“A heady admixture of explosive plot and taut, burnished prose . . . Mesha Maren writes like a force of nature.” —Lauren Groff, author of *Florida* In 1989, Jodi McCarty is seventeen years old when she’s sentenced to life in prison. When she’s released eighteen years later, she finds herself at a Greyhound bus stop, reeling from the shock of unexpected freedom but determined to chart a better course for herself. Not yet able to return to her lost home in the Appalachian Mountains, she heads south in search of someone she left behind, as a way of finally making amends. There, she meets and falls in love with Miranda, a troubled young mother living in a motel room with her children. Together they head toward what they hope will be a fresh start. But what do you do with your past—and with a town and a family that refuses

to forget, or to change? Set within the charged insularity of rural West Virginia, Mesha Maren’s *Sugar Run* is a searing and gritty debut about making a break for another life, the use and treachery of makeshift families, and how, no matter the distance we think we’ve traveled from the mistakes we’ve made, too often we find ourselves standing in precisely the place we began.

The vivid account of a charming rogue who evaded capture for thirteen years as an international fugitive from U.S. law enforcement after being set up by a childhood friend for a crime he didn't commit.

#### **Running Scared** University of Chicago Press

Robert Leon Davis was a respected police officer in New Orleans serving for four years until 1979-when he was arrested. He had begun his career with aspirations of being a great cop. But he was exposed to a darker side of law enforcement. While partnered with a veteran Robert first witnessed an officer violate the very laws he vowed to uphold - and shared his crime. One compromise led to another, and Davis faced arrest. From studying criminal law at Loyola University and becoming an award winning officer, Davis was a fugitive, living off the land in remote forests in America and Canada to elude capture. The church upbringing, where his grandmother made sure he learned about God and Jesus, was abandoned in anger. Through a stranger's prayer the angry atheist realised he was weary of running. He yielded his life to God, and gave himself in. When the

District Attorney finally dusted off his file, what would his sentence be?

A New York Times Bestseller "A rich portrait of the urban poor, drawn not from statistics but from vivid tales of their lives and his, and how they intertwined." —The Economist "A sensitive, sympathetic, unpatronizing portrayal of lives that are usually ignored or lumped into ill-defined stereotype." —Financial Times Foreword by Stephen J. Dubner, coauthor of Freakonomics When first-year graduate student Sudhir Venkatesh walked into an abandoned building in one of Chicago's most notorious housing projects, he hoped to find a few people willing to take a multiple-choice survey on urban poverty--and impress his professors with his boldness. He never imagined that as a result of this assignment he would befriend a gang leader named JT and spend the better part of a decade embedded inside the projects under JT's protection. From a privileged position of unprecedented access, Venkatesh observed JT and the rest of his gang as they operated their crack-selling business, made peace with their neighbors, evaded the law, and rose up or fell within the ranks of the gang's complex hierarchical structure. Examining the morally ambiguous, highly intricate, and often corrupt struggle to survive in an urban war zone, Gang Leader for a Day also tells the story of the complicated friendship that develops between Venkatesh and JT--two young and ambitious men a universe apart. Sudhir Venkatesh's latest book *Floating City: A Rogue Sociologist Lost and Found in New York's Underground Economy*—a memoir of sociological investigation revealing the true face of America's most diverse city—is also published by Penguin Press.

"In this wondrous and richly detailed coming of age story, Tyler Wetherall follows the breadcrumbs of her childhood to discover a family home that is unlike any other." --Katy Lederer, author of *Poker Face*

