EARLY SESSIONS

Amber-Allen Publishing

In 1963, Jane Roberts met a spiritual entity named Seth. He spoke through her and the lessons he taught proved timeless and crucial. From 1968 to 1975, Roberts held an ESP class, during which she channeled Seth. Susan Watkins was a member of that class. The knowledge gained from Seth helped Watkins and her classmates face serious illness, painful relationships, financial hardship, and natural catastrophe. It also changed their lives. In addition to being a well-written, highly entertaining historical account of the late Jane Roberts and her class, Conversations with Seth reveals the profound insights discovered by class members--insights into the origin of both the troubling and triumphant events in our lives and into the vast nature of human consciousness. Roberts' Seth material is consistently one of the top two most visited collections at the Yale University Archives. The story that launched the New Age movement.

AN INTRODUCTION TO ASPECT PSYCHOLOGY

Stillpoint Pub

From the Bestselling Author of *Seth Speaks* In this mind-stretching journey into the very frontiers of consciousness, Seth reveals the multidimensional nature of the human soul. In *Seth Speaks*, Seth introduced the concept of "probable realities," in which our idle daydreams and unfulfilled impulses do take place, in which all possible choices are fully experienced by other portions of the self. Now in this first volume of *The "Unknown" Reality*, Seth explains the dazzling labyrinths of unseen probabilities involved in any decision, and how our awareness of these can enrich the waking life we know. In a fascinating exploration of the cosmic web of our existence, Seth reveals:

- The purpose of dreams, and how they are often fulfilled unconsciously
- Misconceptions about death and the afterlife
- How different probable realities intersect and influence one another
- The relationship between physical health and inner reality
- A series of exercises to help you discover the unknown portions of your greater identity

"The self is multidimensional when it is physically alive. It is a triumph of spiritual and psychological identity, ever choosing from a myriad of probable realities its own clear unassailable focus. When you don't realize this, then you project upon life after death all of the old misconceptions. . . . The fact is that in life you poise delicately and yet perfectly between realities, and after death you do the same." — Jane Roberts, Speaking for Seth

The God of Jane Amber-Allen Publishing

Seth, speaking through Jane Roberts, reveals a startling new concept of self, answering questions about the secret language of love, human sexuality, the real origins and incredible powers of dreams, and how we choose our physical death — sometimes years in advance. He also covers human sexuality as it relates to the private and mass psyche, and explains how distorted beliefs about sexuality can hold back spiritual progress. "The psyche is a

gestalt of aware energy in which your own identity resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche's living expression, its human manifestation. Yet you allow yourselves often to become blind to brilliant aspects of your own existence." — Jane Roberts, Speaking for Seth "The Seth books were of great benefit to me on my spiritual journey and helped me to see another way of looking at the world." — Gerald G. Jampolsky, author of *Love is Letting Go of Fear*

THE FIRST PUBLISHED ENCOUNTER WITH SETH

Amber-Allen Publishing

Extending the idea that we create our own reality, Seth explores the connection between personal beliefs & world events. [A Practical Guide to Academic Essay Writing](#) Buccaneer Books

Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs. But how do our realities merge and combine to form mass reactions such as the overthrow of governments, the birth of a new religion, wars, epidemics, earthquakes, and new periods of art, architecture, and technology? In this pioneering work, Seth explores the connection between personal beliefs and world events. He pinpoints the unconscious, and often negative, beliefs pervading science and religion, medicine and mythology, and offers thought-provoking reflections on Darwinism, Freudianism, religions, cults, and medical beliefs. With fascinating implications, Seth asserts that the personal impulses we are often taught to see as dangerous, chaotic, or contradictory, are instead crucial to the best interests of the species and the natural world, for they lead us to live "not only as loving caretakers, but as partners with other species." "Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probably futures the most promising events...." — Jane Roberts, Speaking for Seth

Seth Speaks About the Art of Creative Living Princeton University Press

In *Potential Images* Dario Gamboni explores ambiguity in modern

art, considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect. Ambiguity became increasingly important in late 19th- and early 20th-century aesthetics, as is evidenced in works by such artists as Redon, Cezanne, Gauguin, Ensor and the Nabis. Similarly, the Cubists subverted traditional representational conventions, requiring their viewers to decipher images to extract their full meanings. The same device was taken up in the various experiments leading to abstraction. For example, it was Kandinsky's intention that his work could be interpreted in both figurative and non-figurative ways, and Duchamp's Readymades suggested the radical conclusion that 'it is the beholder who makes the picture'. These invitations to viewers to participate in the process of artistic communication had social and political implications, as they accorded artist and beholder symmetrical, almost interchangeable, roles.

