 Chezare A. Warren chronicles the transition of a cohort of young Black males from Urban Prep Charter Academy for Young Men to their early experiences in higher education. A rich and closely observed account of a mission-driven school and its students, Urban Preparation makes a significant contribution to our understanding of how young males of color can best be served in schools throughout the United States today. A founding teacher at Urban Prep, Warren offers a detailed exploration of what this single-sex public high school on the South Side of Chicago has managed to accomplish amid profoundly challenging circumstances. He provides a comprehensive portrait of the school—its leaders, teachers, and professional staff; its students; and the community that the school aims to serve—and highlights how preparation for higher education is central to its mission. Warren focuses on three main goals: to describe Urban Prep's plans and efforts to prepare young Black males for college; to understand how race, community, poverty, and the school contributed, in complex and interrelated ways, to the academic goals of these students; and to offer a wide-ranging set of conclusions about the school environments and conditions that might help young Black males throughout the country succeed in high school and college.

*** 2018 Reader's Favorite Finalist *** Enter the world of Pure Ones, a race of immortal, supernaturally powerful beings who protect humankind, where sexual intercourse with anyone other than one's Eternal Mate leads to a slow, painful death within thirty days. The Healer of the race, Rain, is the only exception to this rule. To harness and accumulate enough energy to heal severe wounds, especially as the war between her people and the vampire hordes accelerates, she must take a Consort once every ten years and draw strength from his blood and body. But as the war wears on, few Pure-males who are strong enough to serve as her Consort remain. Valerius,

Protector of the race, is the strongest candidate. Despite their instant attraction ten years ago when they first met, Valerius has staunchly avoided applying to be the Healer's Consort. The brutality and violence he suffered as a Roman sex slave in his human life ate away at his soul, leaving a dark abyss of torment and self-doubt. Now, as Rain's strength drains with every healing act, Valerius cannot escape the fact that he may be the only one who can save her, and in so doing, afford his people greater hope for the future as battles intensify. Will Rain and Valerius find their way to each other as the struggles between good and evil evolve? *** Trigger Warning * Sexual Abuse. ***

Parliamentary Debates Universitat de València

Children have posed a longstanding dilemma for liberalism. The authority of adults over children has always been difficult to square with liberalism's foundationally anti-authoritarian premises. But since liberal regimes rely heavily on education, finding a way to square adult authority with children's natural liberty is essential. The logic behind anti-authority childrearing and educational advice is that of congruence; to form good citizens of a liberal democracy, families and schools should resemble miniature, protected democracies so that children can practice liberty and equality in a low-risk environment. This kind of congruence between family and state has very old philosophical roots, surfacing first in ancient Greek and Christian thought and re-emerging in its modern form in the seventeenth century. In *Liberal States, Authoritarian Families*, Rita Koganzon rejects this impulse, demonstrating that it rests on misunderstanding and neglect of the arguments of early liberals--specifically John Locke and Jean-Jacques Rousseau--about what kind of upbringing and education liberal regimes require. Koganzon shows that not only did early liberals emphatically deny the possibility of congruence between pedagogical and political authority, but they counterintuitively demanded that parents and teachers exercise extensive personal authority over children, while denying the legitimacy of such authority over adults in politics. While contemporary theorists argue that the family should be democratized to reflect the egalitarian ideals of the liberal state, this book argues that the desire for "congruence" between familial and state authority was originally illiberal in origin, advanced by theorists of absolute sovereignty like Bodin and Hobbes. Early liberals opposed modelling the family on the state, even on a democratic, egalitarian state, because they viewed the "authoritarian" family as a necessary educational buttress for children against the new fashionable forms of social tyranny that liberal, commercial states would develop. Unlike the old authorities, these forces might leave our bodies and properties alone, but

they would subtly and forcefully shape our understandings, subjecting us to a new tyranny of public opinion. Koganzon finds that the educational writings of early liberals reveal an important corrective insight for modern liberalism: authority is not the enemy of liberty, but a necessary prerequisite for it.

