## **AIYANA JORDAN**

---

Concise Oxford Companion to the English Language Random House  
Scientific English is possibly the most rewarding area of EFL teaching. It differs from English for Academic Purposes (EAP) as it is directed to a much smaller audience: PhD and postdoc students. Courses on Scientific English are held in universities throughout the world, yet there is very little support for teachers in understanding what to teach and how to teach it. This guide is part of the English for Academic Research series. Part 1 of the book sheds light on the world of academia, the writing of research papers, and the role of journal editors and reviewers. Part 2 gives practical suggestions on how to help your students improve their presentation skills. In Part 3 you will learn how to teach academic skills using nonacademic examples. Parts 1-3 are thus useful for anyone involved in teaching academic English, whether they have used the

other books in the series or not. Part 4 suggests two syllabuses for teaching writing and presenting skills, based on the two core books: English for Writing Research Papers English for Presentations at International Conferences This book will help you i) understand the world of your students (i.e. academic research), ii) plan courses, and iii) exploit the What's the Buzz? sections in the books on Writing, Presentations, Correspondence and Interacting on Campus. Adrian Wallwork has written over 30 books covering General English (Cambridge University Press, Scholastic), Business English (Oxford University Press), and Scientific English (Springer). He has trained several thousand PhD students from all over the world to write and present their research. Adrian also runs a scientific editing service: English for Academics (E4AC).

## **THE NEW AMERICAN DICTIONARY OF GOOD ENGLISH**

Springer

This book is for writer's to cherry-pick body language for their characters. It

does what it says on the cover - it's an A-Z list of emotions, attitudes and feelings with the associated body language.

**Oxford A-Z of Grammar and Punctuation** Springer Science & Business Media

In a completely thoroughly edition of 'An A-Z of English Grammar and Usage' - an established favourite among teachers - Geoffrey leech and his colleagues provide teachers and learners of English with a unique reference grammar.

Accessible, easy-to-use, dictionary-like format. Comprehensive coverage of English grammar in over 600 fully cross-referenced entries. - common grammatical key words, such as 'more', 'what', 'unless' 'can'. - Main terms for talking about grammar, meaning and usage, such as 'indirect object', 'pronoun', 'tag question'. - Extra language and communicative ehelp, such as 'greetings', 'introductions', 'punctuation', 'letter writing', e-mails'. Simple and clear explanations, supported by real-life examples, diagrams, and entertaining new illustrations Helpful notes on style, intonation, and British and American usage.

**An A - Z of English Grammar and Usage** Cambridge University Press

This handy guide provides crystal-clear help with writing correctly and appropriately in everyday situations. Arranged alphabetically, the book contains concise entries with guidance on individual words and phrases, and longer entries on broader topics such as overused words, bullet points, and avoiding sexist language.

### THE QUEEN'S ENGLISH

Bloomsbury Publishing

#1 NEW YORK TIMES BESTSELLER •

From the author of Killers of the Flower

Moon comes a masterpiece of narrative nonfiction that unravels the greatest exploration mystery of the twentieth century—the story of the legendary British explorer who ventured into the Amazon jungle in search of a fabled civilization and never returned.

“Suspenseful...rollicking.” —The New York Times In 1925, Percy Fawcett went into the Amazon jungle, in search of a fabled civilization. He never returned. Over the years countless perished trying to find evidence of his party and the place he called “The Lost City of Z.” In this masterpiece, journalist David Grann interweaves the spellbinding stories of Fawcett’s quest for “Z” and his own journey into the deadly jungle. Look for David Grann’s new book, *The Wager*, coming in April 2023!

