machine as they landed, and capturing Australians as slaves as they had done in Malaya and elsewhere in Asia. From draining domestic water tanks to sinking dinghies and burning crops, from training special citizen squads to evacuating coastal towns, 'Total war, total citizen collaboration' was the motto. Today these plans vividly evoke the fraught atmosphere of the year Australia was threatened with invasion. After the war these top secret plans were forgotten. This is the first time they have ever been made public. 'This is a treasure trove, a gold mine, a Christmas-every-day cornucopia of rich Australian history...' Peter Grose, author of *An Awkward Truth* and *A Very Rude Awakening*.
The Mighty and the Almighty Liveright

Publishing
 Indian Political Thought: Themes and Thinkers covers all major Indian political thinkers from the ancient, through medieval to the modern times. Thus, this book provides an overview of the evolution of the Indian political thought through different historical periods, giving an insight into the sociological and political conditions of the times that shaped the Indian political thinking. It does not only talk about the lives and times of the thinkers, but also explores the important themes that formed the basis of their political ideologies. The chapters discuss the contributions of the thinkers and at the same time examine some important themes including the theory of state, civil rights, ideal polity, governance, nationalism, democracy, social issues like gender and caste, swaraj, satyagraha, liberalism, constitutionalism, Marxism, socialism and Gandhism. With a comprehensive coverage of both the thinkers and the themes of the Indian political thought, this book caters to needs of the undergraduate as well as the post graduate courses of all Indian

universities. It is valuable also for UGC-NET and civil service examinations.
Political Thinkers
 Waveland Press
 According to conventional periodization, a profound break in the continuity of Western political theory occurred around 1500 and marked the beginning of "modern" political thought. In Machiavelli to Marx Dante Germino examines the scholars of this period whose works he feels have made significant new approaches to the critical understanding of our world and, consequently, to the problems of our time. Beginning with Machiavelli, the author covers major political philosophers such as Hobbes, Locke, Rousseau, and Burke and gives lucid, perceptive accounts of what they thought and taught about politics. He discusses utilitarianism, liberalism, scientism, and messianic nationalism through the writings of such influential thinkers as Bentham, Spencer, Saint-Simon, and Fichte and concludes with three of the foremost political philosophers of the nineteenth century—Fourier, Proudhon, and Marx.
INDIAN POLITICAL THOUGHT John Wiley &

Sons
 Novel collection of essays addressing contemporary trends in political science, covering a broad array of methodological and substantive topics.

POLITICAL SCIENCE AND THE MYTH OF LEADERSHIP

Pearson Education India Political Thinkers is the most comprehensive introduction to Western political thought written by a team of internationally renowned scholars. The third edition provides students with a clear and engaging introduction to the canon of great theorists, from Socrates and the Sophists to contemporary thinkers such as Rawls and Arendt. Each chapter begins with a helpful chapter guide, a biographical sketch of the thinker, a list of their key texts, and their key ideas. Part introductions and a concluding chapter enable readers to understand the social and political contexts that inspired political thinkers to write. The third edition features two brand new chapters on Hannah Arendt, one of the most influential philosophers of the twentieth century, and Hugo Grotius, whose work on just war continues to

inform international law today.

The Idea of the Museum
Harvard University Press
To truly understand the substance and value of any great philosopher's work, students must examine political theory against the backdrop of history, the surrounding literature, and the individual theorist's views on human nature and rational motivation. In this third edition of his classic text, Edward Portis provides students with the framework they need to fully appreciate the original texts they are reading and apply the concepts they are learning. Fully updated since the previous edition almost a decade ago, Portis expands his coverage to include a complete chapter on Max Weber. Further, Portis strengthens his lucid introductions to the greatest theorists of Western political thought, proving them indispensable guides for both the politically engaged citizen and the practicing social scientist. He also provides suggestions, updated for this edition, for further reading in political theory.

Western Political Thought: From the Ancient Greeks to Modern Times, 2nd Edition by Pearson

Oxford University Press
In this enhanced edition, Larry Arnhart continues to ask thought-provoking questions that illuminate the philosophies of some of the most prominent political thinkers throughout history. This clear, well-written guide is an ideal supplement to the original texts he recommends at the beginning of each chapter. In addition to his analysis of Plato, Aristotle, Augustine, Aquinas, Machiavelli, Descartes, Rousseau, Hegel, Marx, Nietzsche, and Rawls, the author's well-organized and insightful approach provides an even more comprehensive overview than the earlier editions: • Supplementing the discussion of Leviathan, the chapter on Thomas Hobbes covers Behemoth. • The chapter on John Locke includes his Letter Concerning Toleration as well as the original discussion of Second Treatise of Government. • A chapter on Adam Smith

has been added, which discusses Theory of Moral Sentiments and Wealth of Nations. • Leo Strauss is featured, with an examination of Persecution and the Art of Writing and Natural Right and History. • A final chapter analyzes Steven Pinker's The Better Angels of Our Nature.

Western Political Thought OUP Oxford WINNER OF THE COSTA FIRST NOVEL AWARD A NATIONAL BOOK FOUNDATION 5 UNDER 35

"Open Water is tender poetry, a love song to Black art and thought, an exploration of intimacy and vulnerability between two young artists learning to be soft with each other in a world that hardens against Black people."—Yaa Gyasi, author of Homegoing
In a crowded London pub, two young people meet. Both are Black British, both won scholarships to private schools where they struggled to belong, both are now artists—he a photographer, she a dancer—and both are trying to make their mark in a world that by turns celebrates and rejects them. Tentatively, tenderly, they fall in love. But two people who seem destined to be together can still be torn apart by

fear and violence, and over the course of a year they find their relationship tested by forces beyond their control. Narrated with deep intimacy, *Open Water* is at once an achingly beautiful love story and a potent insight into race and masculinity that asks what it means to be a person in a world that sees you only as a Black body; to be vulnerable when you are only respected for strength; to find safety in love, only to lose it. With gorgeous, soulful intensity, and blistering emotional intelligence, Caleb Azumah Nelson gives a profoundly sensitive portrait of romantic love in all its feverish waves and comforting beauty. This is one of the most essential debut novels of recent years, heralding the arrival of a stellar and prodigious young talent.

