MIDNIGHT VENGEANCE

paladin Press

The remarkable story of the Finnish marksman nicknamed "White Death" by the Red Army for his record number of confirmed kills. Simo Häyhä is the most famous sniper in the world. During the

Winter War fought between Russia and Finland from 1939 to 1940, he had 542 confirmed kills with iron sights, a record that still stands today. A man of action who spoke very little, Simo Häyhä was hugely respected by his men and his superiors and given many difficult missions, including taking out specific targets. Able to move silently and swiftly through the landscape, melting into the snowbound surroundings in his white camouflage fatigues, his aim was deadly and his quarry rarely escaped. The Russians learned of his reputation as a marksman and tried several times to kill him by indirect fire. He was promoted from

corporal to second lieutenant, and he was awarded the Cross of Kollaa. For sniping, Simo Häyhä only ever used his own M/28-30 rifle. Eventually, his luck ran out, and Simo received a serious head wound on March 6, 1940, though he subsequently recovered. The White Sniper fully explores Simo Häyhä's life, his exploits in the Winter War, the secrets behind his success, including character and technique, and also includes a detailed look at his rifle itself. There are appendices on the basics of shooting, the impact of fire on the battlefield, battles on the Kollaa Front during the Winter War, and a list of ranked snipers of the world. "No

matter how many books on sniping you have read, this must be added to your list if you are serious about shooting.” —GunMart *Dude, You're Gonna Be a Dad!* NYU Press

A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of *Born to Run* lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

The political, social and economic changes which overtook England in the early seventeenth century forced Parliament to adapt from a medieval institution into one with authority over all facets of society; studies focus on particular cases. The political, social and economic changes which overtook England in the early seventeenth century were both powerful and dramatic, forcing Parliament to adapt from a medieval institution into one with authority over all facets of society. Dynastic change, union with Scotland, fiscal reform, civil war, revolution and Restoration required Parliament not only to be at work, but also to discover how to work. These studies focus on change and development in three areas: firstly, the institution of Parliament itself, exploring its growing institutional sophistication and the problems connected with attendance, workload and physical environment; secondly, on Parliament's role within the institutional set-up of the constitution, and the structure and relationships of power within the governance of the country; and thirdly, on the public perception of Parliament, and the practicalities of the relationship between Parliament and the wider world. Viajar es una excelente oportunidad para aprender inglés básico y este libro lo ayudará a lograrlo. Te será más fácil aprender inglés rápido mientras viajas porque: - Estarás en el contexto cultural de ese nuevo idioma, lo que facilita el aprendizaje del inglés para españoles. - disfrutará más de su viaje si aprende inglés simplificado mientras se comunica con la gente local en su propio idioma Este sencillo libro de frases en inglés para el viajero te ayudará, es inglés básico y inglés divertido porque: - tiene todas las oraciones principales y preguntas que necesitará en el vocabulario inglés para viajar - Está organizado de acuerdo a los principales momentos de su viaje. - cada frase está en su idioma y en el idioma que desea aprender, por lo que puede usarlo como diccionario de frases y diccionario en inglés. Este libro de frases en inglés para viajes contiene 22 capítulos con más de 400 palabras y oraciones para todas las situaciones principales em inglés para hispanohablantes: CAPÍTULO 01- Preguntas frecuentes CAPÍTULO 02 - Cómo saludar a la gente. CAPÍTULO 03 - Palabras de cortesía CAPÍTULO 04 - En el aeropuerto CAPÍTULO 05 - Información y direcciones CAPÍTULO 06 - En el hotel CAPÍTULO 07 - En el restaurante CAPÍTULO 08 - Carnes, pescados y verduras. CAPÍTULO 09 - Frutas CAPÍTULO 10 - Más comida CAPÍTULO 11 - Bebidas CAPÍTULO 12 - Dinero CAPÍTULO 13 - Transporte CAPÍTULO 14 - El tren CAPÍTULO 15 - En el metro CAPÍTULO 16 - Alquiler de coches CAPÍTULO 17 - Días y meses CAPÍTULO 18 - Tiempo CAPÍTULO 19 - Estaciones CAPÍTULO 20 - Colores CAPÍTULO 21 - El amor y las relaciones. CAPÍTULO 22 - Frases de ayuda Úselo antes y mientras viaja y, paso a paso, comprenderá y memorizará cada vez más palabras en el nuevo idioma utilizando nuestro libro de frases en inglés con textos bilingües. ¿Vamos a empezar a aprender inglés divertido juntos?