Tyler had lived in fifteen houses and five countries by the time she was nine. She didn't think this was strange until Scotland Yard showed up in her bucolic English village, and she discovered her family had been living a lie. Her father was a fugitive and their family name was an alias. They had been living in California back in 1983 when the Feds originally caught up with her dad; it was the same year Tyler was born. Her parents decided to go on the run with the three young children, and they spent the next few years traveling across Europe, assuming different identities, living in a series of beautiful places, from Portugal to Tuscany, paid for with drug money. Now her dad had fled once more, except this time he didn't take her with him. Despite the danger involved, for the following two years he flew Tyler and her siblings out to see him in secret wherever he was in hiding, until on her 12th birthday Scotland Yard followed Tyler to the Caribbean island of Saint Lucia, where her father was eventually captured. It was over the summers spent visiting her dad in prison in California, as she grew into an increasingly self-destructive teenager, that he told her the truth about his criminal life. He had been a pot smuggler in the seventies, and his organization had brought in marijuana worth nearly a half billion dollars from Thailand. In this emotionally detailed and carefully wrought memoir about growing up as a fugitive's daughter, Tyler

Wetherall pieces together the story of her parents' past, which ultimately helps her understand her own" --

"The much anticipated new novel by Christopher Sorrentino, acclaimed author of National Book Award finalist *Trance* a bracing, kaleidoscopic look at truth and fiction, love and obsession, loyalty and betrayal, race and identity, chaos and free will. Sandy Mulligan, a successful writer in the midst of a personal and creative crisis, retreats from Brooklyn to the quiet Michigan town where he hopes to finish a novel and to escape his turbulent private life and the scandal that's maimed his public reputation. Once there, he becomes fascinated by John Salteau, a native Ojibway storyteller who regularly appears at the local library. But Salteau is not what he appears to be a fact suspected by Kat Danhoff, an ambitious Chicago reporter who arrives to investigate a theft from a local Indian run casino. Salteau's possible role in the crime could be the key to the biggest story of her stalled career. Bored, emotionally careless, and sexually reckless, Kat immediately attracts a restive Sandy. In their growing involvement with one another, each becomes a pawn in the other's game. As we weave among these characters, learning about their lives and motivations, and uncovering the conflicts and contradictions between their stories, we realize that the storyteller is not the only one with secrets to conceal that all three are fugitives of one kind or another. All the Sorrentino touches that have thrilled admirers are here: sparkling dialogue, satirical wit, attention to the details of everyday life, dizzyingly inventive prose but it is the deeply imagined interior lives of its

all too human main characters that set this novel apart. Moving, funny, tense, and mysterious, *The Fugitives* is a love story, a ghost story, and a crime thriller. *The Fugitives* also is a cautionary tale of twenty-first century American life a meditation on the meaning of identity, on the role storytelling plays in our understanding of ourselves and each other, and on the difficulty of making genuine connections with others in a contemporary world that's connected in almost every way. Darkly satirical, exuberantly enigmatic, and completely unforgettable, *The Fugitives* is an event that reaffirms Sorrentino's position as an American writer of the first rank"--

Oxford University Press

Over seven million Americans are either incarcerated, on probation, or on parole, with their criminal records often following them for life and affecting access to higher education, jobs, and housing. Court-ordered monetary sanctions that compel criminal defendants to pay fines, fees, surcharges, and restitution further inhibit their ability to reenter society. In *A Pound of Flesh*, sociologist Alexes Harris analyzes the rise of monetary sanctions in the criminal justice system and shows how they permanently

penalize and marginalize the poor. She exposes the damaging effects of a little-understood component of criminal sentencing and shows how it further perpetuates racial and economic inequality. Harris draws from extensive sentencing data, legal documents, observations of court hearings, and interviews with defendants, judges, prosecutors, and other court officials. She documents how low-income defendants are affected by monetary sanctions, which include fees for public defenders and a variety of processing charges. Until these debts are paid in full, individuals remain under judicial supervision, subject to court summons, warrants, and jail stays. As a result of interest and surcharges that accumulate on unpaid financial penalties, these monetary sanctions often become insurmountable legal debts which many offenders carry for the remainder of their lives. Harris finds that such fiscal sentences, which are imposed disproportionately on low-income minorities, help create a permanent economic underclass and deepen social stratification. *A Pound of Flesh* delves into the court practices of five counties in Washington State to illustrate the ways in which subjective sentencing shapes the practice of monetary sanctions. Judges and court clerks hold a considerable degree of discretion in the sentencing and monitoring of monetary sanctions and rely on individual values—such as personal responsibility, meritocracy, and paternalism—to determine how much and when offenders should pay. Harris shows that monetary sanctions are imposed at different rates across jurisdictions, with little or no state government oversight. Local officials' reliance on their own values and beliefs can also push offenders further into debt—for example, when judges charge defendants who lack the means to

