LLOYD SAWYER

Morphologie Rowman & Littlefield

Contains analyses that are designed to highlight specified subject areas or provide other significant presentations of budget data that place the budget in perspective. This volume includes economic and accounting analyses; information on Federal receipts and collections; analyses of Federal spending; information on Federal borrowing and debt; baseline or current service estimates; and other technical presentations. This volume also contains supplemental material on a CD-ROM in the printed document with several detailed tables, including tables showing the budget by agency and account and by function, subfunction, and program.

Perspectives on Linguistic Pragmatics Springer Science & Business Media

Explains how to customize the Java integrated development environment, covering navigation, terminology, extension, the plug-in architecture, and frameworks.

Child Development in a Life-Span Perspective Boydell & Brewer

This book confronts the issue of how young people can find a way into the world of algebra. It represents multiple perspectives which include an analysis of situations in which algebra is an efficient problem-solving tool, the use of computer-based technologies, and a consideration of the historical evolution of

algebra. The book emphasizes the situated nature of algebraic activity as opposed to being concerned with identifying students' conceptions in isolation from problem-solving activity.

Extension Review Springer Science & Business Media

First Published in 1981. In *Perspectives on the American South* we hope to gather, yearly, essays that deal with the society, politics, and culture of the region. This first book in the series contains 27 articles, representing the work of some 30 scholars, and including the disciplines of history, sociology, anthropology, political science, and geography. The papers have been organized around four broad topics: violence in the region, southern politics, comparative studies of the region, and the South's ethnic and cultural groups.

15th International Conference, BIR 2016, Prague, Czech Republic, September 15-16, 2016, Proceedings Emerald Group Publishing

This volume provides insight into linguistic pragmatics from the perspective of linguists who have been influenced by philosophy. Theory of Mind and perspectives on point of view are presented along with other topics including: semantics vs. semiotics, clinical pragmatics, explicatures, cancellability of explicatures, interactive language use, reference, common ground, presupposition, definiteness, logophoricity and point of view in connection with pragmatic inference, pragmemes and language games, pragmatics and artificial languages, the mechanism of the form/content correlation from a pragmatic point of view, amongst other issues relating to language use. Relevance Theory is introduced as an important framework, allowing readers to

familiarize themselves with technical details and linguistic terminology. This book follows on from the first volume: both contain the work of world renowned experts who discuss theories relevant to pragmatics. Here, the relationship between semantics and pragmatics is explored: conversational explicatures are a way to bridge the gap in semantics between underdetermined logical forms and full propositional content. These volumes are written in an accessible way and work well both as a stimulus to further research and as a guide to less experienced researchers and students who would like to know more about this vast, complex, and difficult field of inquiry.

Perspectives in Business Informatics Research Springer

Not all labour law and industrial relations scholars agree on the efficacy of the comparative approach - that the analysis of measures adopted in other countries can play a constructive role in national and local policy-making. However, the case deserves to be heard, and no better such presentation has appeared than this remarkable book, the carefully considered work of over 40 well-known authorities in the field from a wide variety of countries including Australia, France, India, Israel, Peru, Poland, and South Africa. The volume contains papers delivered at a conference sponsored by the Marco Biagi Foundation at the University of Modena and Reggio Emilia in March 2008.

A Mediterranean and Adriatic Perspective Business Process Management WorkshopsBPM 2008 International Workshops, Milano, Italy, September 1-4, 2008, Revised Papers

Comprised of papers written by members of the Social Science Research Council Subcommittee on Child Development in Life-Span Perspective, this book provides a representation of the current status of the relation between child development and the life-span. It suggests the possible synthesis of these two fields from both conceptual and empirical evidence. Theories and methods concerning the social, psychological, and anatomical influences on children's cognitive development through adolescence are highlighted.

AN INTERNATIONAL PERSPECTIVE ON WETLAND REHABILITATION

Psychology Press

Bill Streever, author of *Bringing Back the Wetlands* and numerous technical articles about wetland restoration and creation, worked for two years to bring together this collection of papers. Authors ranging from private landowners to government managers to scientists present regional overviews, case studies, and discussions of various issues. Regional overviews cover areas as small as the Commonwealth of the Northern Mariana Islands to areas as large as Australia and Africa. Case studies range from relatively small projects, such as rehabilitation of damage caused by wheel ruts in the high arctic, to much larger projects, such as attempts to rehabilitate thousands of hectares of Northern Territory wetlands in Australia. Seedbank ecology, economics, remote sensing, community involvement, the role of the wetland consulting industry, and other issues are discussed. In an effort to synthesize information from around the world, Joy Zedler presents a model that allows comparison of projects and may lead to better predictability of project outcomes. In *An International Perspective on Wetland Rehabilitation*, authors describe planting, engineered structures, prescribed flooding, excavation, and other rehabilitation methods, from Israel to New Zealand to the Netherlands and elsewhere. For the first time, one volume offers an impression of the magnitude and diversity of the field of wetland rehabilitation around the globe.