Kronstadt, 1921 Boydell Press

Now a major motion picture directed by Clint Eastwood, in theaters February 2018. An ISIS terrorist planned to kill more than 500 people. He would have succeeded except for three American friends who refused to give in to fear. On August 21, 2015, Ayoub El-Khazzani boarded train #9364 in Brussels, bound for Paris. There could be no doubt about his mission: he had an AK-47, a

pistol, a box cutter, and enough ammunition to obliterate every passenger on board. Slipping into the bathroom in secret, he armed his weapons. Another major ISIS attack was about to begin. Khazzani wasn't expecting Anthony Sadler, Alek Skarlatos, and Spencer Stone. Stone was a martial arts enthusiast and airman first class in the US Air Force, Skarlatos was a member of the Oregon National Guard, and all three were fearless. But their decision-to charge the gunman, then overpower him even as he turned first his gun, then his knife, on Stone—depended on a lifetime of loyalty, support, and faith. Their friendship was forged as they came of age together in California: going to church, playing paintball, teaching each other to swear, and sticking together when they got in trouble at school. Years later, that friendship would give all of them the courage to stand in the path of one of the world's deadliest terrorist organizations. The 15:17 to Paris is an amazing true story of friendship and bravery, of near tragedy averted by three young men who found the heroic unity and strength inside themselves at the moment when they, and 500 other innocent travelers, needed it most.

Sergeant York Oxford University Press

A satire on bureaucracy and regimentation by one of Austria's leading writers. The nameless narrator takes the reader on a tour of a village whose inhabitants lead such regulated lives they resemble elements in a mathematical equation.

Feeding Chilapa John Benjamins Publishing

A professional sniper needs to accomplish three things to do his job: be predictable, repeatable, and precise! To help achieve that goal, veteran sniping instructor and competitive long-range shooter Eduardo Abril de Fontcuberta has collected dozens of exercises from elite military and police sniping programs and organized them into a complete training course. Now, snipers, instructors, and even civilian long-range target shooters can develop and assess their performance, individually or as a unit, and meet the standards of the best snipers in the world. The exercises in this book—from the U.S. Marines and U.S. Army, U.S. Navy SEALs, Spanish Foreign Legion, Swedish Marines, Gunsite, SniperCraft, and many other top sniping programs—cover the entire spectrum of the professional sniper's skill set, including: close-range and known-distance shooting—testing cold-bore zeros, target identification, knowing your limits . . . long-range shooting—range estimation, ballistics and wind reading, hard-

target interdiction . . . complex and skills-oriented exercises—accuracy under stress, simultaneous engagements, shooting through glass, angle shooting, shooting through loopholes . . . nonshooting requirements—communications, camouflage and observation, land navigation, tactical medicine, survival and tracking . . . The author wraps up with his recommendations for sniper competitions, schools, instructors, and equipment. Whether you need stand-alone training drills or a complete course in tactical marksmanship, you will get it with the exercises in this book.

“Without a doubt the best guide I have read to the new computer culture . . . witty and provocative . . . sane and thoughtful” (J. G. Ballard). “A lively compendium of dispatches from the far reaches of today’s computer savvy avant-garde”, *Escape Velocity* explores the dawn of the Information Age, and the high-tech subcultures that celebrated, critiqued, and gave birth to our wired world and a counterculture digital underground (The New York Times Book Review). Poised between technological rapture and social rupture, *Escape Velocity* poses the fundamental question of our time: Is technology liberating or enslaving us in the twenty-first century? Mark Dery takes us on an electrifying tour of the high-tech underground. Investigating the shadowy byways of cyberculture, we meet would-be cyborgs who believe the body is obsolete and dream of downloading their minds into computers, cyberhippies who boost their brainpower with smart drugs and mind machines, techno-primitives who sport “biomechanical” tattoos of computer circuitry, and cyberpunk roboticists whose dystopian contraptions duel to the death before howling crowds. “Re-prov[ing] Dery an astute and trustworthy patrolman of the cultural and social borderland between science fiction and non-fiction”, *Escape Velocity* stands alone as the first truly critical inquiry into cyberculture (Wired). Shifting the focus of our conversation about technology from the corridors of power to disparate voices on the cultural fringes, Dery wires it into the power politics and social issues of the moment. It is essential reading for everyone interested in computer culture and the shape of things to come.

