THEATRICAL WORLDS (BETA VERSION)

Carson-Dellosa Publishing
The greatest love poetry
in the English language
provides the springboard
for master playwrights'
never-before-published
works about the triumphs
and tragedies of the
heart. The sonnets and
plays in *Loves' Fire* are
the seeds and fruit of an
extraordinary project:
seven sonnets by
Shakespeare, newly
envisioned for the stage,
in one-act plays by seven
brilliantly gifted
contemporary
playwrights.
Shakespeare's sonnets of
romantic and sexual love
are timeless, for they are
not bound to any
particular setting or to
either sex. These seven
plays, each paired with
the sonnet that inspired it,
are startling not only in
the variety of their mood,
content, and setting, but
also in their unusual
interpretation. For
example, Wendy
Wasserstein's version of

Sonnet 94 is a one-act
play set in the Hamptons,
where a well-to-do couple
is getting ready for a
society benefit; Eric
Bogossian creates a story
of sexual jealousy and
obsessiveness from
Sonnet 118; and
composer William Finn
has transformed Sonnet
102 into a song about an
artist attempting to paint
his lover -- and
failing. These seven new
works, commissioned and
produced by the Acting
Company, will be
performed in June.
Brought together in this
slender volume with the
sonnets, they form a
unique tribute to
Shakespeare -- a rich and
marvelously entertaining
celebration of the modern
playwrights' adoration of
the Bard.

A New Brain Samuel
French, Inc.

A middle grade novel in
verse about Samira, an
eleven-year-old Rohingya
refugee living in Cox's
Bazar, Bangladesh, who
finds strength and
sisterhood in a local surf
club for girls. Samira
thinks of her life as before
and after: before the
burning and violence in
her village in Burma,
when she and her best

friend would play in the
fields, and after, when her
family was forced to flee.
There's before the
uncertain journey to
Bangladesh by river, and
after, when the river
swallowed her nana and
nani whole. And now,
months after rebuilding a
life in Bangladesh with her
mama, baba, and brother,
there's before Samira saw
the Bengali surfer girls of
Cox's Bazar, and after,
when she decides she'll
become one. *Samira
Surfs*, written by
Rukhsanna Guidroz with
illustrations by Fahmida
Azim, is a tender novel in
verse about a young
Rohingya girl's journey
from isolation and
persecution to sisterhood,
and from fear to power.

The Day of the Triffids

Harper Collins

New York Times Bestseller

• Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review
The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the

most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleana Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her

own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

"From the University of Florida College of Fine Arts, Charlie Mitchell and distinguished colleagues form across America present an introductory text for theatre and theoretical production. This book seeks to give insight into the people and processes that create theater. It does not strip away the feeling of magic but to add wonder for the artistry that make a production work well." --

The World of Words
Souvenir Press
The influential masterpiece of one of the twentieth century's most brilliant—and neglected—science fiction and horror writers, whom Stephen King called "the best writer of science fiction that England has ever produced."
"[Wyndham] avoids easy allegories and instead questions the relative values of the civilisation that has been lost, the literally blind terror of humanity in the face of dominant nature. . . . Frightening and powerful, Wyndham's vision remains an important allegory and a gripping story."—The Guardian
What if a meteor shower left most of the world blind—and humanity at the mercy of mysterious carnivorous plants? Bill Masen undergoes eye surgery and awakes the next morning in his hospital bed to find civilization collapsing. Wandering the city, he quickly realizes that surviving in this strange new world requires evading strangers and the

seven-foot-tall plants known as triffids—plants that can walk and can kill a man with one quick lash of their poisonous stingers.

The landmark self-help bestseller that has inspired and enhanced the lives of more than 30 million readers. In this updated edition, with a new introduction and editorial commentary by Matt Furey, president of the Psycho-Cybernetics Foundation, the original 1960 text has been annotated and amplified to make Maxwell Maltz's message even more relevant for the contemporary reader. Maltz was the first researcher and author to explain how the self-image (a term he popularized) has complete

control over an individual's ability to achieve, or fail to achieve, any goal. He developed techniques for improving and managing self-image visualization, mental rehearsal and relaxation which have informed and inspired countless motivational gurus, sports psychologists, and self-help practitioners for more than sixty years. Rooted in solid science, the classic teachings in *Psycho-Cybernetics* continue to provide a prescription for thinking and acting that lead to life-enhancing, quantifiable results. Explore the power of the underdog in Malcolm Gladwell's dazzling examination of success, motivation, and the role of adversity in shaping our lives, from the bestselling author of *The Bomber Mafia*. Three thousand years ago on a battlefield in ancient Palestine, a shepherd boy felled a mighty warrior with nothing more than a stone and a sling, and ever since then the names of David and Goliath have stood for battles between underdogs and giants. David's victory was improbable and miraculous. He shouldn't

have won. Or should he have? In *David and Goliath*, Malcolm Gladwell challenges how we think about obstacles and disadvantages, offering a new interpretation of what it means to be discriminated against, or cope with a disability, or lose a parent, or attend a mediocre school, or suffer from any number of other apparent setbacks. Gladwell begins with the real story of what happened between the giant and the shepherd boy those many years ago. From there, *David and Goliath* examines Northern Ireland's Troubles, the minds of cancer researchers and civil rights leaders, murder and the high costs of revenge, and the dynamics of successful and unsuccessful classrooms—all to demonstrate how much of what is beautiful and important in the world arises from what looks like suffering and adversity. In the tradition of Gladwell's previous bestsellers—*The Tipping Point*, *Blink*, *Outliers* and *What the Dog Saw*—*David and Goliath* draws upon history, psychology, and powerful storytelling to reshape the way we think of the world around us.

An updated edition of the award-winning analysis of the role of race in the classroom features a new author introduction and framing essays by Herbert Kohl and Charles Payne, in an account that shares ideas about how teachers can function as "cultural transmitters" in contemporary schools and communicate more effectively to overcome race-related academic challenges. "West Virginia boasts an unusually rich heritage of ghost tales. Originally West Virginians told these hundred stories not for idle amusement but to report supernatural experiences that defied ordinary human explanation. From jealous rivals and ghostly children to murdered kinsmen and omens of death, these tales reflect the inner lives—the hopes, beliefs, and fears—of a people. Like all folklore, these tales reveal much of the history of the region: its isolation and violence, the passions and bloodshed of the Civil War era, the hardships of miners and railroad laborers, and the lingering vitality of Old

World traditions.

Aesop's Fables Modern Library

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life."

Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former

Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.
