RICH JORDAN

BUSINESS, RACE, AND POLITICS IN BRITISH INDIA, c.1850-1960

Springer

Sumantra Ghoshal on Management represents Ghoshal's twenty-year intellectual odyssey to challenge the underpinnings of management thought; to expose, rework and replace the foundation stones of management thinking. Exploring his key ideas, and reflecting his genius for collaboration along the way, this book shows how he had become a force for good in the world of management. The first book to bring all the key Ghoshal writings together in one place. When a guru is well known and respected collected guru works sell extremely well. Ghoshal was perhaps the foremost management theorist in Europe, and has an army of personal and professional admirers. Today's leading lights in management and strategy provide context and commentary. Introduction by Julian Birkinshaw, discusses Ghoshal's work as a whole and its relevance to today's business environment. Published on the anniversary of Ghoshal's death, this title will be timely and supported by a national PR campaign that is sure to grab attention. Ghoshal's works are well grounded in research but deeply applicable to the everyday working environment. AUDIENCE: Will sell well to academics and general business readers alike. Key audience categories: senior managers, consultants, academics and students. BENCHMARKS: The Essential Drucker, HarperCollins 2003. Maslow on Management, John Wiley 1998.

THE PORTFOLIO BOOK OF GREAT INDIAN BUSINESS STORIES

Mapin Publishing Pvt

This book is a full history of the automobile in India, and gives a complete study of India's automotive elite, The Maharajas, who purchased many exotic and exclusive cars from British, European, and American car makers mainly before their independence in 1947. Packed with interest and insight, there are 592 photos both period and contemporary, including the 1912 Brooke Swan (bodywork inspired by a swan). This book has been written by a leading expert Indian author who has meticulously studied the subject.

The Untold Story of the Family Behind the Jewelry Empire Bloomsbury Publishing

In order to do business effectively in contemporary South Asia, it is necessary to understand the culture, the ethos, and the region's new trading communities. In tracing the modern-day evolution of business communities in India, this book uses social history to systematically document and understand India's new entrepreneurial groups.

A THOUSAND YEARS OF CULINARY TRADITION

Zubaan

The Golden age of Indian industry, as it now seems in retrospect, lasted from 1951 to '62. and industrialists of the lime were not afraid to think ahead and plan big. Among the entrepreneurs who led this Industrial resurgence, four were particularly outstanding, G.D. Birla, Walchand Hirachand, Kasturbhai Lalbhai and, J.R.D. Tata. Gita Piramal, author of the acclaimed Business Maharajas, sensitively recreates the Lives and Times of these four titans of industry. She draws upon hitherto untapped sources of information to Sketch her profiles, making this perhaps the closest Look at these legends this fair. Thought provoking and incisive. Business Legends is a compelling Account of ambition and achievement.

India's New Capitalists Prestel Publishing

A colorful and revealing portrait of the rise of India's new billionaire class in a radically unequal society India is the world's largest democracy, with more than one billion people and an economy expanding faster than China's. But the rewards of this growth have been far from evenly shared, and the country's top 1% now own nearly 60% of its wealth. In megacities like Mumbai, where half the population live in slums, the extraordinary riches of India's new dynasties echo the Vanderbilts and Rockefellers of America's Gilded Age, funneling profits from huge conglomerates into lifestyles of conspicuous consumption. James Crabtree's The Billionaire Raj takes readers on a personal journey to meet these reclusive billionaires, fugitive tycoons, and shadowy political power brokers. From the sky terrace of the world's most expensive home to impoverished villages and mass political rallies, Crabtree dramatizes the battle between crony capitalists and economic reformers, revealing a tense

struggle between equality and privilege playing out against a combustible backdrop of aspiration, class, and caste. The Billionaire Raj is a vivid account of a divided society on the cusp of transformation—and a struggle that will shape not just India's future, but the world's.

BUSINESS SUTRA

Harlequin

This stunning book focuses on four centuries of magnificent jewelry that resulted from the cultural exchange between India and Europe. From the dawn of the Mughal Empire through the end of the British Raj, exquisite pieces of jewelry from or inspired by India traveled between Europe and Asia. This book features more than 150 objects, including jewel-encrusted jades, famous gemstones, enameled gold, and other precious works of art that range in date from the 17th century to the 1930s, along with exquisite contemporary examples by JAR and Baghat that draw from earlier motifs. Between the 16th and 19th centuries, Indian jewelry and works of art developed Persian and Muslim influences brought over by the Mughal Empire while European styles and craftsmanship traveled to India via the British Raj. As illustrated in this elegant book, 20th-century influences flowed in the opposite direction when Indian jewelry inspired European designers to make pieces in the Indian style. East Meets West also showcases the significant role that gender played, as Indian men adorned themselves with treasures worn exclusively by women in Europe. With fascinating essays and beautiful photographs, this book illustrates the cultural and artistic conversations that resulted in some of the most gorgeous jewelry ever created.