An early feminist Utopian work. Last night I had a dream, which may have a meaning.ExcerptLast night I had a dream, which may have a meaning.I stood on a high hill that overlooked a large city. The proud spires of many churches rose high, here and there; and round about the city were beautiful, sloping hills, stretching away, away into the distance; while a broad river wound here and there, extending a kindly arm toward the city.As I stood there, wondering what manner of city it was, its name, and the character of its inhabitants, all at once I found myself in its very midst. From house to house I flitted; from kitchen to kitchen; and lo! everywhere the respective duties of man and woman were reversed; for in every household I found the men in aprons, superintending the affairs of the kitchen. Everywhere men, and only men, were the Bridgets and housekeepers. I thought that those gentlemen-housekeepers looked very pale, and somewhat nervous; and, when I looked into their spirits (for it seemed in my dream that I had the power), I saw anxiety and unrest, a constant feeling of unpleasant expectancy, - the result of a long and weary battling with the cares of the household.As I looked at those men-Bridgets and gentleman-housekeepers, I said to myself, ""This is very strange! Why, these men seem unsexed! How stoop-shouldered they are! how weak and complaining their voices.""I found, too, that not only was the kitchen exclusively man's, but also the nursery: in fact, all the housework was directed and done by men. I felt a sad pity for these men, as I flitted from house to house, from kitchen to kitchen, from nursery to nursery.I saw them in the houses of the poor, where the ""man did his own work."" I saw him in the morning arise early, light the fire, and begin to prepare the breakfast, his face pale and haggard. ""No wonder!"" I thought, when I saw how he hurried, hurried, while in his spirit was a constant fear that the baby would awake. Very soon I heard the sharp cry of the baby; and away ran the poor father, soon returning with baby in his arms, carrying it around with him, while he raked the fire, fried the meat, and set the table for breakfast. When all was ready, down came two or three unwashed, unkempt children, who must be attended to: and, when all this was done, I observed that the poor gentleman's appetite was gone; and, pale and nervous, he sat down in the rocking-chair, with the baby in his arms. But what greatly astonished me was to see how quietly and

composedly the lady of the house drank her coffee and read the morning paper; apparently oblivious of the trials of her poor husband, and of all he had to endure in connection with his household cares. It was wash-day, and I watched him through that long and weary day. First at the wash-tub, while baby slept; then rocking the cradle and washing at the same time; then preparing dinner, running and hurrying here and there about the house: while in his poor, disturbed mind revolved the thought of the sewing that ought to be done, and only his own hands to do it. Evening came, and the lady of the house returned to dinner. The children came to meet her; and as she lifted up one, and then another, and kissed them, I thought! ""Why, how beautiful is that woman!"" Then in my dream I seemed to behold every woman of that strange city; and ah! the marvelous beauty of those women! Eye hath not seen, neither hath it entered into the heart of man to conceive; for a beauty almost angelic was so charmingly combined with intellect, and health brooded so divinely over all, that, at the tout ensemble, I was profoundly astonished and intensely delighted. Then I turned myself about, and was again in the home I had left. It was evening: the lamp on the table was lighted, and there sat the poor husband I have described, in his rocking-chair, darning stockings and mending the children's clothes after the hard day's washing. I saw that it had rained; that the clothes-line had broken,

The first encyclopedia to analyze, summarize, and explain the complexities of men's lives and the idea of modern manhood. The process of "making masculinity visible" has been going on for over two decades and has produced a prodigious and interesting body of work. But until now the subject has had no authoritative reference source. *Men & Masculinities*, a pioneering two-volume work, corrects the oversight by summarizing the latest historical, biological, cross-cultural, psychological, and sociological research on the subject. It also looks at literature, art, and music from a gender perspective. The contributors are experts in their specialties and their work is directed, organized, and coedited by one of the premier scholars in the field, Michael Kimmel. The coverage brings together for the first time considerable knowledge of men and manhood, focusing on such areas as sexual violence, intimacy, pornography, homophobia, sports, profeminist men, rituals, sexism, and many other important subjects. Clearly, this unique reference is a valuable guide to students, teachers, writers, policymakers, journalists, and others who seek a fuller understanding of gender in the United States.

"A wake-up call to those who are honestly concerned with global childhood safety."—Carol Stack, author of *All Our Kin*

The Church at Home and Abroad Harvard Education Press

This book offers a spatial history of the decades in which women entered the universities as students for the first time. Through focusing on several different types of spaces – such as learning spaces, leisure spaces, and commuting spaces – it argues that the nuances and realities of everyday life for both men and women students during this period can be found in the physical environments in which this education took place, as declaring women eligible for admittance and degrees did not automatically usher in coeducation on equal terms. It posits that the intersection of gender and space played an integral role in shaping the physical and social landscape of higher education in England and Wales in the late-nineteenth and early-twentieth centuries, whether explicitly – as epitomised by the building of single-sex colleges – or implicitly, through assumed behavioural norms and practices.

Pocos novelistas contemporáneos han analizado la cultura americana con el detalle con el que lo ha hecho Richard Ford en su trilogía sobre Frank Bascombe: 'The Sportswriter', 'Independence Day' y 'The Lay of the Land'. Un tríptico sobre la idiosincrasia de la sociedad norteamericana expuesto por uno de los narradores más meticulosos de la nación. Este libro se aventura en un territorio sin explorar, revelando cómo el singular sabor americano de las novelas de Frank Bascombe también surge de escenarios peculiares y de los personajes marginales, que proponen modelos de identidad alternativos. Esta obra redescubre la esencia del principal proyecto novelístico de Ford, desvelándolo como una fuente infinita de percepciones para cualquier lector interesado en la gente, los mitos y las narrativas que construyen el ser americano.

