The constitutionality of
this document is set forth
to be an irrevocable
statutory element of
proven Christian laws for
this perpetually
established church until
such changes be deemed
necessary at the time of
the reign of Jesus Christ of
Nazareth. Because of the
satanic pollution of so
many things being made
for bodily pleasures to
cause Elohim to be
grieved and not honored,
we therefore will make
these defined statutory
laws and bylaws for the
souls of men, women, and
children to be
implemented into
Christian law to coincide
fully with the will of
Elohim.

This second volume of
inspirational speeches
given by W. Cleon
Skousen contains some of
the fascinating gospel
"diamonds" that he has
discovered and shared
with audiences during a
lifetime of speaking,
writing, and research.
Footnotes and references
have been added to help
the reader further pursue
these interesting subjects.
Speeches included in this
volume are his well-known
"The Book of Mormon and
the Constitution," "Why
Must We Die?," "This
Business of Building Men"
and "Know the Truth to
Stay Free." There are
twenty-two other
fascinating speeches that
teach important doctrines
about the gospel of Jesus
Christ, the Church, the
youth of the Church, the
power and majesty of
God, and world studies.
Also included is a synopsis
of a tour to the Holy Land,

something Dr. Skousen led over 20 times. In these speeches, Brother Skousen covers a subject in a few brush strokes that would normally fill many volumes, making it possible to quickly grasp a larger picture of God's plan of happiness for the human race. W. Cleon Skousen has a special gift to make complex subjects easily understandable, which he teaches in an entertaining and enlightening manner. Each of the talks in this book are the result of many years of research. Readers of this book will truly discover a treasure trove of what he called "gospel diamond dust."

Theorizing Religions

Past Zondervan
Of Nathaniel Hawthorne's insight into the Puritan's simultaneous need for fulfillment and self-destruction, D. H. Lawrence wrote, "Nathaniel knew disagreeable things in his inner soul. He was careful to send them out in disguise." By means of artfully crafted and compelling tales, Hawthorne explored the destinies and concerns of early American settlers and citizens. In several of the stories in this collection, characters who hold themselves apart

from their fellow man fall prey to the corroding desires of lust for perfection. Then they unwittingly commit evils—against themselves and others—in the name of pride. Edgar Allan Poe noted of Hawthorne's writing: "Every word tells, and there is not a word which does not tell."

The Politics of Cultural Identity in a West African Prophetic-charismatic Movement

As the twenty-first century begins, tens of millions of people participate in devotions to the spirits called Ọ̀rìsà. This book explores the emergence of Ọ̀rìsà devotion as a world religion, one of the most remarkable and compelling developments in the history of the human religious quest. Originating among the Yorùbá people of West Africa, the varied traditions that comprise Ọ̀rìsà devotion are today found in Africa, the Americas, Asia, Europe, and Australia. The African spirit proved remarkably resilient in the face of the transatlantic slave trade,

inspiring the perseverance of African religion wherever its adherents settled in the New World. Among the most significant manifestations of this spirit, Yorùbá religious culture persisted, adapted, and even flourished in the Americas, especially in Brazil and Cuba, where it thrives as Candomblé and Lukumi/Santería, respectively. After the end of slavery in the Americas, the free migrations of Latin American and African practitioners has further spread the religion to places like New York City and Miami. Thousands of African Americans have turned to the religion of their ancestors, as have many other spiritual seekers who are not themselves of African descent. Ifá divination in Nigeria, Candomblé funerary chants in Brazil, the role of music in Yorùbá revivalism in the United States, gender and representational authority in Yorùbá religious culture--these are among the many subjects discussed here by experts from around the world. Approaching Òrìsà devotion from diverse vantage points, their collective effort makes

this one of the most authoritative texts on Yorùbá religion and a groundbreaking book that heralds this rich, complex, and variegated tradition as one of the world's great religions. Organized According to Law on the 6th of April, 1830 A&C Black It may be that the world which our authors here describe in symbolic language as the "eighth climate" will be seen by Western people as the "lost continent". Should some of them be searching for it, the Spiritual Masters whom the present book seeks to interpret will perhaps serve as their guides. are not figments of peoples' imaginations but malevolent spirits fighting the Lord God Almighty, born-again Christians and the entire human race (Ephesians 6: 12). The Kingdom of Satan Exposed! is about their modus operandi and artifices in the world. The book exposed the organogram of the satanic world and the spread of false religions to lure the unwary and the ignorant into hell.