Whole Western Political Thought From Socrates to the Age of Ideology, Second Edition
 Reexamination of the role of the West in U.S. history and of the field of western history itself told by ten historians.
From Socrates to the Age of Ideology Cengage Learning
 What do you do after life has handed you a wake-

up call? Author Brian Seth Hurst experienced a significant professional setback, but, rather than "soldier on," he recognized it as a profound opportunity to acknowledge a deeper foundation at work in his life. It is the affirmation that there is sheer power in what one believes, and, for better or worse, those beliefs are the foundation for the reality we create. The question of "Why?" began a thirty-day inquiry and adventure for Hurst into the unknown. The result is the book *W H O L E* - a collection of powerful essays that examine how beliefs serve, or do not serve, us in our lives, how those beliefs can be transformed to change our circumstances, and the power of the ultimate connection to Source. What do you do after life has handed you a wake-up call? If you decide to remain awake, then you begin looking at your life. *W H O L E* is your companion as you review the past, balance all areas of your life, and begin to create anew. *W H O L E* prompts a very personal, progressive, and conscious examination of concepts and belief systems in every area of your life, ranging from

relationships, work and time, to money, the environment, morality and your purpose. It asks provocative and thoughtful questions that lead to understanding. How do you reconcile everything that has happened and is happening in your life with the one you truly want? The good and the bad, the joy and the hurt, the wins and the losses - all those parts form the experience of your life and your identity. Yet, you are much greater than the sum of all those parts. *W H O L E* allows you to make sense of the pieces of your life as part of the greater being that is You. *W H O L E* presents you with the opportunity to reconcile the past, arrive wholly connected in the present, and create your future. *W H O L E* literally answers the question, "What was I thinking?" "To know "whole" in the duality of your reality, you must know broken. To know broken is to recognize that you are, always have been, and always will be *WHOLE*."

Political Questions
 Waveland Press
 Questions how the church and state should be related, through an examination of the

relationship between divine and political authority.

Political Philosophy and the Justice of God Pearson Education India

Nelson provides a historical overview of the theoretical and ideological evolution of the modern state, from pre-state and pre-modern state formations to the present. A major theme of the book is the need to understand the modern state holistically, as a totality of social, political, and ideological factors.

Toward a New Western History University of Chicago Press

A NEW YORK TIMES NOTABLE BOOK OF 2021 *A GUARDIAN AND TLS 'BOOKS OF 2021' PICK* 'One of the most electrifying writers at work in America today, among the sharpest and most supple thinkers of her generation' - Olivia Laing So often deployed as a jingoistic, even menacing rallying cry, or limited by a focus on passing moments of liberation, the rhetoric of freedom both rouses and repels. Does it remain key to our autonomy, justice, and well-being, or is freedom's long star turn coming to a close? Does a continued obsession with the term enliven and

emancipate, or reflect a deepening nihilism (or both)? On Freedom examines such questions by tracing the concept's complexities in four distinct realms: art, sex, drugs, and climate. Drawing on a vast range of material, from critical theory to pop culture to the intimacies and plain exchanges of daily life, Nelson explores how we might think, experience, or talk about freedom in ways responsive to the conditions of our day. Her abiding interest lies in ongoing "practices of freedom" by which we negotiate our interrelation with-indeed, our inseparability from-others, with all the care and constraint that relation entails, while accepting difference and conflict as integral to our communion. For Nelson, thinking publicly through the knots in our culture-from recent art world debates to the turbulent legacies of sexual liberation, from the painful paradoxes of addiction to the lure of despair in the face of the climate crisis-is itself a practice of freedom, a means of forging fortitude, courage, and company. On Freedom is an invigorating, essential book for challenging

times.

Political Philosophy from Plato to Pinker, Fourth Edition Pearson Education India

Leadership, Robert W. Terry contAnds, is a type of action. In Authentic Leadership, he shows how this shift in perspective carries enormous consequences for consideration of courage, vision, ethics, and spirituality as they relate to leadership. Terry show that the central organizing principle of leadership is authenticity. And he shows how authenticity and action joined together form a sure foundation for effective leadership.

FOUNDATIONS OF INDIAN POLITICAL THOUGHT

SAGE Publishing India
A History of Western Political Thought is an energetic and lucid account of the most important political thinkers and the enduring themes of the last two and a half millennia. Written with students of the history of political thought in mind, the book: * traces the development of political thought from Ancient Greece to the late twentieth century *

focuses on individual thinkers and texts * includes 40 biographies of key political thinkers * offers original views of theorists and highlights those which may have been unjustly neglected * develops the wider themes of political thought and the relations between thinkers over time.

Text and Context Manohar Publishers

Western Political Thought, 2E is an attempt to include in its reach the political ideas of some of the more recent thinkers. These thinkers certainly draw on the classics of western political thought like the writings of Marx, Rousseau, Locke and Aristotle; however, they also extend our understanding of the political thought in several

ways. The latest edition gives a comprehensive account of the thread of political thought that stretches from the ancient Greeks to modern times. Analysing political philosophies chronologically, this book offers valuable insights into the political structures of societies across the ages and presents a wide perspective on the various social and political ideologies.