Architectural Sketching and Drawing in Perspective

AuthorHouse

First published in 1985. Routledge is an imprint of Taylor &

Francis, an informa company.

Focus Nova Publishers

This book develops new techniques in formal epistemology and applies them to the challenge of Cartesian skepticism. It introduces two formats of epistemic evaluation that should be of interest to epistemologists and philosophers of science: the dual-component format, which evaluates a statement on the basis of its safety and informativeness, and the relative-divergence format, which evaluates a probabilistic model on the basis of its complexity and goodness of fit with data. Tomoji Shogenji shows that the former lends support to Cartesian skepticism, but the latter allows us to defeat Cartesian skepticism. Along the way, Shogenji addresses a number of related issues in epistemology and philosophy of science, including epistemic circularity, epistemic closure, and inductive skepticism.

Model Rules of Professional Conduct Addison-Wesley Professional Morphologie ist die Lehre von den sprachlichen Formen, genauer: von den Flexionsformen und Stämmen von Wörtern. Somit ist sie der Teil der Grammatik, dessen Regeln auf Einheiten von höchstens Wortumfang Bezug nehmen, sowie gleichzeitig auch ein Teil des Lexikons, nämlich insoweit komplexe Stämme nicht regelhaft gebildet sind. Das Handbuch informiert sowohl über Grundbegriffe und theoretische Ansätze der Disziplin als auch über morphologische Strukturen verschiedener Sprachen. Es hat zum Ziel, den heutigen Wissensstand der Morphologie auf allgemeinem Niveau umfassend darzustellen und an hinreichend vielen Beispielen zu illustrieren. Die gründliche Erläuterung etablierter Begriffe und gesicherter Erkenntnisse, gegebenenfalls ergänzt um die unvoreingenommene Darstellung alternativer Problemlösungen, hat dabei Vorrang vor der Vorführung zeitgenössischer Strömungen und neuartiger Ansätze.

Advances in Concurrent Engineering Routledge

This three volume work presents the Office of Technology's assessment of the physical, emotional, and behavioral health status of contemporary American adolescents, including those living in poverty, racial and ethnic minority groups, Native Americans, and rural adolescents. Specific topics covered are identifying risk and protective factors for adolescent health problems, evaluating options in the organization of health services and technologies available to adolescents, assessing options in the conduct of national health surveys to improve collection of adolescent health statistics, and identifying gaps in research on the health and behavior of adolescents.

PERSPECTIVES ON SCHOOL ALGEBRA

Psychology Press

This book constitutes the proceedings of the 15th International Conference on Perspectives in Business Informatics Research, BIR 2016, held in Prague, Czech Republic, in September 2016. Overall, 61 submissions from 16 countries were rigorously reviewed by 42 members of the program committee representing 21 countries. The selected 21 full papers and 3 short papers are included in this volume together with 2 abstracts of invited talks. This year again, the papers presented at the conference cover many important aspects of the development, use, and application of management information systems. The papers have been organized in topical sections on Business Processes and Enterprise Modeling; Information Systems Development; Information Systems Management; Learning and Capability; and Data Analysis.

IN DEFENSE OF BELIEF IN THE NATURAL WORLD

SUNY Press

The current jurisdictional status of the Mediterranean Sea is remarkable. Nearly 50 per cent of the Mediterranean waters are