THE GLOBALIZATION OF YORÙBÁ RELIGIOUS CULTURE

Nordic Africa Institute
The globalization of Christianity, its spread and appeal to peoples of non- European origin, is by now a well-known phenomenon. Scholars increasingly realize the importance of natives rather than foreign missionaries in the process of evangelization. This volume contributes to the understanding of this process through case studies of encounters with Christianity from the perspectives of the indigenous peoples who converted. More importantly, by exploring overarching, general terms such as conversion and syncretism and by

showing the variety of strategies and processes that actually take place, these studies lead to a more nuanced understanding of cross-cultural religious interactions in general—from acceptance to resistance—thus enriching the vocabulary of religious interaction. The contributors tackle these issues from a variety of disciplinary perspectives—history, anthropology, religious studies—and present a broad geographical spread of cases from China, Vietnam, Australia, India, South and West Africa, North and Central America, and the Caribbean.

PHILIP'S DAUGHTERS

Wipf and Stock Publishers
Although popularized in Africa by Western missionaries, the Christian faith as practiced by Africans has acquired unique traits over time. Some of the most radical reinterpretations of Christianity are offered by those churches known as "AICs" (variously, African Initiated, African Instituted, or African Independent Churches)—new

denominations founded by Africans skeptical of dogma offered by mainstream churches with roots in European empires. As these churches spread throughout the African diaspora, they have brought with them distinct practices relating to gender. Such practices range from the expectation that women avoid holy objects and sites during menstruation to the maintenance of church structures in which both men and women may be ordained and assigned the same duties and responsibilities. How does having a female body affect one's experience of indigenized Christianity in Africa? Spirit, Structure, and Flesh addresses this question by exploring the ways ritual, symbol, and dogma circumscribe, constrain, and liberate women in AICs. Through detailed description of worship and doctrine, as well as careful analyses of church history and organizational processes, Deidre Helen Crumbley explores gendered experiences of faith and power in three Nigerian indigenous AICs, demonstrating the roles of women in the day-to-day life of these churches.

NIGERIA DIOCESE : CONSTITUTION

This volume brings together twelve scholars from a variety of scholarly fields including biblical studies, history, theology, sociology, anthropology, and missiology in a multi-disciplinary exploration of themes related to women's leadership within the three branches of the renewal movement: Holiness, Pentecostal and Charismatic traditions. These scholars - women and men - from both within and outside the traditions, draw on various methodologies including hermeneutics, ethnography, critical theory, and historical analysis to explore the experiences and contributions of women from the movement's inception to the present. They keep before us the challenges that still impact women's full participation as equal partners in ministry and leadership on both the American and global scene. The volume looks at the multiple roots of women's marginalization within the renewal movement while suggesting progressive solutions that take seriously the social

locations of Pentecostal and Charismatic congregations and the theological foundations on which the movement has been built. At the same time, it locates these discussions within the broader postmodern realities facing the church as it attempts to faithfully live out its witness to the biblical truth that both male and female are created in the God's image and endowed with the capacity to work creatively toward the unfolding of the Kingdom. The book contains 17 chapters with material from 13 African countries, from Egypt to Swaziland and from Senegal to Kenya. Most of the authors are young African academics. The focus of the volume is the multitude of voluntary associations that has emerged in African cities in recent years. In many cases, they are a response to mounting poverty, failing infrastructure and services, and more generally, weak or abdicating urban governments. Some associations are new, in other cases, existing

organizations are taking on new tasks.

Associations may be neighbourhood-based, others may be city-wide and based on professional groupings or a shared ideology or religion. Still others have an ethnic base. Some of these organizations are engaged in both day-to-day matters of urban management and more long-term urban development. Urban associations challenge the monopoly of local and central government institutions.

Prohibition in New York City Edwin Mellen Press

In 1919, the United States made its boldest attempt at social reform: Prohibition. This "noble experiment" was aggressively promoted, and spectacularly unsuccessful, in New York City. In the first major work on Prohibition in a

quarter century, and the only full history of Prohibition in the era's

most vibrant city, Lerner describes a battle between competing visions of the United

States that encompassed much more than the freedom to drink.
