 In this major update of the
 acclaimed and award-

winning jazz history, Alyn
 Shipton challenges many
 of the assumptions that
 surround the birth and
 growth of jazz music.

Shipton also re-evaluates the transition from swing to be-bop, asking just how political this supposed modern jazz revolution actually was. He makes the case for jazz as a truly international music from its earliest days, charting significant developments outside the USA from the 1920s onwards. All the great names in jazz history are here, from Louis Armstrong to Miles Davis and from Sidney Bechet to Charlie Parker and John Coltrane. But unlike those historians who call a halt with the death of Coltrane in 1967, Shipton continues the story with the major trends in jazz over the last 40 years: free jazz, jazz rock, world music influences, and the re-emergence of the popular jazz singer. This new edition brings the book completely up-to-date, including such names as John Medeski, Diana Krall, Django Bates, and Matthias Ruegg. There are also important new sections on Latin Jazz and the repertory movement.

The Art of Jazz Oxford University Press, USA
A rare collection of more than 200 full-color and black-and-white souvenir photographs and memorabilia that bring to life the renowned jazz

nightclubs of the 1940s and 1950s, compiled by Grammy Award-winning record executive and music historian Jeff Gold and featuring exclusive interviews with Quincy Jones, Sonny Rollins, Robin Givhan, Jason Moran, and Dan Morgenstern. In the two decades before the Civil Rights movement, jazz nightclubs were among the first places that opened their doors to both Black and white performers and clubgoers in Jim Crow America. In this extraordinary collection, Jeff Gold looks back at this explosive moment in the history of Jazz and American culture, and the spaces at the center of artistic and social change. *Sittin' In* is a visual history of jazz clubs during these crucial decades when some of the greatest names in the genre—Billie Holiday, Charlie Parker, Ella Fitzgerald, Dizzy Gillespie, Miles Davis, Louis Armstrong, Oscar Peterson, and many others—were headlining acts across the country. In many of the clubs, Black and white musicians played together and more significantly, people of all races gathered together to enjoy an evening's entertainment. House

photographers roamed the floor and for a dollar, took picture of patrons that were developed on site and could be taken home in a keepsake folder with the club's name and logo. *Sittin' In* tells the story of the most popular club in these cities through striking images, first-hand anecdotes, true tales about the musicians who performed their unforgettable shows, notes on important music recorded live there, and more. All of this is supplemented by colorful club memorabilia, including posters, handbills, menus, branded matchbooks, and more. Inside you'll also find exclusive, in-depth interviews conducted specifically for this book with the legendary Quincy Jones; jazz great tenor saxophonist Sonny Rollins; Pulitzer Prize-winning fashion critic Robin Givhan; jazz musician and creative director of the Kennedy Center, Jason Moran; and jazz critic Dan Morgenstern. Gold surveys America's jazz scene and its intersection with racism during segregation, focusing on three crucial regions: the East Coast (New York, Atlantic City, Boston, Washington, D.C.); the

Midwest (Chicago, Cleveland, Detroit, St. Louis, Kansas City); and the West Coast (Los Angeles, San Francisco). This collection of ephemeral snapshots tells the story of an era that helped transform American life, beginning the move from traditional Dixieland jazz to bebop, from conservatism to the push for personal freedom.

One of the Best Books of the Year: NPR, GQ, Billboard, JazzTimes In jazz parlance, "playing changes" refers to an improviser's resourceful path through a chord progression. In this definitive guide to the jazz of our time, leading critic Nate Chinen boldly expands on that idea, taking us through the key changes, concepts, events, and people that have shaped jazz since the turn of the century—from Wayne Shorter and Henry Threadgill to Kamasi Washington and Esperanza Spalding; from the phrase "America's classical music" to an explosion of new ideas and approaches; from claims of jazz's demise to the living, breathing

scene that exerts influence on mass culture, hip-hop, and R&B. Grounded in authority and brimming with style, packed with essential album lists and listening recommendations, *Playing Changes* takes the measure of this exhilarating moment—and the shimmering possibilities to come.