PURE HEALING

Oxford University Press

Working in corporate America is like surviving in the world of sports: there are things to win, there's competition, there are teams and teammates, people play certain positions, managers are coaches, employees have game plans, and the business year is often divided into quarters. At work, the corporate professional is also a business athlete. At work, the corporate professional is actually in a game. At work, the corporate professional is personally responsible to play his position. At work, there is a specific set of rules for the corporate professional to follow. And though the rules may seem unfair, at work, the corporate professional will need to follow the rules to win. The reader is treated as if he's a professional basketball player going into his rookie season. Chapters mirror the player's life as an athlete. Before the real work-season starts, the business athlete spends time in pre-season. First and second quarter, halftime, third and fourth quarter reflect the actual activity at work. The off-season represents a time at work when the corporate professional begins to leave his new-hire or rookie status to become a seasoned player. A final chapter offers business advice to keep the corporate professional motivated. The chapter format is simple: business rules followed by explanations, and random mixtures of anecdotes and sports analogies called, "Sports Talk." Sports Talk helps to draw comparisons to similar rules or principles in the game of basketball. For concepts that require more details and examples, Appendices are used for reference. The Appendix also includes a recommended book list and a listing of helpful Internet sites. The Game assists the corporate professional in turning unconscious mistakes and blunders into purposeful and directed strategies for success, saving both time and money. For the employee valuable time making mistakes. For the company large amounts of time and money spent paying for those mistakes. In a fast-paced read, what The Game teaches typically takes the

corporate professional years to learn and could cost a corporation multiple thousands of dollars to address. Success in corporate America depends on one's ability to get in the game, master the fundamentals, execute offensively, understand your position, and play to win! The Game is a complete resource for what it takes to win at work. The time spent reading this book will develop, and refine: Mental toughness Wardrobe selection Organizational skills Social habits Performance measurements Relational skills Personal growth Financial endeavors Professional opportunities The Game is for the reader who is: Graduating college and entering a professional job Currently a new hire within his first 12-24 months at work An intern or temp seeking permanent employment On the job, but suspects something is holding him back Already working, but needs an edge Preparing to enter the workplace for the first time or again! The Game is a perfect tool to give to the male you know in one of the above categories, especially if you are a(n): Parent Relative Friend Career or Guidance Counselor Job Placement Specialist Recruiter New-hire Trainer Mentor Advisor Manager Human Resources Representative "I'm a retired professional athlete and now a businessman. To win at work the way I did on the field, I find I use many of the mental preparations, team-player principles, and rules referenced in this book." Fred Barnett, former Philadelphia Eagle and Miami Dolphin

[ABC of Sexual Health](#) Bloomsbury Publishing USA

Spirituality has long been regarded as a haven of the female gender?and a component equally deficient in men?particularly among the white male Protestant population. So, it was with much surprise that the American media greeted the seemingly sudden explosion of the Promise Keepers movement with its emotional stadium rallies and vivid images of praying men openly recommitting to their faith. The shattering of a long-held stereotype brought into question the veracity behind long-held perceptions of men and the depth and nature of their piety. In *Do Real Men Pray?*, author Charles H. Lippy argues that, in fact, American men have always exhibited a deep and profound spirituality. He challenges the popular belief that men somehow cannot match the profundity found in female spirituality. Instead, Lippy lays out a convincing counterargument that the United States has a long and pronounced history of male spirituality. *Do Real Men Pray?* takes the reader through a chronological history of male spirituality from the colonial period to the present day. Along the way, Lippy introduces readers to six distinct, powerful images that manifested themselves as the ideal of American Protestant identity at different periods in history: the dutiful patriarch, the gentleman entrepreneur, the courageous adventurer, the efficient businessman, the positive thinker (inspired by the ubiquitous Norman Vincent Peale), and the modern-day faithful leader. From the piety of Cotton Mather to the ?muscular Christianity? of the early twentieth century, this book reveals a clear understanding of the obvious effect spirituality had on men. This book is the first to address thematically the history of male spirituality in the United States and is a rich, well-documented addition to the field of religious studies. *Do Real Men Pray?* will appeal to anyone with an interest in religious history in the United States as well as anyone interested in gender studies.

[Men & Masculinities \[2 volumes\]](#) John Wiley & Sons

The Man Code: Being a Man of Purpose on Purpose is the accumulated knowledge of personal experience, deep observation, and spiritual discernment. There are many links that culminate men into becoming who they are for the good and the bad. The influences of present and absentee fathers are the dominant factors in men finding their purpose. The identification of the mother's role is exemplified to achieve greater understanding about the contribution of the meaning of manhood. The reasons why men interact with others in the way they do—with both men and women and in relationships—will be discussed. There must be a reconstruction of the unfruitful antiquated codes of men based on mentalities of lingering boyhood. Ultimately, discovering the foundation, groundwork, development, and characteristics of true manhood paves the way so that men can live their life's purpose.