A Psychic Manifesto New Awareness Network

Seth, speaking exclusively through Jane Roberts, reveals a startling new concept of self, answering questions about the secret language of love, human sexuality, the real origins and incredible powers of dreams, and how we choose our physical death — sometimes years in advance. For the first time, Seth explains:

- Why love is the basic language from which all others spring
- The bisexual nature of humanity and its biological and spiritual importance
- The true basis of homosexuality and lesbianism — along with their private and social effects
- The benefits of recalling our dreams and consciously participating in them
- How dreams can prevent chronic illnesses by providing important therapeutic information
- Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential.

"The psyche is a gestalt of aware energy in which your own identity resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche's living expression, its human manifestation. Yet you allow yourselves often to become blind to brilliant aspects of your own existence." — Jane Roberts, Speaking for Seth

[How to Develop Your ESP Power](#) Moment Point PressInc

From the Bestselling Author of *Seth Speaks* In this second volume of *The "Unknown" Reality*, Seth radically expands our conceptions of "self," by showing us that the human personality is literally infinite in its scope and potential. He discloses precisely how probable realities combine to create our waking lives, and how our "higher selves" make decisions regarding our everyday existence. In a far-reaching exploration of the dynamics of desire and free will, he asserts that each atom, molecule, and cell has its own consciousness and powers of choice. With humor and simple analogies, Seth leads us beyond our ordinary level of awareness into a spectacular discovery of the multidimensional nature of the self, including:

- "Consciousness units" as the basis of our universe
- The relevance of extrasensory perception in understanding our world
- The worlds we visit in dreams and out-of-body states
- Dreaming as a science to create present and future realities
- "Families of consciousness" we choose to belong to
- Practical methods for exploring your own "unknown" reality

"There is an "unknown" reality. I am part of it, and so are you . . . Each individual is a part of the unknown reality . . . To explore the unknown reality you must venture within your own psyche, travel inward through invisible roads as you journey outward on physical ones . . . I hope that [in this book] the reader can see the greater

dimensions that touch ordinary living, and sense the psyche's greater magic." — Jane Roberts, *Speaking for Seth*

¿ The role dreams play in creation of language and technology¿
How creativity provides a link with the source of all existence¿
The relationship between genetic heritage and reincarnation
Volume One, Seth describes a conscious, self-aware universe where possibilities and potentials generate life forms. This book answers crucial questions about the significance of Seth's thought system, while chronicling the worsening health problems that led to the death of Jane Roberts. In Volume Two, Seth continues his explanation of how the physical world is an ongoing self-creation. He explains how the human species keeps within its genetic bank millions of characteristics that might be needed in various contingencies, and how the soul employs both physical handicaps and advantages as springboards for further achievement. He also expands upon his vision of a thoroughly animate universe where virtually every possibility is not only implicit, but constantly encouraged to achieve its highest potential.

How to Engage Your Audience, Court Your Crowd, and Speak Successfully in Public Amber-Allen Publishing

In *The God of Jane*, the most personal of her books, Jane Roberts addresses many of the same questions and doubts that readers have had in trying to incorporate Seth's theories into their own lives. This book is the story of my efforts to put Seth's material to work in daily life, Roberts writes, to free myself from many hampering cultural beliefs; and most of all, to encounter and understand the nature of impulses . . . What Roberts discovers in the process of this personal journey is her individual connection to the larger consciousness-God. The God of Jane, the God of Joe, the God of Lester, the God of Sarah . . . she writes, An appeal to that God would be an appeal to the portion of the universal creativity from which we personally emerge . . . It would stand for the otherwise inconceivable intersection between Being and our being . . . A new introduction by Susan M. Watkins, author of *Conversations with Seth* and *Speaking of Jane Roberts*, provides important biographical and historical information about Roberts and about the time period in which she was producing the Seth material. Jane Roberts (1929-1984) is considered one of the most important psychics of the twentieth century. From 1963 through 1984, Roberts channeled Seth, who described himself as an

energy personality essence no longer focused in physical matter, while her husband, Robert Butts, took dictation. In addition to thirteen published books of her own, Roberts channeled nine books by Seth and a wealth of additional unpublished material all of which is housed at the Yale University Archives. Roberts's work has inspired many of the most important figures in the New Age movement and her work has been studied by scientists from all over the world.

The "Unknown" Reality: Volume One Bantam Books

In *The Magical Approach*, Seth invites us to look at the world through another lens — a magical one. Seth reveals the true, magical nature of our deepest levels of being, and explains how we have allowed ourselves to become inhibited by our own beliefs and conventional thinking. *The Magical Approach* teaches us how to live our lives spontaneously, creatively, and according to our own natural rhythms. It helps us to discover and tune into our natural, instinctive behavior. By applying the principles in this book, readers will learn to trust their impulses and discover the highest expression of their creativity. "We are speaking about an approach to life, a magical or natural approach to life that is man's version of the animal's natural instinctive behavior in the universe." — Jane Roberts, *Speaking for Seth*