pay their fines with contempt of court and penalize them with additional fines or jail time. *A Pound of Flesh* provides a timely examination of how monetary sanctions permanently bind poor offenders to the judicial system. Harris concludes that in letting monetary sanctions go unchecked, we have created a two-tiered legal system that imposes additional burdens on already-marginalized groups.

Forty years in, the War on Drugs has done almost nothing to prevent drugs from being sold or used, but it has nonetheless created a little-known surveillance state in America's most disadvantaged neighborhoods. Arrest quotas and high-tech surveillance techniques criminalize entire blocks, and transform the very associations that should stabilize young lives—family, relationships, jobs—into liabilities, as the police use such relationships to track down suspects, demand information, and threaten consequences. Alice Goffman spent six years living in one such neighborhood in Philadelphia, and her close observations and often harrowing stories reveal the pernicious effects of this pervasive policing. Goffman introduces us to an unforgettable cast of young African American men who are caught up in this web of warrants and surveillance—some of them small-time drug dealers, others just ordinary guys dealing with limited choices. All find the web of presumed criminality, built as it is on the very associations and friendships that make up a life, nearly impossible to escape. We watch as the pleasures of summer-evening stoop-sitting are shattered by the arrival of a carful of cops looking to serve a warrant; we watch—and can't help but be shocked—as teenagers teach their younger siblings

and cousins how to run from the police (and, crucially, to keep away from friends and family so they can stay hidden); and we see, over and over, the relentless toll that the presumption of criminality takes on families—and futures. While not denying the problems of the drug trade, and the violence that often accompanies it, through her gripping accounts of daily life in the forgotten neighborhoods of America's cities, Goffman makes it impossible for us to ignore the very real human costs of our failed response—the blighting of entire neighborhoods, and the needless sacrifice of whole generations.

*The Truth Divided* is about Officer Nakia Jones who became known to many after her passionate facebook post went viral in June of 2016 after the death of Alton Sterling an African American male shot to death by Police in Baton Rouge Louisiana. Officer Jones stepped outside of her uniform and in to her role of a mother of two African American sons, who reacts when her oldest son expresses to her the fear he has of some of the men and women who wear the same uniform she does. The words that would pierce the heart of any mother, and the words that no mother should ever hear her child say regardless of color. He asked, "e;Will I be the next African American male to be killed by police?"e; Within in the first 24 hours of her compassionate video it had been shared over 100 thousand times and viewed over 2 million times. Officer Nakia Jones became a hashtag and her powerful words "e;If you are white and you are working in an African American community and you dislike or are afraid of people who don't look like you, you have no business in that uniform take it off"e;, this is still being shared today. Officer Jones

also defended good Police Officers like her that she says would give their lives freely to protect their community from harm, she also told the community that all Police Officers are not racist or bad. Officer Jones takes you on her journey in this book touching on her life and why she decided to become a law enforcement officer as well answering the questions asked by many, what happened after the video? This book also tells Officer Jones's desperate plea to the African American Community to stop killing one another, and the humble plea to the community not to target law enforcement officer. Most importantly you will get to see both sides of this heated topic that is shaking the nation from someone who lives both sides. Why the Truth Divided? Many say the truth will set you free. After reading this compelling book you be the judge. #IMWOKE

In this comprehensive review of urban ethnography, Steven Lubet encountered a field that relies heavily on anonymous sources, often as reported by a single investigator whose underlying data remain unseen. Upon digging into the details, he discovered too many ethnographic assertions that were dubious, exaggerated, tendentious, or just plain wrong. Employing the tools and techniques of a trial lawyer, Lubet uses original sources and contemporaneous documentation to explore the stories behind ethnographic narratives. Many turn out to be accurate, but others are revealed to be based on rumors, folklore, and unreliable hearsay. Interrogating Ethnography explains how qualitative social science would benefit from greater attention to the quality of evidence, and provides recommendations for bringing the field more closely in line with other fact-based

disciplines such as law and journalism.