### STRICTLY ENGLISH

How to Books\*

This guide is based on a study of referees' reports and letters from journal editors on the reasons why papers written by non-native researchers are rejected due to problems with English usage, style and grammar. It draws on English-related errors from around 5000 papers written by non-native authors, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. English for Research: Usage, Style, and Grammar covers those areas of English usage that typically cause researchers difficulty: articles (a/an, the), uncountable nouns, tenses (e.g., simple present, simple past, present perfect), modal verbs, active vs. passive form, relative clauses, infinitive vs. -ing form, the genitive, noun strings, link words (e.g., moreover, in addition), quantifiers (e.g., each vs. every), word order, prepositions, acronyms, abbreviations,

numbers and measurements, punctuation, and spelling. Due to its focus on the specific errors that repeatedly appear in papers written by non-native authors, this manual is an ideal study guide for use in universities and research institutes. The book is cross-referenced with the following titles: • English for Academic Research: Grammar Exercises • English for Academic Research: Vocabulary Exercises • English for Academic Research: Writing Exercises • English for Writing Research Papers Adrian Wallwork is the author of more than 30 English Language Teaching (ELT) and English for Academic Purposes (EAP) textbooks. He has trained several thousand PhD students and researchers from 40 countries to prepare and give presentations. Since 1984 he has been revising research manuscripts through his own proofreading and editing service.

**The Writer's A-Z of Body Language**  
Penguin

Essential English is a personal assistant. It lists in an easy-to-use A-Z format the terminology used in the senior English classroom. It is an invaluable personal resource and a ready reference designed to help your students' memory when texts are being read, analysed, critiqued; when essays and extended answers are being considered, prepared and written. This is not a teaching textbook, but a reference book; use it in the way that suits your classroom best. There are empty spaces for your students to add any notes or additional terms you would like them to have. Use Essential English to make your students' work more precise, detailed and perceptive.

**A Dictionary of Literary Devices**

OXFORD University Press

Updated and revised with more

examples and expanded discussions, this second edition continues the aim of providing teachers with a solid understanding of the use and function of grammatical structures in American English. The book avoids jargon and presents essential grammatical structures clearly and concisely. Dr. DeCapua approaches grammar from a descriptive rather than a prescriptive standpoint, discussing differences between formal and informal language, and spoken and written English. The text draws examples from a wide variety of authentic materials to illustrate grammatical concepts. The many activities throughout the book engage users in exploring the different elements of grammar and in considering how these elements work together to form meaning. Users are encouraged to tap into their own, often subconscious, knowledge of grammar to consciously apply their knowledge to their own varied teaching settings. The text also emphasizes the importance of understanding grammar from the perspective of English language learners, an approach that allows teachers to better appreciate the difficulties these learners face. Specific areas of difficulties for learners of English are highlighted throughout. *English Grammar Today. An A-Z of Spoken and Written Grammar. With Workbook* Oxford University Press, USA From Sanskrit to Scouse, this book provides a single-volume source of information about the English language. The guide is intended both for reference and for browsing. The international perspective takes in language from Cockney to Creole, Aboriginal English to Zummerzset, Estuary English to Caribbean English and a historical range from Beowulf to Ebonics, Chaucer to

Chomsky, Latin to the World Wide Web. There is coverage of a wide range of topics from abbreviation to Zeugma, Shakespeare to split infinitive and substantial entries on key subjects such as African English, etymology, imperialism, pidgin, poetry, psycholinguistics and slang. Box features include pieces on place-names, the evolution of the alphabet, the story of OK, borrowings into English, and the Internet. Invaluable reference for English Language students, and fascinating reading for the general reader with an interest in language.

### **A Course Book in English Grammar**

Springer

"Origins and meanings of over 2,500 names"--Cover.

### **1001 WORDS YOU NEED TO KNOW AND USE**

Cambridge University Press

A major grammar reference book of modern English, specially written for intermediate learners of English.

### **ENGLISH GRAMMAR TODAY**

FeedARead.com

A major grammar reference book of modern English, specially written for intermediate learners of English. This pack includes the English Grammar Today reference book with CD-ROM and an accompanying Workbook. With extensive corpus research at its core, the reference book provides over 500 entries organised into an easy-to-use A-Z structure. The CD-ROM provides the book content and nearly 200 additional entries, plus audio recordings of all the examples and dialogues. The Workbook contains hundreds of varied tasks and exercises, plus full answer key. It targets typical intermediate learner errors and provides extensive practice of formal

and informal usage, making it ideal for anyone preparing for IELTS or Cambridge English exams such as Preliminary and First.

