Inspired by her childhood love of books like *A Secret Garden* and *The Chronicles of Narnia*, bestselling author Tahereh Mafi crafts a spellbinding new world where color is currency, adventure is inevitable, and friendship is found in the most unexpected places. There are only three things that matter to twelve-year-old Alice Alexis Queensmeadow: Mother, who wouldn't miss her; magic and color, which seem to elude her; and Father, who always loved her. The day Father disappears from Ferenwood he takes nothing but a ruler with him. But it's

been almost three years since then, and Alice is determined to find him. She loves her father even more than she loves adventure, and she's about to embark on one to find the other. But bringing Father home is no small matter. In order to find him she'll have to travel through the mythical, dangerous land of Furthermore, where down can be up, paper is alive, and left can be both right and very, very wrong. It will take all of Alice's wits (and every limb she's got) to find Father and return home to Ferenwood in one piece. On her quest to find Father, Alice must first find herself—and hold fast to the magic of love in the face of loss. “Tahereh Mafi is a maestro of words, and Furthermore the most magical painting that ever existed, bursting with color and heart and

The delights of Dumas' novels are well known. Less known today are his tales of Robin Hood. With pleasure, we present these two old works to a new century of readers. English versions of "The Prince of Thieves" and "Robin Hood the Outlaw" have virtually disappeared from bookshelves; they are now edited, corrected, and made accessible to the world in print and e-formats, by the Reginetta Press. In this first volume, "The Prince of Thieves," Alexandre Dumas relates his own unique version of Robin Hood's origins and upbringing, how Robin was robbed of his heritage, how Robin becomes acquainted with Marian, Little John, Friar Tuck, and the Merrie Men, and the events leading up to Robin Hood's life as an outlaw. Alfred Allinson's translation lends enchantingly antique

wording, transporting us to the charm of a Sherwood Forest of former, fanciful days.

In the tradition of Sándor Márai, Mihail Sebastian is a captivating Central European storyteller from the first half of the twentieth century whose work is being rediscovered by new generations of readers throughout Europe, Latin America, and the United States. The 2000 publication of his *Journal 1935-1944: The Fascist Years* introduced his writing to an English-speaking audience for the first time, garnering universal acclaim. Philip Roth wrote that Sebastian's *Journal* "deserves to be on the same shelf as Anne Frank's *Diary* and to find as huge a readership."

Outside of the English-speaking world, Sebastian's reputation rests on his fiction. This publication of *The Accident* marks the first appearance of the author's fiction in English. A love story set in the Bucharest art world of the 1930s and the Transylvanian mountains, it is a deeply romantic, enthralling tale of two people who meet by chance. Along snowy ski trails and among a mysterious family in a mountain cabin, Paul and Nora, united by an attraction that contains elements of repulsion, find the keys to their fate. Mihail Sebastian (1907-1945) was born in southeastern Romania and worked in Bucharest as a lawyer, journalist, novelist, and playwright until anti-Semitic legislation forced him to abandon his public career. His long-lost diary, *Journal 1935-1944*:

The Fascist Years, was published in seven countries between 1996 and 2007, launching an international revival of his work. Sebastian's novels and plays are available in translation throughout Europe, and also have been published in Chinese, Hindi, Bengali, and Hebrew.

Creativity is critical. *Out of Our Minds*

explores creativity: its value in business, its ubiquity in children, its perceived absence in many adults and the phenomenon through which it disappears — and offers a groundbreaking approach for getting it back. Author Sir Ken Robinson is an internationally recognised authority on creativity, and his TED talk on the subject is the most watched video in TED's history. In this book, Sir Ken argues that organisations everywhere are struggling to fix a problem that originates in schools and universities. Organisations everywhere are competing in a world that changes in the blink of an eye – they need people who are flexible enough to adapt, and creative enough to find novel solutions to problems old and new. *Out of Our Minds* describes how