The Inside Story of India's Most Glamorous Royal Family Roli Books Private Limited

"Over the last two decades, many of India's leading companies have been achieving double-digit growth - even in the midst of a global recession. Understanding what is driving the Indian business juggernaut is an imperative no manager - in any part of the world - can afford to ignore." "In this timely book, professors Peter Cappelli, Harbir Singh, Jitendra Singh, and Michael Useem of the Wharton School India Team reveal the secrets of India's top-performing companies: an innovative, unconventional, and exportable set of management principles they call the "India Way." The authors argue that the India Way could have the same remarkable impact that Japanese business leaders and the "Toyota Way" had on manufacturing around the world: it could change the practice - and purpose - of management on a global scale." "Drawing on interviews with more than one hundred top executives from India's largest corporations - including Infosys Technologies, Reliance Industries, and Tata Sons - the authors reveal how the India Way differs from Western management practice in how organizations manage and value employees; transcend barriers through improvisation; create compelling value propositions that serve a massive, underprivileged market; govern for the long term; and make social issues a business priority. The authors identify how managers in other countries can learn from these practices and adapt them in their own companies."--BOOK JACKET.

Riveting Tales of Famous Business Leaders and Their Times Penguin UK

Life in the royal courts of India revolved around entertaining. The palace kitchens were allotted massive budgets to ensure the highest quality of cuisine. Each state had its unique style of entertaining and food traditions - carrying forward these culin

The Tears of the Rajas is a sweeping history of the British in India, seen through the experiences of a single Scottish family. For a century the Lows of Clatto survived mutiny, siege, debt and disease, everywhere from the heat of Madras to the Afghan snows. They lived through the most appalling atrocities and retaliated with some of their own. Each of their lives, remarkable in itself, contributes to the story of the whole fragile and imperilled, often shockingly oppressive and devious but now and then heroic and poignant enterprise. On the surface, John and Augusta Low and their relations may seem imperturbable, but in their letters and diaries they often reveal their loneliness and desperation and their doubts about what they are doing in India. The Lows are the family of the author's grandmother, and a recurring theme of the book is his own discovery of them and of those

parts of the history of the British in India which posterity has preferred to forget. The book brings to life not only the most dramatic incidents of their careers - the massacre at Vellore, the conquest of Java, the deposition of the boy-king of Oudh, the disasters in Afghanistan, the Reliefs of Lucknow and Chitral - but also their personal ordeals: the bankruptcies in Scotland and Calcutta, the plagues and fevers, the deaths of children and deaths in childbirth. And it brings to life too the unrepeatably strangeness of their lives: the camps and the palaces they lived in, the balls and the flirtations in the hill stations, and the hot slow rides through the dust. An epic saga of love, war, intrigue and treachery, *The Tears of the Rajas* is surely destined to become a classic of its kind.

"A dynamic group biography studded with design history and high-society dash . . . [This] elegantly wrought narrative bears the Cartier hallmark."--The Economist The captivating story of the family behind the Cartier empire and the three brothers who turned their grandfather's humble Parisian jewelry store into a global luxury icon--as told by a great-granddaughter with exclusive access to long-lost family archives "Ms. Cartier Brickell has done her grandfather proud."--The Wall Street Journal The Cartiers is the revealing tale of a jewelry dynasty--four generations, from revolutionary France to the 1970s. At its heart are the three Cartier brothers whose motto was "Never copy, only create" and who made their family firm internationally famous in the early days of the twentieth century, thanks to their unique and complementary talents: Louis, the visionary designer who created the first men's wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine; Pierre, the master dealmaker who bought the New York headquarters on Fifth Avenue for a double-stranded natural pearl necklace; and Jacques, the globe-trotting gemstone expert whose travels to India gave Cartier access to the world's best rubies, emeralds, and sapphires, inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell, whose great-grandfather was the youngest of the brothers, has traveled the world researching her family's history, tracking down those connected with her ancestors and discovering long-lost pieces of the puzzle along the way. Now she reveals never-before-told dramas, romances, intrigues, betrayals, and more. The Cartiers also offers a behind-the-scenes look at the firm's most iconic jewelry--the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces--and the long line of stars from the worlds of fashion, film, and royalty who wore them, from Indian maharajas and Russian grand duchesses to Wallis Simpson, Coco Chanel, and Elizabeth Taylor. Published in the two-hundredth anniversary year of the birth of the dynasty's founder, Louis-François Cartier, this book is a magnificent, definitive, epic social history shown through the deeply personal lens of one legendary family.