CONVERGENCE CULTURE

C.W. Daniel Company, Limited

“What the future fortunes of [Gramsci’s] writings will be, we

cannot know. However, his permanence is already sufficiently sure, and justifies the historical study of his international reception. The present collection of studies is an indispensable foundation for this.” —Eric Hobsbawm, from the preface Antonio Gramsci is a giant of Marxian thought and one of the world’s greatest cultural critics. Antonio A. Santucci is perhaps the world’s preeminent Gramsci scholar. Monthly Review Press is proud to publish, for the first time in English, Santucci’s masterful intellectual biography of the great Sardinian scholar and revolutionary. Gramscian terms such as “civil society” and “hegemony” are much used in everyday political discourse. Santucci warns us, however, that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci’s purposes in developing them. Rather what we must do, and what Santucci illustrates time and again in his dissection of Gramsci’s writings, is absorb Gramsci’s methods. These can be summed up as the suspicion of “grand explanatory schemes,” the unity of theory and practice, and a focus on the details of everyday life. With respect to the last of these, Joseph Buttigieg says in his *Nota*: “Gramsci did not set out to explain historical reality armed with some full-fledged concept, such as hegemony; rather, he examined the minutiae of concrete social, economic, cultural, and political relations as they are lived in by individuals in their specific historical circumstances and, gradually, he acquired an increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society.” The rigor of Santucci’s examination of Gramsci’s life and work matches that of the seminal thought of the master himself. Readers will be enlightened and inspired by every page.

Chad Littlefield riding in the passenger seat gets a text from Chris

Kyle saying, This dude is straight up nuts Watch my six. A police officer pulled up to the house. The officer told Taya, Chris has been hurt. Have you seen Chris truck? Taya called her mother and told her something was wrong. American soldier and patriot Chris Kyle died unexpectedly on home soil at the top of his game with all the glory and medals one man could ever imagine. Suddenly, a wife was left without a husband and children without a father. The trial of his alleged killer, Eddie Ray Routh, was soon to begin when Robert Blevins felt a need to be present at the legal proceedings. Blevins had followed the tragic case from the beginning, but something in his gut told him he had to attend the trial. He traveled to Stephenville, Texas, and became witness to what would be a judicial process wrought with emotional upheaval and anger. He witnessed families experience the pain of losing a child as well as watching a child go to prison. Not immune to the emotions around him, Blevins, too, descended into despair at the loss of Chris Kyle. To Blevins, there are not enough men like Kylebrave soldiers who fight for our freedom.

The 15:17 to Paris Mobile Library

Through revised text, new photos, specialised illustrations, updated charts and additional information sidebars, *The Ultimate Sniper* once again thoroughly details the three great skill areas of sniping; marksmanship, fieldcraft and tactics.

Omar Bradley Рипол Классик

For more than 700 years Japan was dominated by a military caste—the samurai. To the Western mind these fearsome warriors—samurai, the masterless ronin, and the assassin ninja—have always been a source of mystery and wonder, combining the idealism of chivalry with military fanaticism. *THE WAYS OF THE SAMURAI* digs beneath the myth and reveals a truth even more amazing about the men who practiced a discipline drawn from Zen and Confucian ethics—bushido, the way of the warrior.

Evidence for Linguistic Relativity HarperCollins

There are approximately 3,712 ways for a guy to look stupid during pregnancy - this book's here to help you avoid all(most) of them. And here's your first hint: Focus on what you can be doing for her rather than what's happening to her. She's pregnant. She knows that. You know that. And her 152 baby books tell her exactly what she can expect. Your job is to learn what you can do between the stick turning blue and the drive to the delivery room to make the next nine months go as smoothly as possible. That's

where John Pfeiffer steps in. Like any good coach, he's been through it. He's dealt with the morning sickness and doctor visits, painting the baby's nursery and packing the overnight bag, choosing a name, hospital, and the color of the car-seat cover. All the while he remained positive and responsive - there with a "You're beautiful" when necessary - but assertive during the decision-making process (he didn't want to wind up with a kid named Percy). And now it's your turn. She might be having the baby, but you have plenty of responsibilities.

