'Who gave the drugs to the Beatles? I didn't invent those things. I bought it from someone who got it from somebody. We never invented the stuff.' - John Lennon Riding So High charts the Beatles' extraordinary odyssey from teenage drinking and pill-popping, to cannabis, LSD, the psychedelic Summer of Love and the darkness beyond. Drugs were central to the Beatles' story from the beginning. The acid, pills and powders helped form bonds, provided escape from the chaos of Beatlemania, and inspired colossal leaps in songwriting and recording. But they also led to break-ups, breakdowns, drug busts and prison. The only full-length study of the Beatles and drugs, Riding So High tells of getting stoned, kaleidoscope eyes, excess, loss and redemption, with a far-out cast including speeding Beatniks, a rogue dentist, a script-happy aristocratic doctor, corrupt police officers and Hollywood Vampires. 'The deeper you go, the higher you fly...'

Sometimes we live a life that inspires others. It's not about whom we are and who we choose to be with, but how we spend that time together. Stephen Rosenzweig takes us on The Journey through the maze of his life; a unique life that few people will ever have the chance to experience. His is a life encompassing both the joy of love and the pain of loss. He encourages us that to really live a full life, a part of us must die. We must let go of the past negativity; and find the positive in our new experiences. Only then can we truly begin to live. According to the author, to live is to love, really love. Love is hope crystallized into the dreams of tomorrows to come. There are moments of oneness between the greater power, the Great Spirit, and the oneness of the conscious energy of the universe. God by whatever name you choose lets us know when we are on the right path to reach our desired destination while we live.

A teenager discovers racism and romance on his father's farm For his fourteenth birthday, Joe Pedersen wants a motorbike that costs nearly a thousand dollars. But his mom says the usual birthday gift is fifty dollars, and his dad wants Joe to earn the rest of the money himself and "find out what a real day's work feels like." Angry that his father doesn't think he's up to the job, Joe joins the Mexican laborers who come to his father's farm each summer. Manuel, the crew boss, is only sixteen, yet highly regarded by the other workers and the Pedersen family. Joe's resentment grows when his father treats Manuel as an equal. Compared with Manuel, Joe knows nothing about planting and hoeing cabbage and picking strawberries. But he toughs out the long, grueling days in the hot sun, determined not only to make money but to gain the respect of his stern, hardworking father. Joe soon learns about the problems and fears the Mexicans live with every day, and, before long, thanks to Manuel, his beautiful cousin Luisa, and the rest of the crew, Joe comes to see the world in a whole different way. In her sensitive new novel, Cynthia DeFelice explores our dependency on migrant workers and simultaneous reluctance to let these people into our country and into our lives. Master storyteller Stephen King presents the classic "wondrously frightening" (Publishers Weekly) #1 New York Times bestseller about a writer's horrific and haunting pseudonym. "I'm back...I'm back from the dead and you don't seem glad to see me at all, you ungrateful son of a bitch." After thirteen years of international bestseller stardom with his works of violent crime fiction, author George Stark is officially declared dead—revealed by a national magazine to have been killed at the hands of the man who created him: the once well-regarded but now obscure writer Thad Beaumont. Thad's even gone so far as to stage a mock burial of his wildly successful pseudonym, complete with tombstone and the epitaph "Not a Very Nice Guy." Although on the surface, it seems that Thad can finally concentrate on his own novels, there's a certain unease at the prospect of leaving George Stark behind. But that's nothing compared to the horror about to descend upon Thad's new life. There are the vicious, out-of-control nightmares, for starters. And how is he able to explain the fact that everyone connected to George Stark's untimely demise is now meeting a brutal end of their own in a pattern of homicidal savagery...and why each blood-soaked crime scene has Thad's fingerprints all over it? Thad Beaumont may have once believed that George Stark was running out

of things to say, but he's going to find out just how wrong he is...

Mango Media Inc.

