A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required

reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers. In *Braiding Sweetgrass*, Kimmerer brings these two lenses of knowledge together to take us on “a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise” (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to

hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

From travel writer Jedidiah Jenkins comes a long-awaited memoir of adventure, struggle, and lessons learned while bicycling the 14,000 miles from Oregon to Patagonia. On the eve of turning thirty, terrified of being funneled into a life he didn't choose, Jedidiah Jenkins quit his dream job and spent the next sixteen months cycling from Oregon to Patagonia. He chronicled the trip on Instagram, where his photos and profound reflections on life soon attracted hundreds of thousands of followers and got him featured by National Geographic and The Paris

Review. In this unflinchingly honest memoir, Jed narrates the adventure that started it all: the people and places he encountered on his way to the bottom of the world, and the internal journey that prompted it. As he traverses cities, mountains, and inner boundaries, Jenkins grapples with the questions of what it means to be an adult, his struggle to reconcile his sexual identity with his conservative Christian upbringing, and his belief in travel as a way to "wake us up" to life back home. A soul-stirring read for the wanderer in each of us, *To Shake the Sleeping Self* is an unforgettable reflection on adventure, identity, and a life lived without regret.

“The Hard Crowd is wild, wide-ranging, and unsparingly intelligent throughout.”  
—Taylor Antrim, Vogue From a writer celebrated for her “chops, ambition, and killer instinct” (John Powers, *Fresh Air*), a career-spanning collection of spectacular essays about politics and culture. Rachel Kushner has established herself as “the most vital and interesting American novelist working today” (*The Millions*) and as a master of the essay form. In *The Hard Crowd*, she gathers a selection of her writing from over the course of the last twenty years that addresses the most pressing political, artistic, and cultural issues of our times—and illuminates the themes and real-life

experiences that inform her fiction. In nineteen razor-sharp essays, *The Hard Crowd* spans literary journalism, memoir, cultural criticism, and writing about art and literature, including pieces on Jeff Koons, Denis Johnson, and Marguerite Duras. Kushner takes us on a journey through a Palestinian refugee camp, an illegal motorcycle race down the Baja Peninsula, 1970s wildcat strikes in Fiat factories, her love of classic cars, and her young life in the music scene of her hometown, San Francisco. The closing, eponymous essay is her manifesto on nostalgia, doom, and writing. These pieces, new and old, are electric, vivid, and wry, and they provide an opportunity to witness the evolution and range of one of our most dazzling and fearless writers. “Kushner writes with

startling detail, imagination, and gallows humor,” said Leah Greenblatt in Entertainment Weekly, and, from Paula McLain in the Wall Street Journal: “The authority and precision of Kushner’s writing is impressive, but it’s the gorgeous ferocity that will stick with me.”

Are you a good listener? How well do you really know the people around you? A capacity for empathic understanding is hard-wired in our brains, but its full expression involves particular listening skills that are seldom learned through ordinary experience. Through clear explanation, specific examples, and practical exercises, Dr. Miller offers a step-by-step process for developing your skillfulness in empathic listening. With a solid basis in sixty years of scientific research, these communication skills are not limited to professionals, and can be learned and applied in your everyday life. Instead of assuming that you know the meaning of what you think you heard, empathic listening lets you develop a more accurate understanding

and prevent miscommunication. Empathic understanding can help to deepen personal relationships, alleviate conflict, communicate across differences, and promote positive change. The author also discusses skills for expressing yourself clearly, and for strengthening close relationships and friendships. Through empathic understanding you have access to life experience far beyond your own, and over time, listening well and deeply becomes a way of being, fostering a compassionate and patient acceptance of human frailties--those of others as well as your own.

"This book is a message from autistic

people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist

covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for

them, which has been the standard for far too long.

From the Preface: This manual, *Child Protective Services: A Guide for Caseworkers*, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout.

The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in *A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice*. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based-including definitions of child maltreatment, risk

factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases. Cert -- Basic Training Participant Manual Princeton University Press
