**RAISED BY A KILLER: EXTREME
HORROR BOOK #1 AGE 4**

Anchor

Older women often feel invisible, but sometimes that's their secret weapon. They've spent their lives as the deadliest assassins in a clandestine international organization, but now that they're sixty years old, four women friends can't just retire—it's kill or be killed in this action-packed thriller by New York Times bestselling and Edgar Award-nominated author Deanna Raybourn. Billie, Mary Alice, Helen, and Natalie have worked for

the Museum, an elite network of assassins, for forty years. Now their talents are considered old-school and no one appreciates what they have to offer in an age that relies more on technology than people skills. When the foursome is sent on an all-expenses paid vacation to mark their retirement, they are targeted by one of their own. Only the Board, the top-level members of the Museum, can order the termination of field agents, and the women realize they've been marked for death. Now to get out alive they have to turn against their own organization, relying on experience and each other to get the job done, knowing that working together is the secret to their survival. They're about to teach the Board what it really means to be a woman—and a killer—of a certain age.

BOOKER PRIZE NOMINEE • “A taut and darkly funny contemporary noir that moves at lightning speed, it’s the wittiest and most fun murder party you’ve ever been invited to.” —MARIE CLAIRE Korede’s sister Ayoola is many things: the favorite child, the beautiful one, possibly sociopathic. And now Ayoola’s third boyfriend in a row is dead, stabbed through the heart with Ayoola’s knife. Korede’s practicality is the sisters’ saving grace. She knows the best solutions for cleaning blood (bleach, bleach, and more bleach), the best way to move a body (wrap it in sheets like a mummy), and she keeps Ayoola from posting pictures to Instagram when she should be mourning her “missing”

boyfriend. Not that she gets any credit. Korede has long been in love with a kind, handsome doctor at the hospital where she works. She dreams of the day when he will realize that she’s exactly what he needs. But when he asks Korede for Ayoola’s phone number, she must reckon with what her sister has become and how far she’s willing to go to protect her.

DEAR KILLER

Sourcebooks, Inc.

The beautiful young woman's long black hair clings to her face like seaweed. As Nadine turns the body, she prays this will be different: but seeing the wounds, her prayers go unanswered. It's just like the others. An exact match to her mother's victims. Keeping her head

down and refusing to let anyone get close is Agent Nadine Finch's atonement for never realising her mother Arleen was a serial killer. But when the body of a young woman is found drifting in the warm Sarasota Bay waters, right where Nadine grew up, the past she's worked so hard to keep hidden comes calling. Rushing to the scene, Nadine is the first to notice the circle carved around the girl's ring finger. It's the exact same marking Arleen left on all her victims. Suddenly, Nadine is a teenager again, watching her mother come home to their trailer in the middle of the night, covered in blood. With a heartbroken family reeling, and no witnesses or forensic evidence, Nadine has no choice but to face her demons and visit her mother in prison. When her mother whispers a

name Nadine hasn't heard for years, the case takes a terrifyingly personal turn, and returning home, the bag of bloodied clothes left on Nadine's bed tells her someone is watching her every move... With her dark family history out in the open, it's not long before suspicion falls on Nadine herself. As her team turn against her, the closer she gets to her mother and this case, the more danger she's in. Time is running out. Can she catch the killer-or will she be the next victim of this dark family legacy? An unputdownable thriller that will have you racing through the pages until the final, jaw-dropping twist. Perfect for fans of Rachel Caine, Lisa Gardner and Mary Burton. Read what everyone's saying about A Killer's Daughter 'Wow!! This book!!! Where do I begin?... completely

and utterly impossible to put down... literally had me on the edge of my seat. I have devoured this book in just one sitting... gripping... a superb read.' Little Miss Book Lover 87, □□□□□
Diary of a Serial Killer St. Martin's Press
 One of Cosmopolitan's Best Romance Novels Ever Turns out that reading nothing but true crime isn't exactly conducive to modern dating—and one woman is going to have to learn how to give love a chance when she's used to suspecting the worst. PhD candidate Phoebe Walsh has always been obsessed with true crime. She's even analyzing the genre in her dissertation—if she can manage to finish writing it. It's hard to find the time while she spends the summer in Florida, cleaning out her childhood home, dealing with her

