This volume examines the global influence and impact of DIY cultural practice as this

informs the production, performance and consumption of underground music in different parts of the world. The book brings together a series of original studies of DIY musical activities in Europe, North and South America, Asia and Oceania. The chapters combine insights from established academic writers with the work of younger scholars, some of whom are directly engaged in contemporary underground music scenes. The book begins by revisiting and re-evaluating key themes and issues that have been used in studying the cultural meaning of alternative and underground music scenes, notably aspects of space, place and identity and the political economy of DIY cultural practice. The book then explores how the DIY cultural practices that characterize alternative and underground music scenes have been impacted and influenced by technological change, notably the emergence of digital

media. Finally, in acknowledging the over 40-year history of DIY cultural practice in punk and post-punk contexts, the book considers how DIY cultures have become embedded in cultural memory and the emotional geographies of place. Through combining high-quality data and fresh conceptual insights in the context of an international body of work spanning the disciplines of popular-music studies, cultural and media studies, and sociology the book offers a series of innovative new directions in the study of DIY cultures and underground/alternative music scenes. This volume will be of particular interest to undergraduate students in the above-mentioned fields of study, as well as an invaluable resource for established academics and researchers working in these and related fields.

The Faces of the Gods John Wiley & Sons Incorporating developments from both academia and industry, this exploration of brands, brand equity and strategic brand management combines a theoretical foundation with numerous techniques and practical insights. This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

The Haitian Revolution was perhaps the most successful slave rebellion in modern history; it created the first and only free and independent Black nation in the Americas. This book tells the story of how enslaved Africans forcibly brought to colonial Haiti through the trans-Atlantic slave trade used their cultural and religious heritages, social networks, and labor and militaristic skills to survive horrific conditions. They built webs of networks between African and 'creole' runaways, slaves, and a small number of free people of color through rituals and marronnage - key aspects to building the racial solidarity that helped make the revolution successful. Analyzing underexplored archival sources and advertisements for fugitives from slavery, Crystal Eddins finds indications of collective consciousness and solidarity, unearthing patterns of resistance. Considering the importance of the Haitian Revolution and the growing scholarly interest in exploring it, Eddins fills an important gap in the existing literature.

This entertaining history of Cuba and its music begins with the collision of Spain and Africa and continues through the era of Miguelito Valdes, Arsenio Rodriguez, Benny More, and Perez Prado. It offers a behind-the-scenes examination of music from a Cuban point of view, unearthing surprising, provocative connections and making the case that Cuba was fundamental to the evolution of music in the New World. The ways in which the music of black slaves transformed 16th-century Europe, how the "claves" appeared, and how Cuban music influenced ragtime, jazz, and rhythm and blues are revealed. Music lovers will follow this journey from Andalusia, the Congo, the Calabar, Dahomey, and Yorubaland via Cuba to Mexico, Puerto Rico, Saint-Domingue, New Orleans, New York, and Miami. The music is placed in a historical context that considers the complexities of the slave trade; Cuba's relationship to the United States; its revolutionary political

traditions; the music of Santeria, Palo, Abakua, and Vodou; and much more.

Guanabacoa is a city in Cuba famous as the birthplace of some of the most powerful Paleros ever. One of these spiritual giants was Demetrio Gomez, who for nearly fifty years led one of the most potent Palo houses in Cuba. Using an insider's knowledge as well as the careful

scholarship that has come to identify his work (Cuban Santeria: Walking with the Night), Demetrio's godson, Baba Raul Canizares, known in Palo circles as Tata Camposanto Medianoche, gives us Demetrio's own teachings, which makes this the best Palo book in English, featuring never-before published sygills, workings, and the unique contribution to the field of over 200 translations of herbs, sticks, and palo sticks from CUBAN Spanish to Bantu and English, including each plant's scientific classification. The book also features many photographs of rituals, initiations, and sacrifices

One of the earliest chronicles of the Inca empire was written in the 1550s by Juan de Betanzos. Although scholars have long known of this work, only eighteen chapters were actually available until the 1980s when the remaining sixty-four chapters were discovered in the collection of the Fundación Bartolomé March in Palma de Mallorca, Spain. Narrative of the Incas presents the first complete English translation of the original manuscript of this key document. Although written by a

Spaniard, it presents an authentic Inca worldview, drawn from the personal experiences and oral traditions told to Betanzos by his Inca wife, Doña Angelina, and other members of her aristocratic family who lived during the reigns of the last Inca rulers, Huayna Capac Huascar and Atahualpa. Betanzos wrote a history of the Inca empire that focuses on the major rulers and the contributions each one made to the growth of the empire and of Inca culture. Filled with new insights into Inca politics, marriage, laws, the calendar, warfare, and other matters, Narrative of the Incas is essential reading for everyone interested in this ancient civilization.

"I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be—their work talked about, quoted, taught, performed, filmed, set to music, anthologized.

Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." —Lydia Davis

A MANUAL FOR CLEANING WOMEN compiles the best work of the legendary short-story writer Lucia

Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers,

hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.