THE HISTORY OF EUROPEAN JAZZ

The History of Jazz
The companion volume to the ten-part PBS TV series by the team responsible for *The Civil War* and *Baseball*. Continuing in the tradition of their critically acclaimed works, Geoffrey C. Ward and Ken Burns vividly bring to life the story of the quintessential American music—jazz. Born in the black community of turn-of-the-century New Orleans but played from the beginning by musicians of every color, jazz celebrates all Americans at their best. Here are the stories of the

extraordinary men and women who made the music: Louis Armstrong, the fatherless waif whose unrivaled genius helped turn jazz into a soloist's art and influenced every singer, every instrumentalist who came after him; Duke Ellington, the pampered son of middle-class parents who turned a whole orchestra into his personal instrument, wrote nearly two thousand pieces for it, and captured more of American life than any other composer. Bix Beiderbecke, the doomed cornet prodigy who showed white musicians that they too could make an important contribution to the music; Benny Goodman, the immigrants' son who learned the clarinet to help feed his family, but who grew up to teach a whole country how to dance; Billie Holiday, whose distinctive style routinely transformed mediocre music into great art; Charlie Parker, who helped lead a musical revolution, only to destroy himself at thirty-four; and Miles Davis, whose search for fresh ways to sound made him the most influential jazz musician of his generation, and then led him to abandon jazz altogether. Buddy Bolden,

Jelly Roll Morton, Dizzy Gillespie, Art Tatum, Count Basie, Dave Brubeck, Artie Shaw, and Ella Fitzgerald are all here; so are Sidney Bechet, Coleman Hawkins, Lester Young, John Coltrane, Ornette Coleman, and a host of others. But Jazz is more than mere biography. The history of the music echoes the history of twentieth-century America. Jazz provided the background for the giddy era that F. Scott Fitzgerald called the Jazz Age. The irresistible pulse of big-band swing lifted the spirits and boosted American morale during the Great Depression and World War II. The virtuosic, demanding style called bebop mirrored the stepped-up pace and dislocation that came with peace. During the Cold War era, jazz served as a propaganda weapon—and forged links with the burgeoning counterculture. The story of jazz encompasses the story of American courtship and show business; the epic growth of great cities—New Orleans and Chicago, Kansas City and New York—and the struggle for civil rights and simple justice that continues into the new millennium.

Visually stunning, with more than five hundred photographs, some never before published, this book, like the music it chronicles, is an exploration—and a celebration—of the American experiment.

In the illustrious and richly documented history of American jazz, no figure has been more controversial than the jazz critic. Jazz critics can be revered or reviled—often both—but they should not be ignored. And while the tradition of jazz has been covered from seemingly every angle, nobody has ever turned the pen back on itself to chronicle the many writers who have helped define how we listen to and how we understand jazz. That is, of course, until now. In *Blowin' Hot and Cool*, John Gennari provides a definitive history of jazz criticism from the 1920s to the present. The music itself is prominent in his account, as are the

musicians—from Louis Armstrong and Duke Ellington to Charlie Parker, John Coltrane, Roscoe Mitchell, and beyond. But the work takes its shape from fascinating stories of the tradition's key critics—Leonard Feather, Martin Williams, Whitney Balliett, Dan Morgenstern, Gary Giddins, and Stanley Crouch, among many others. Gennari is the first to show the many ways these critics have mediated the relationship between the musicians and the audience—not merely as writers, but in many cases as producers, broadcasters, concert organizers, and public intellectuals as well. For Gennari, the jazz tradition is not so much a collection of recordings and performances as it is a rancorous debate—the dissonant noise clamoring in response to the sounds of jazz. Against the backdrop of racial strife, class and gender issues, war, and protest that has defined the past seventy-five years in America, *Blowin' Hot and Cool* brings to the fore jazz's most vital critics and the role they have played not only in defining the history of jazz but also in shaping jazz's significance in American culture and

life.

Gioia tells the story of jazz as it had never been told before, in a book that brilliantly portrays the legendary jazz players, the breakthrough styles, and the world in which it evolved. Here are the giants of jazz and the great moments of jazz history--Jelly Roll Morton, Louis Armstrong, Duke Ellington at the Cotton Club, cool jazz greats such as Gerry Mulligan, Stan Getz, and Lester Young, Charlie Parker and Dizzy Gillespie's advocacy of modern jazz in the 1940s, Miles Davis's 1955 performance at the Newport Jazz Festival, Ornette Coleman's experiments with atonality, Pat Metheny's visionary extension of jazz-rock fusion, the contemporary sounds of Wynton Marsalis, and the post-modernists of the current day. Gioia provides the reader with lively portraits of these and many other great musicians, intertwined

with vibrant commentary on the music they created. He also evokes the many worlds of jazz, taking the reader to the swamp lands of the Mississippi Delta, the bawdy houses of New Orleans, the rent parties of Harlem, the speakeasies of Chicago during the Jazz Age, the after hours spots of corrupt Kansas city, the Cotton Club, the Savoy, and the other locales where the history of jazz was made. And as he traces the spread of this protean form, Gioia provides much insight into the social context in which the music was born.