obnoxiously good-natured younger brother, and grappling with the complicated feelings of mourning a father she hadn't had a relationship with for years. It doesn't help that she's low-key convinced that her new neighbor, Sam Dennings, is a serial killer (he may dress business casual by day, but at night he's clearly up to something). It's not long before Phoebe realizes that Sam might be something much scarier—a genuinely nice guy who can pierce her armor to reach her vulnerable heart.
Killer Chef HarperCollins
 THE INSTANT NEW YORK TIMES BESTSELLER One of New York Times Book Review's "summer reads guaranteed to make your heart thump and your skin crawl"; An Amazon Best of the Month Pick; Named a must-read

summer book by The Washington Post, USA Today, Vulture, BuzzFeed, Forbes, Entertainment Weekly, CNN, New York Post, Good Housekeeping, E!, PopSugar, CrimeReads, Thrillist, and BookRiot. It's November 1991. Nirvana's in the tape deck, George H. W. Bush is in the White House, and movie-obsessed college student Charlie Jordan is in a car with a man who might be a serial killer. Josh Baxter, the man behind the wheel, is a virtual stranger to Charlie. They met at the campus ride board, each looking to share the long drive home to Ohio. Both have good reasons for wanting to get away. For Charlie, it's guilt and grief over the shocking murder of her best friend, who became the third victim of the man known as the Campus Killer. For Josh, it's to help care for his sick father—or so he

says. The longer she sits in the passenger seat, the more Charlie notices there's something suspicious about Josh, from the holes in his story about his father to how he doesn't want her to see inside the trunk. As they travel an empty, twisty highway in the dead of night, an increasingly anxious Charlie begins to think she's sharing a car with the Campus Killer. Is Josh truly dangerous? Or is Charlie's jittery mistrust merely a figment of her movie-fueled imagination? One thing is certain—Charlie has nowhere to run and no way to call for help. Trapped in a terrifying game of cat and mouse played out on pitch-black roads and in neon-lit parking lots, Charlie knows the only way to win is to survive the night.

There are many cultural myths about serial killers, often propagated even by mental health professionals. Many assume there is a profile of a serial killer, that serial killers always go for the same

victim type or always use the same MO, that they are more clever than ordinary people, and that they are inevitably charming and attractive. The truth is not as simple as that. There are different types of serial killers, and while there are many books that discuss the serial killer phenomenon especially in relationship to victim types or context, researchers have not yet been able to come up with a definition, or type, that covers the broad spectrum of serial killers and their complex psychological dynamics. Ramsland looks at the variety of serial killer types, illustrating that it is difficult to accurately depict these elusive, intriguing, and dangerous killers. There are different types of serial killers and while there are many books that discuss the serial killer phenomenon especially in relationship to victim types or context, researchers have not yet been able to come up with a definition, or type, that covers the broad spectrum of serial killers and their complex psychological dynamics. Ramsland looks at serial killer types, illustrating that it is difficult to accurately depict these elusive, intriguing, and dangerous killers. This book examines a variety of serial killers, from sexual

predators to psychotic killers, from murder teams to odd eccentric stalkers, in order to present the distinct psychological dynamics that set serial killers apart from other violent murderers. Among the motives addressed are lust, control, glory, profit, thrill, delusions, rage, the desire for company, the need to please a partner, and even murder as an intellectual exercise. Serial killers live double lives, hiding their violence even from those who live with them, so along with a study of motives are chapters devoted to how close associates have described killers, including parents, siblings, co-workers, lovers, and survivors. There is no profile of a serial killer, and this book establishes that in vivid and frightening detail.

Between what matters and what seems to matter, how should the world we know judge wisely? When the scheming, indomitable brain of Sigsbee Manderson was scattered by a shot from an unknown hand, that world lost nothing worth a single tear; it gained something memorable in a harsh reminder of the vanity of such wealth as this dead man had piled up-without making one loyal friend to mourn him, without doing an act that could help his memory to the least honor. But when the news of his end came, it seemed to those living in the great vortices of business as if the earth, too, shuddered under a blow. In all the lurid commercial history of his country there had been no figure that had so imposed itself upon the mind of

the trading world. He had a niche apart in its temples.