Summoned by an anonymous Prosecutor, ten contemporary ethnographers gather in an aging barn to hold a trial of Alice Goffman's controversial ethnography, *On the Run*. But before the trial can get underway, a one-eyed wolfdog arrives with a mysterious liquid potion capable of rendering the ethnographers invisible in their fieldsites. Presented as a play that unfolds in seven acts, the ensuing drama provides readers with both a practical guide for how to conduct immersive participant-observation research and a sophisticated theoretical engagement with the relationship between ethnography as a research method and the operation of power. By interpolating "how-to" aspects of ethnographic research with deeper questions about ethnography's relationship to power, this book presents a compelling introduction for those new to ethnography and rich theoretical insights for more seasoned ethnographic practitioners from across the social sciences. Just as ethnography as a research method depends crucially on serendipity, surprise, and an openness to ambiguity, the book's dramatic and dialogic format encourages novices and experts alike to approach the

study of power in ways that resist linear programs and dogmatic prescriptions. The result is a playful yet provocative invitation to rekindle those foundational senses of wonder and generative uncertainty that are all too often excluded from conversations about the methodologies and methods we bring to the study of the social world.

When Harvard-trained sociologist Peter Moskos left the classroom to become a cop in Baltimore's Eastern District, he was thrust deep into police culture and the ways of the street--the nerve-rattling patrols, the thriving drug corners, and a world of poverty and violence that outsiders never see. In *Cop in the Hood*, Moskos reveals the truths he learned on the midnight shift. Through Moskos's eyes, we see police academy graduates unprepared for the realities of the street, success measured by number of arrests, and the ultimate failure of the war on drugs. In addition to telling an explosive insider's story of what it is really like to be a police officer, he makes a passionate argument for drug legalization as the only realistic way to end drug violence--and let cops once again protect and serve. In a new afterword, Moskos

describes the many benefits of foot patrol--or, as he calls it, "policing green."

*A Pound of Flesh* Routledge

"Ranging from pool hustling to pornography, this book analyzes deviant branches of American life, dispels misconceptions about them, and throws new light on sociological theory and method. Each chapter radically dissents from one or more mainstream opinions about deviance. The first chapter examines the alleged causes for the decline of American poolrooms and finds them wanting, traces the rise and fall of poolrooms to historical changes in America's social structure, and cogently dissects the recent poolroom revival. The second chapter, reports a field study of a deviant occupation, pool hustling, describing the hustler's work situation and career from recruitment to retirement. In revealing how pool hustlers, although dedicated wholly to a vocation that merely breaks unenforced gambling laws, frequently supplement their income by means of outright felonies, the author develops a new theory of "crime as

moonlighting." The third chapter sharply criticizes our criminology textbooks for avoiding the study of uncaught adult criminals in their natural environments. It demonstrates such research to be both necessary and practical with career felons as well as moonlighters. The author describes field techniques he has used with career felons, offers new findings gleaned by means of these techniques, and answers moral objections to such research. The fourth chapter presents the first genuinely empirical study of the beat delinquent sub-culture, in which the author corrects some journalistic views such as that most beats are exhibitionists and some sociological ones such as that "retreatist" drug-users can meet neither legitimate nor criminal success norms. The final chapter, on the sociology of pornography, holds that the courts are wrong to claim that naturalistic erotic art is non-pornographic, and wrong still to claim that hard-core pornography is, in Mr. Justice Brennan's words, "utterly without redeeming social importance."The author's unusual blend of"--