The A to Z of Correct English Vintage English may well be the most spoken language in the world but what exactly do we mean when we talk about 'the English language'? It is an ever-evolving (and frequently unusual) means of communication that can often leave the curious foreign traveller flummoxed. After all, who really is 'er indoors? What is a stiff upper lip? And why are the English always so sorry? If there still is such a thing as 'the Queen's English', then what can it tell us about the people who use it? For every anorak, egghead or toff, *The Queen's English* is the perfect guide to understanding what makes the English tick. From cricket to chips, the jumble sale to the white van man, Moore casts a quizzical eye over English passions and concerns and considers the influence on the language of English writers from Chaucer to Wodehouse. For those keen to uncover the peculiarities of the English lexicon, or those just hoping to fit in, this enlightening A-Z helps to breach the language barrier. *The Queen's English* offers rare insight into the quintessential qualities of the English race. Christopher J. Moore is an Englishman. He is the author of the highly successful *In Other Words*. Christopher has a BA in Modern Languages, an MSc in Linguistics and is an author and editor for both adult and children's books including a collection of Gaelic poetry.

### **Discussions A-Z Advanced** OUP Oxford

A major grammar reference book of modern English, specially written for intermediate learners of English. *English Grammar Today* is an indispensable

reference guide to contemporary English grammar and usage. With extensive corpus research at its core, it provides over 500 entries organised into an easy-to-use A-Z structure. Authentic examples of written and spoken English place the grammar in context and the clear explanations make it ideal for intermediate learners of English at CEF levels B1-B2, including those preparing for IELTS or Cambridge English exams such as Preliminary and First. The book comes with a free CD-ROM that provides the book content and nearly 200 additional entries, plus audio recordings of all the examples and dialogues.

This is a single reference point to look up all manner of spelling, grammar or punctuation queries.

**Quick Solutions to Common Errors in English** Cambridge University Press

The Oxford Dictionary of English Grammar is a straightforward and accessible A-Z guide to the diverse and often complex terminology of English grammar. It contains over 1,600 entries with clear and concise definitions, enhanced by numerous example sentences, as well as relevant quotations from the scholarly literature of the field. This second edition is written and edited by Professor Bas Aarts of University College London, writer of the acclaimed Oxford Modern English Grammar. It has been fully revised and updated, with particular attention paid to refreshing the example sentences included within the text. There are over 150 new entries

that cover current terminology which has arisen since the publication of the first edition, and there are also new entries on the most important English grammars published since the start of the 20th century. Hundreds of new cross-references enhance the user-friendly nature of the text, and the list of works cited has been thoroughly updated to reflect the current state of the field. A short appendix of web links has been added. All in all, this Dictionary is an invaluable guide to English grammar for all students and teachers of the subject, as well as all those with an informed interest in the English language.

*English Grammar Today with CD-ROM*

Oxford University Press

In his best-selling *Strictly English* Simon Heffer explained how to write and speak our language well. In *Simply English* he offers an entertaining and supremely useful A-Z guide to frequent errors, common misunderstandings and stylistic howlers. What is the difference between amend and emend, between imply and infer, and between uninterested and disinterested? When should one put owing to rather than due to? Why should the temptation to write actually, basically or at this moment in time always be strenuously resisted? How does one use an apostrophe correctly, ensure that one understands what alibi really means, and avoid the perils of the double negative? With articles on everything from punctuation to tabloid English to adverbs and adjectives, *Simply English* is the essential companion for anyone who cares about the language and wants to use it correctly.

*An A-Z of Baby Names* Oxford University Press, USA

A intermediate and photocopiable resource book of speaking activities for

advanced level students.

*An A-Z of English for Senior Schools* How to Books

English grammar has changed a great deal since the beginning of the Twentieth Century, and it is a subject that can provide a complex minefield of uncertainties within the language. This accessible and comprehensive dictionary comes to the aid of both the general reader and the student or teacher, offering straightforward and immediate

A-Z access to 1,000 grammatical terms and their meanings. All the currently accepted terms of grammar are included, as well as older, traditional names, controversial new coinages, and items from the study of other languages. Concise definitions of the wider subject of linguistics, including phonetics and transformational grammar, are accompanied by examples of language in use, and frequent quotations from existing works on grammar.