high seas and therefore beyond the jurisdiction of coastal States. This situation means that there are no points in the Mediterranean Sea where the coasts of two States would be more than 400 nautical miles apart. Such a legal situation generally prevents coastal States from adopting and enforcing their laws on the Mediterranean high seas, in respect of many important fields such as the protection and preservation of the marine environment, as well as the conservation of marine living resources. The jurisdictional landscape of the Adriatic Sea as a sub-sea and sub-region of the Mediterranean, is even more interesting. Croatia has proclaimed an Ecological and Fisheries Protection Zone, Slovenia has proclaimed a Zone of Ecological Protection, while Italy has adopted a framework law for the proclamation of its Zone of Ecological Protection without proclaiming its regime in the Adriatic. It is noteworthy that if all Mediterranean and Adriatic States would proclaim an Exclusive Economic Zone (EEZ), there would not be a single stretch of high seas left in the entire Mediterranean Sea. Both the Adriatic and Mediterranean fall in the category of enclosed or semi-enclosed seas regulated by Part IX of the United Nations Convention on the Law of the Sea (UNCLOS). This book assesses the legal nature of Part IX of UNCLOS and discusses potential benefits of the extension of coastal State jurisdiction (proclamation of EEZs and/or similar sui generis zones), particularly in light of the recent calls towards an integrated and holistic approach to the management of different activities in the Mediterranean Sea. It examines the actual or potential extension of coastal State jurisdiction in the Adriatic Sea, against the background of similar extensions elsewhere in the Mediterranean and against the background of relevant EU policies. It additionally explores whether Part IX of UNCLOS imposes any duties of cooperation in relation to the extension of coastal State jurisdiction in enclosed or semi-enclosed seas, and puts forward practical suggestions as to how the issue of extension of coastal State jurisdiction could be approached in a way which would enhance States existing cooperation and improve the overall governance in the Mediterranean and Adriatic seas. This book will be of interest to policymakers and academics and students of international law, and the law of the sea.

Events - Future, Trends, Perspectives Matti Tedre

Digital communication has altered the flow of global information, evolved consumer values and changed consumption practices worldwide. *New Perspectives on Critical Marketing and Consumer Society* provides an illuminating, challenging and thought-provoking guide for all upper-level students of marketing, branding and consumer behaviour.

An Annual Review of Society, Politics, and Culture Springer Science & Business Media

The inception of this volume can be traced to a series of Environmental Psychology Colloquia presented at the University of California, Irvine, during the spring of 1974. These colloquia were held in conjunction with Social Ecology 252, a graduate seminar on Man and the Environment. Although the eight colloquia covered a wide range of topics and exemplified a diversity of research techniques, they seemed to converge on

some common theoretical and methodological assumptions about the nature of environment-behavioral research. The apparent continuities among these colloquia suggested the utility of developing a manuscript that would provide a historical overview of research on environment and behavior, a representation of its major concerns, and an analysis of its conceptual and empirical trends. Thus, expanded versions of the initial presentations were integrated with a supplemental set of invited manuscripts to yield the present volume of original contributions by leading researchers in the areas of ecological and environmental psychology.

PERSPECTIVES ON THE AMERICAN SOUTH

Routledge

No systematic analysis of optometric clinical data can be undertaken unless the findings are referred to a logical model that allows comparisons to be made of interaction characteristics that exist between the accommodative and convergence mechanisms inherent to the human vision system.

Concomitantly, many of the concepts applied during any such analytical process are based on hypothetical constructs. This text re-examines the elements originally proposed by Dr. A.M. Skeffington, and offers a revised insight into how performance changes may occur as individual visual behavior adapts to the impact of environmental demands. In-depth research and extensive references attempt to substantiate the Skeffington paradigm of professional vision analysis. Long-standing challenges to the optometric profession are identified. As presented, the contents are appropriate for use as a classroom text, for reference, and for identifying areas for clinical research.

The Extension of Coastal State Jurisdiction in Enclosed or Semi-Enclosed Seas CRC Press

Tumour markers are molecules occurring in blood or tissue that are associated with cancer, and whose measurement or identification is useful in patient diagnosis or clinical management. This book analyses potential signals of cancerous tumours, otherwise known as markers or indicators. This includes, direct and rapid determination of cancer antigen, potential tumour markers for cholangiocarcinoma, melanoma inhibitory activity, metastatic uveal melanoma, measurement of tumour oxygenation, bladder cancer markers, epithelial cell adhesion and progression markers in prostate tumours.

Critical Theory and Other Critical Perspectives Government Printing Office

Using a unique "old-new" treatment, this book presents new perspectives on several important topics in Southeast Asian history and historiography. Based on original, primary research, it reinterprets and revises several long-held conventional views in the field, covering the period from the "classical" age to the twentieth century. Chapters share the approach to Southeast Asian history and historiography: namely, giving "agency" to Southeast Asia in all research, analysis, writing, and interpretation.

Formal Functions in Perspective Springer

Presents thirteen studies that engage with the notion of formal function in a variety of ways
