The PET Gold Exam Maximiser is a unique combination of coursebook and exam handbook. In full colour, it provides comprehensive exam training and language practice together

with practical exam tips and strategies for PET.

*Advanced Expert* Cambridge University Press

Separated into seven categories for easy reference, the techniques within each chapter are applied to practice situations in a concise format for easy reference and use. The interventions illustrated include Storytelling, to enhance verbalizations in children; Expressive Art, to promote children's coping ability by using various art mediums; Game Play, to help children express themselves in a playful environment; Puppet Play, to facilitate the expression of conflicting emotions; Play Toys and Objects, to demonstrate the therapeutic use of various toys and objects in the playroom; Group Play, to offer methods and play techniques for use in group settings; and Other, to provide miscellaneous techniques that are useful in many settings. This book is a response to the evident need of clinicians for easy to use play therapy techniques. A welcome addition to the earlier collection,

it is designed to help children enhance verbalization of feeling, manage anger, deal with loss and grief, and heal their wounds through the magic of play therapy. Clear and marvelously simple, this manual will be an invaluable addition to any professional's or student's library.

NEW BUSINESS MATTERS is a stimulating language course for students of business English. Its unique lexical syllabus precisely identifies what business students need to learn in order to increase their understanding, fluency, and communicative power in English. Each unit is based on a specially written article, rich in the language of company life, followed by language activities which ensure that learners engage with the language and interact with each other.

**Grammar Intermediate & Advanced** Longman

The changes to the new edition include a significant expansion of the academic review section along with the integration of full color. Chapter essentials and proficiency exercises throughout the review book assist students to develop mastery of essential National Physical Therapy Examination content. Our clinically-oriented questions with expansive explanation of answers prepare candidates for the rigor of the actual exam and offer an ideal method to determine current strengths and weaknesses. The Complete Study Guide includes: Comprehensive academic review; 60 clinical application templates; CD with three full-length examinations. Explanation of answers for correct and incorrect options; Complete index for the academic review and sample examinations.

### **UPSTREAM PROFICIENCY C2 WORKBOOK**

American Library Association

Fantasy is a creation of the Enlightenment, and the recognition that excitement and wonder can be found in imagining impossible things. From the ghost stories of the Gothic to the zombies and vampires of twenty-first-century popular literature, from Mrs Radcliffe to Ms Rowling, the fantastic has been popular with readers. Since Tolkien and his many imitators, however, it has become a major publishing phenomenon. In this volume, critics and authors of fantasy look at its history since the Enlightenment, introduce readers to some of the different codes for the reading and understanding of fantasy, and examine some of the many varieties and subgenres of fantasy; from magical realism at the more literary end of the genre, to paranormal romance at the more popular end. The book is edited by the same pair who produced *The Cambridge Companion to Science Fiction* (winner of a Hugo Award in 2005).

English Phrasal Verbs in Use: Advanced Jason Aronson  
*Ordinary Enchantments* investigates magical realism as the most important trend in contemporary international fiction, defines its characteristics and narrative techniques, and proposes a new theory to explain its significance. In the most comprehensive critical treatment of this literary mode to date, Wendy B. Faris discusses a rich array of examples from magical realist novels around the world, including the work not only of Latin American writers like Gabriel Garcia Marquez, but also of authors like Salman Rushdie, Gunter Grass, Toni Morrison, and Ben Okri. Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary, magical realism destabilizes the dominant form of realism based on empirical definitions of reality, gives it visionary

power, and thus constitutes what might be called a "remystification" of narrative in the West. Noting the radical narrative heterogeneity of magical realism, the author compares its cultural role to that of traditional shamanic performance, which joins the worlds of daily life and that of the spirits. Because of that capacity to bridge different worlds, magical realism has served as an effective decolonizing agent, providing the ground for marginal voices, submerged traditions, and emergent literatures to develop and create masterpieces. At the same time, this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within. In addition to describing what many consider to be the progressive cultural work of magical realism, Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity. And finally, drawing on the narrative innovations and cultural scenarios that magical realism enacts, she extends those principles toward issues of gender and the possibility of a female element within magical realism.

#### Advanced Gold Proficiency Gold