How to Do Your Own Painting and Wallpapering iBooks

The First In-Depth Biography of America's Last Five-Star General He was known as "the G.I. General"—humble, self-effacing, hard-working, reflecting the small-town virtues of the America whose uniform he wore. But those very virtues have led historians to neglect General Omar Bradley—until now. Bestselling author Jim DeFelice, in this, the first-ever in-depth biography of America's last five-star general, tells Bradley's full story, and argues that the neglected G.I. General did more than any other to defeat Hitler in World War II. While General George S. Patton has garnered much of the glory, General Dwight David Eisenhower has claimed much of the world's respect, and British General Bernard Montgomery has kept the Union Jack flying, as DeFelice proves, it was the unassuming Bradley who actually developed the strategy and the tactics that won the war in Europe. Meticulously researched, using previously untapped documents and unpublished diaries and notes, *Omar Bradley: General at War* reveals: Why Bradley, not Patton, deserves most of the credit for America's victories in North Africa How Bradley—first Patton's subordinate, then his superior—was one of Patton's great defenders, while also recognizing his weaknesses, and tried to cover up the infamous slapping incident How Eisenhower panicked—when Bradley didn't—during the early stages of the Battle of the Bulge, delaying an American counterattack that could have saved thousands of

lives Why Bradley was a radical innovator in the use of combined air, armor, and infantry power How Bradley, contrary to those who like to portray him as a staid counterpart to Patton, was one of the most ardent practitioners of fast-moving offensives Why Bradley expected the Germans might use radiological weapons at Normandy Provocative, thorough, original, Jim DeFelice's *Omar Bradley: General at War* deserves a place on the shelf of every reader of World War II history.

Paladin Press

The New York Times bestselling book that takes you inside SEAL Team Six - the covert squad that killed Osama Bin Laden SEAL Team Six is a secret unit tasked with counterterrorism, hostage rescue, and counterinsurgency. In this dramatic, behind-the-scenes chronicle, Howard Wasdin takes readers deep inside the world of Navy SEALs and Special Forces snipers, beginning with the grueling selection process of Basic Underwater Demolition/SEAL (BUD/S)—the toughest and longest military training in the world. After graduating, Wasdin faced new challenges. First there was combat in Operation Desert Storm as a member of SEAL Team Two. Then the Green Course: the selection process to join the legendary SEAL Team Six, with a curriculum that included practiced land warfare to unarmed combat. More than learning how to pick a lock, they learned how to blow the door off its hinges. Finally as a member of SEAL Team Six he graduated from the most storied and challenging sniper program in the country: The Marine's Scout Sniper School. Eventually, of the 18 snipers in SEAL Team Six, Wasdin became the best—which meant one of the best snipers on the planet. Less than half a year after sniper school, he was fighting for his life. The mission: capture or kill Somalian warlord Mohamed Farrah Aidid. From rooftops, helicopters and alleys, Wasdin hunted Aidid and killed his men whenever possible. But everything went quickly to hell when his small band of soldiers found themselves

fighting for their lives, cut off from help, and desperately trying to rescue downed comrades during a routine mission. The Battle of Mogadishu, as it became known, left 18 American soldiers dead and 73 wounded. Howard Wasdin had both of his legs nearly blown off while engaging the enemy. His dramatic combat tales combined with inside details of becoming one of the world's deadliest snipers make this one of the most explosive military memoirs in years.

ESCAPE VELOCITY

Archway Publishing

By the time the First World War ended in 1918, eight million people had died in what had been perhaps the most apocalyptic episode the world had known. This Very Short Introduction provides a concise and insightful history of the 'Great War', focusing on why it happened, how it was fought, and why it had the consequences it did. It examines the state of Europe in 1914 and the outbreak of war; the onset of attrition and crisis; the role of the US; the collapse of Russia; and the weakening and eventual surrender of the Central Powers. Looking at the historical controversies surrounding the causes and conduct of war, Michael Howard also describes how peace was ultimately made, and the potent legacy of resentment left to Germany. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.