Structophis is a heartwarming YA adventure from the author of *The Book of Deacon*, *Bypass Gemini*, and *Free-Wrench*. It is based upon a concept and artwork by ProjectENDO. In a small town in Colorado, Markus Spiros was just getting his life on track. By day he worked as a veterinary tech, by night he took classes. His steady little routine was rolling along nicely when his impulsive Uncle Dimitrios threw a wrench in the works. Thanks to an unannounced trip, Markus had to swing by his uncle's bistro to tend to the 'special oven.' When he arrived, he discovered it wasn't the oven that was special, it was the rare and exotic egg that had been incubating inside it. And now it had hatched. Suddenly, Markus found his life had become a good deal more complicated. The creature was a Structophis Gastrignae—a strange creature that was equal parts dragon and oven—and she'd become quite a big girl. Large as a refrigerator and curious as a toddler, the creature he'd dubbed Blodgette would have been a handful in any situation. Markus had bigger problems than figuring out how to take care of her, though. Owning such a rare and special beast was illegal, so should the cops learn of it, Markus would be destined for jail. Worse, there were certain unscrupulous people who would do anything to acquire Blodgette. Now, with the help of his old classmate Gale, Markus must scramble to stay two steps ahead of the authorities and a corrupt CEO, all while being the best 'mommy' he can be to his brand-new pizza dragon.

You are here with me now. It's time I take you on a dreamy food adventure. Our trip takes us to the more remote reaches of the American Southwest, and to France and Belgium. But first, I am a man who once sought Roubideau - a ghost town that completely vanished. We will lose our way following a trail of bread crumbs through a maze of sandstone ravines, as iridescent crows hover over our heads. Mountain lions invisible in plain sight will mimic our pace, stalking us step-by-step. - - - The search for any trace of Roubideau became a minor obsession shortly after I moved from buttoned down New England directly to an obscure valley on the high Sonoran desert of the Uncompahgre Plateau in Western Colorado. It was alien to us. We paid in full for the radical change we sought. Uncompahgre is Ute Indian meaning "rocks that make water red." At the time the area was an agritour back drop for my family's brand new livestock, goat cheese and grass fed meat business set on a well kept pioneer farmhouse property with pasture and woods. We lived on a section of the plateau called the California Mesa. And on this, a multi-hectare farm that sat on a sweet, dry, flat, geological rise called a bench. The snow capped views were stunning with no lights of civilization. - - - Roubideau became our handle, the adopted name of the farm and company. By natural extension, 'Roubideau' became synonymous in my search for the collective soul of memorable food. It became my choice metaphor for everything missing in human taste... Each new discovery became a Roubideau Moment. - - - I count food as an engram that appears, disappears and reappears from our memory like a mountain summit in the fog. It's hard to ask yourself, but you know. Somewhere inside, do you remember foods you haven't eaten for eons like baked Clams Casino or the memory of the first mouth watering bite of a real, genuinely sun ripened tomato that was picked deep red and plump right off the vine? (As a child on my parents farm I would take a salt shaker right out into the rows.) Your taste memory cataloged and stored -your moments. I pose the questions. Was all this merely the electrical impulses of the senses, or was it more? I think it's got to go deeper. When was the first time you tasted smoked meat? Was it the first taste of Easter ham or the bacon you were given as a child? Or were your engrams sourcing stored code? Could that first recorded moment reach back to our ancient ancestors who ate over camp fires 40,000 years ago and its all still locked in your genetics? The blessing is your taste catalog. It awaits near infinite sensory playback... Welcome to Skin Side Down, The Search for Roubideau in the American Culinary Outback. I've been keeping food journals since an early age. They're personally important to me, and my story is the way I want to share them with you. Oh, as for, Skin Side Down: when sauteing a piece of fish or duck. You've got a fast moving collection of short stories. - - - In our inevitably short, variable subjective lives, with a shared desire to reacquaint ourselves with great emotional food stuffs, a magic place like Roubideau floated in and out of reality, in and out of my own collective consciousness, in and out anywhere on earth. Like those mountain bends on the road in Midi-Pyrenees France with hidden treasures like perfect trout, tiny goat and sheep cheeses and sips of wine from bottles without labels. In and out of my very own western farmhouse with mud on my boots and glaring dogs at my feet while I made dinner. This novel is about making Roubideau solid and informative for a little while longer - before it disappears for good in the vanishing world. Joseph V. Coniglio - Ides of March"