schools, businesses and communities can work together to bring creativity out of the closet and realise its inherent value at every stage of life. This new third edition has been updated to reflect changing technologies and demographics, with updated case studies and coverage of recent changes to education. While education and training are the keys to the future, the key can also be turned the other way; locking people away from their own creativity. Only by actively fostering creativity can businesses unlock those doors and achieve their true potential. This book will help you to: Understand the importance of actively promoting creativity and innovation. Discover why creativity stagnates somewhere between childhood and adulthood. Learn how to

re-awaken dormant creativity to help your business achieve more. Explore ways in which we can work together to keep creativity alive for everyone. Modern business absolutely demands creativity of thought and action. We're all creative as children — so where does it go? When do we lose it? Out of Our Minds has the answers, and clear solutions for getting it back.

The Big Green Tent epitomizes what we think of when we imagine the classic Russian novel. With epic breadth and intimate detail, Ludmila Ulitskaya's remarkable work tells the story of three school friends who meet in Moscow in the 1950s and go on to embody the heroism, folly, compromise, and hope of the Soviet dissident experience. These three boys—an orphaned poet; a gifted,

fragile pianist; and a budding photographer with a talent for collecting secrets—struggle to reach adulthood in a society where their heroes have been censored and exiled. Rich with love stories, intrigue, and a cast of dissenters and spies, *The Big Green Tent* offers a panoramic survey of life after Stalin and a dramatic investigation into the prospects for individual integrity in a society defined by the KGB. Each of the central characters seeks to transcend an oppressive regime through art, a love of Russian literature, and activism. And each of them ends up face-to-face with a secret police that is highly skilled at fomenting paranoia, division, and self-betrayal. A man and his wife each become collaborators, without the other knowing; an artist is chased into the

woods, where he remains in hiding for four years; a researcher is forced to deem a patient insane, damning him to torture in a psychiatric ward. Ludmila Ulitskaya's novel belongs to the tradition of Dostoevsky, Tolstoy, and Pasternak: it is a work consumed with politics, love, and belief—and a revelation of life in dark times.

“Gillham is a powerful storyteller, and Annelies is marbled with spare eloquence that captures the absurdity of life after the camps. . . . A novel that reminds the world to remember Anne Frank is most welcome.” —USA Today “A haunting what-if.” —Georgia Hunter, New York Times bestselling author of *We Were the Lucky Ones* “Not only a

poignant reminder of all that was lost during the war, but a vivid, searching exploration of what it meant to exist in the aftermath.” —Jessica Shattuck, New York Times bestselling author of *The Women in the Castle* From the author of *City of Women*, a powerful new novel that asks the question: What if Anne Frank survived the Holocaust? Anne Frank is a cultural icon whose diary painted a vivid picture of the Holocaust and made her an image of humanity in one of history's darkest moments. But she was also a person—a precocious young girl with a rich inner life and tremendous skill as a writer. In this masterful new novel, David R. Gillham explores with breathtaking empathy the woman—and the writer—she might have become.

For centuries, Western science and many Western cultures have taught us to think of ourselves as individuals. But today, a revolutionary new understanding is emerging from the laboratories of the most cutting-edge physicists, biologists, and psychologists: What matters is not the isolated entity, but the space between things, the relationship of things. *The Bond*. By international bestselling author Lynne McTaggart, *The Bond* is the culmination of her groundbreaking work. It offers a completely new, scientific story of life and the human experience, one that challenges the very way we conceive of ourselves and our world. *The Bond* shows that the essential impulse of all

life is a will to connect rather than a drive to compete. In fact, we are inescapably connected, hardwired to each other at our most elemental level—from cells to whole societies. The desire to help others is so necessary that we experience it as one of our chief pleasures, as essential as eating and having sex, and we succeed and prosper only when we see ourselves as part of a greater whole. Every conflict that occurs—whether between husband and wife, social or racial groups, or nations—is resolved only when we can fully see and embrace the space—the bond—between us. McTaggart offers detailed recommendations to help foster more holistic thinking, more cooperative relationships, and more unified social groups. Blending interviews and human

stories into an absorbing narrative, she shows how:

- A simple daily practice conditions the brain to enable you to become more empathetic toward others
- A new way of speaking and listening can overcome polarization, helping the staunchest of enemies to become close friends
- People who fire together wire together: Whenever a group works together for a common goal, the brains of all parties begin to get on the same wavelength, strengthening the bond within the group
- Fairness is more powerful than unfairness: A small group of individuals committed to strong reciprocity can “invade” a population of self-interested individuals and create a fairer society

The Bond offers a breathtaking, visionary plan for a new way to live, in harmony with our true

nature and with each other, and a new way to heal our relationships, our neighborhoods, and our world.

Modern ceramic materials differ from the traditional materials which were only based on natural substances. It is now possible to prepare ceramics using a wide range of properties and as an area

this field has evolved as a very broad scientific and technical field in its own right. In practice one encounters ceramics in practically all branches of materials science and the characteristics are so wide ranging that the common basis of these substances is not always immediately apparent. All ceramic materials are prepared by ceramic technology, and powder substances are used as the initial raw materials. Their physical properties are an expression not only of their composition, but primarily of their structure. Thus in order to fully understand the properties of ceramics, a knowledge of their structure is essential. This book is intended as a source of such knowledge. All the chapters are written by authors with vast experience in the various fields of

ceramics who provide a detailed description of the interrelationships between the structure and behaviour of ceramic materials.

The short-sighted adolescent is a passionate reader who takes various cultural figures as models, trying to emulate both their lives or their works. The pupil protagonist is a poor student, who likes science and reads a lot of books, sometimes staying up all night to do so. At the age of 17, he decides to write a novel to demonstrate to his teachers that he is not as mediocre as his other classmates, and that he is prepared to give up everything he holds dear in order to do so. The novel is written in a number of notebooks - the 'diary' of the title - but our myopic hero

ultimately fails 3 subjects and has to repeat the school year. Set in the Romanian capital in the early 20th century, from the perspective of a schoolboy's diary of his daily life, - his teachers, his classmates' academic and amorous rivalries, his first sexual experiences - we are introduced to the themes of religion, self-knowledge, erotic sensibility, artistic creation and otherness, ideas which would preoccupy him until the end of his life. *Diary of a Short-Sighted Adolescent* was written by the young Mircea Eliade - one of Romania's greatest writers and intellectuals. The book can be viewed as an early 20th century 'Catcher in the Rye', and allows us an intimate view of the developing genius, whose literary output has been neglected in the English

language for too long.

Little Lord Fauntleroy is a novel by the English-American writer Frances Hodgson Burnett, her first children's novel. It was published as a serial in *St. Nicholas Magazine* from November 1885 to October 1886, then as a book by Scribner's (the publisher of *St. Nicholas*) in 1886.[2] The illustrations by Reginald B. Clinical psychologist and author of *The Defining Decade*, Meg Jay takes us into the world of the supernormal: those who soar to unexpected heights after childhood adversity. Whether it is the loss of a parent to death or divorce; bullying; alcoholism or drug abuse in the home; mental illness in a parent or a sibling; neglect; emotional, physical or sexual abuse; having a parent in jail; or growing up alongside domestic violence, nearly 75% of us experience adversity by the age of 20. But these experiences are often kept secret, as are our courageous battles to overcome them. Drawing on nearly two decades of work

with clients and students, Jay tells the tale of ordinary people made extraordinary by these all-too-common experiences, everyday superheroes who have made a life out of dodging bullets and leaping over obstacles, even as they hide in plain sight as doctors, artists, entrepreneurs, lawyers, parents, activists, teachers, students and readers. She gives a voice to the supernormals among us as they reveal not only "How do they do it?" but also "How does it feel?" These powerful stories, and those of public figures from Andre Agassi to Jay Z, will show supernormals they are not alone but are, in fact, in good company. Marvelously researched and compassionately written, this exceptional book narrates the continuing saga that is resilience as it challenges us

to consider whether -- and how -- the good wins out in the end.
