Included in this Orson Scott Card ebook bundle: *Ender's Game* and *Ender's Shadow* *Ender's Game* Andrew "Ender" Wiggin thinks he is playing

computer simulated war games, at Earth's elite military academy, the Battle School; he is, in fact, engaged in something far more desperate. Ender may be the military genius Earth desperately needs in a war against an inscrutable alien that seeks to destroy all human life. The only way to find out is to throw Ender into ever harsher training, to chip away and find the diamond inside, or destroy him utterly. Ender Wiggin is six years old when it begins. He will grow up fast. Ender's

Game is an international bestseller, read and loved by generations. It has been named one of the top ten science fiction novels of all time. *Ender's Shadow* Andrew "Ender" Wiggin was not the only child in the Battle School; he was just the best of the best. In *Ender's Shadow*, Card tells the story of another of those precocious generals, the one they called Bean--the one who became Ender's right hand, part of his team, in the final battle against the Buggers. Bean's past was a battle

just to survive. His success brought him to the attention of the Battle School's recruiters, those people scouring the planet for leaders, tacticians, and generals to save Earth from the threat of alien invasion. Bean was sent into orbit, to the Battle School. And there he met Ender.... At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The war for survival of the planet Lusitania will be fought in the heart of a child named Gloriously Bright. On Lusitania, Ender found a world where humans and pequininos and the Hive

Queen could all live together; where three very different intelligent species could find common ground at last. Or so he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the pequininos require in order to become adults. The Starways Congress so fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. The Fleet is on

its way, a second xenocide seems inevitable. Xenocide is the third novel in Orson Scott Card's The Ender Saga. ## THE HIVE

Tor Science Fiction One hundred years before Ender's Game, the aliens arrived on Earth with fire and death. This is the story of the First Formic War. Victor Delgado beat the alien ship to Earth,

but just barely. Not soon enough to convince skeptical governments that there was a threat. They didn't believe that until space stations and ships and colonies went up in sudden flame. And when that happened, only Mazer Rackham and the Mobile Operations Police could move fast enough to meet the threat. ## THE LAST SHADOW

Tor Books

An expert at simulated war games, Andrew "Ender" Wiggin believes that he is engaged in one more computer war game when, in truth, he is commanding the last Earth fleet against an alien race seeking Earth's complete destruction. The Legend of Zelda: Hyrule Historia Macmillan New York Times bestselling authors Orson Scott Card and Aaron Johnston return to the

prequels to Ender's Game following The Swarm with The Hive, book two in the Second Formic War. A coalition of Earth's nations barely fought off the Formics' first scout ship. Now it's clear that there's a mother-ship out on edge of the system, and the aliens are prepared to take Earth by force. Can

Earth's warring nations and corporations put aside their differences and mount an effective defense? Ender's Game is one of the most popular and bestselling science fiction novels of all time.  Macmillan  
 The Ender Saga continues

with Shadow of the Giant, which parallels the events of Ender's Game from a different character's point of view. Bean's past was a battle just to survive. He first appeared on the streets of Rotterdam, a tiny child with a mind leagues beyond anyone else. He knew he could not survive through strength; he used his tactical genius to gain acceptance into a children's gang, and then to help make that gang a template for success for all the others. He civilized them, and lived to grow

older. Then he was discovered by the recruiters for the Battle School. For Earth was at war - a terrible war with an inscrutable alien enemy. A war that humanity was near to losing. But the long distances of interstellar space has given hope to the defenders of Earth - they had time to train military geniuses up from childhood, forging them into an irresistible force in the high-orbital facility called the Battle School. That story is told in two books, Orson Scott Card's

beloved classic Ender's Game, and its parallel, Ender's Shadow. Now, in Shadow of the Giant, Bean's story continues. Bean was the smallest student at the Battle School, but he became Ender Wiggins' right hand, Since then he has grown to be a power on Earth. He served the Hegemon as strategist and general in the terrible wars that followed Ender's defeat of the alien empire attacking Earth. Now he and his wife Petra yearn for a safe place to build a family - something he has never

known - but there is nowhere on Earth that does not harbor his enemies - old enemies from the days in Ender's Jeesh, new enemies from the wars on Earth. To find security, Bean and Petra must once again follow in Ender's footsteps. They must leave Earth behind, in the control of the Hegemon, and look to the stars. The enemy is destroyed, the human race is saved. Ender himself refuses to return to the planet, but his crew has gone home to their

families, scattered across the globe. The battle school is no more. But with the external threat gone, the Earth has become a battlefield once more. The children of the Battle School are more than heroes; they are potential weapons that can bring power to the countries that control them. One by one, all of Ender's Dragon Army are kidnapped. Only Bean escapes; and he turns for help to Ender's brother Peter. Peter Wiggin, Ender's older brother, has already been

manipulating the politics of Earth from behind the scenes. With Bean's help, he will eventually rule the world. Shadow of the Hegemon is the second novel in Orson Scott Card's Shadow Series. Tor Books The series which tells the story of Ender's Game from a new angle Twice an alien race has attacked mankind, and twice we have only barely survived.

Now, the International Fleet is training exceptional children to command in the next war and defend against the threat of total destruction. The next candidate picked for the rigorous Battle School will be Bean, an orphaned runt surviving on the mean streets of Rotterdam. Displaying staggering tactical genius, Bean will soon become right-hand man to the legendary 'Ender' Wiggin. Together they will lead mankind into its final battle - and change the world in ways no one

could have predicted. Intended as a parallel series to the compelling Ender Saga, this omnibus edition of The Shadow Saga also stands on its own as a shining example of the best the science fiction genre has to offer. This omnibus edition contains: ENDER'S SHADOW, SHADOW OF THE HEGEMON, SHADOW PUPPETS and SHADOW OF THE GIANT. [Ender's Game](#) Tor Books Orson Scott Card and Aaron Johnston return to their Ender's Game prequel series with this

first volume of an all-new trilogy about the Second Formic War in The Swarm. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese army. China has been devastated by the Formic's initial efforts to eradicate Earth life forms and prepare the ground for their own settlement. The Scouring of China struck fear into the other nations of the planet; that fear blossomed into drastic action when scientists determined that

the single ship that wreaked such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading into the system, unstoppable by any weapons that Earth can muster. Earth has been reorganized for defense. There is now a Hegemon, a planetary official responsible for keeping all the formerly warring nations in line. There's a Polemarch, responsible for organizing all the military forces of the planet into the new

International Fleet. But there is an enemy within, an enemy as old as human warfare: ambition and politics. Greed and self-interest. Will Bingwen, Mazer Rackam, Victor Delgado and Lem Juke be able to divert those very human enemies in time to create a weapon that can effectively defend humanity in the inexorable Second Formic War? The alien Formics twice attacked the human race. We barely won. Now, the international Fleet is drafting brilliant kids to train them to command our forces in the next war. And Sister Carlotta thinks she has found another one. From the teeming

For now, those secrets will have to wait - there is only survival to manage: Survival on the streets...and survival in the Fleet's rigorous Battle School. But just as the

prodigiously talented Bean's mentor, ender Wiggin, is shipped off to Command School, Bean is thrust into an existential crisis: the discovery of a long-lost brother and the return of his worst enemy, the sadistic street thug Achilles.