For corporate leaders, the challenge is to find new ways of doing things. *Smart Leadership: Insights for CEOs* presents twelve CEOs who have done just that, and set new benchmarks for growth and performance in their respective industry in the process. More outstandingly, whether it is Kumar Mangalam Birla, N.R. Narayana Murthy, Rahul Bajaj or K.V. Kamath, they have shown how such growth can be sustained, year after year, even as the business environment becomes, in the words of one CEO, 'ferociously competitive, rapidly changing and fluid' In this compact but insightful book, Gita Piramal and Jennifer Netarwala draw insights from these CEOs, heading companies as diverse as Lijjat papad to Tata Consultancy Services, on how they accomplished their goals in such a competitive environment, and what others can learn from them. They come up with lessons on some of the core aspects of leadership: decision-making, building teams, nurturing talent, managing change, and an unwavering focus on growth. Indian companies are today grappling with the challenge of moving up to the next level of competition?one where an organization has a demand for its product or service anywhere in the world. *Smart Leadership* offers practical tips on effecting that transformation for executives at all levels.

THE AUTOMOBILES OF THE MAHARAJAS

[Penguin Random House India Private Limited](#)

This is a study of the political and economic activities of an important group of British businessmen in India between 1850 and 1960. Though denounced by Indian nationalists as the economic arm of the British Raj, the firms of these 'Managing Agents' seemed unassailable before the First World War. However, during the inter-war period they rapidly lost their commanding position to both Indian and other foreign competitors. Dr Misra argues that the failure of these firms was, in part, the consequence of their particular (and ultimately self-defeating) attitudes towards business, politics, and race. She casts new light on British colonial society in India, and makes an important contribution to current debates on the nature of the British Empire and the causes of Britain's relative economic decline.

COOKING OF THE MAHARAJAS

[Penguin UK](#)

In this landmark book, bestselling author, leadership coach and mythologist Devdutt Pattanaik shows how, despite its veneer of objectivity, modern management is rooted in Western beliefs and obsessed with accomplishing rigid objectives and increasing shareholder value. By contrast, the Indian way of doing business, as apparent in Indian mythology but no longer seen in practice accommodates subjectivity and diversity and offers an inclusive, more empathetic way of achieving success. Great value is placed on darshan, that is, on how we see the world and our relationship with Lakshmi, the goddess of wealth. *Business Sutra* uses stories, symbols and rituals drawn from Hindu, Jain and Buddhist mythology to understand a wide variety of business situations that range from running a successful tea stall to nurturing talent in a large multinational corporation. At the heart of the book is a compelling premise: if we believe that wealth needs to be chased, the workplace becomes a rana-bhoomi - a battleground of investors, regulators, employers, employees, vendors, competitors and customers, if we believe that wealth needs to be attracted, the workplace becomes a ranga-bhoomi - a playground where everyone is happy.

[Forts & Palaces of India Haynes Publishing UK](#)

By 2018, India will be home to 3.58 lakh millionaires, doubling its tally from 1.5 lakh in 2013. In a country where risk is fast proving to be its own reward, a new cadre of wealth creators is building large fortunes at a breakneck pace. Not only do their successes mirror a bolder nation, they reflect new attitudes to generating, managing and leveraging wealth in a changing India. Gold biscuits, cash stuffed in mattresses and swathes of land are passé; aspirational India is no longer at the mercy of old conduits to more wealth. India is creating wealth differently and faster than any other economy in the world. This book chronicles the story of the country's new wealthy and the people helping them manage these riches. It also traces the journey of a young wealth management company that has in less than a decade become an industry frontrunner by building a business catering to the new wealthy. In a post-2008 world, the story of IIFL Wealth and its three founders is also a story of entrepreneurial dynamism in India. Much like the clients they service, these three are also riding a perfect storm of opportunity.

COOKING DELIGHTS OF THE MAHARAJAS

[Penguin UK](#)

What do Google, Snapchat, Tinder, Amazon, and Uber have in common, besides soaring market share? They're platforms - a new business model that has quietly become the only game in town, creating vast fortunes for its founders while dominating everyone's daily life. A platform, by definition, creates value by facilitating an exchange between two or more interdependent groups. So, rather than making things, they simply connect people. The Internet today is awash in platforms - Facebook is responsible for nearly 25 percent of total Web visits, and the Google platform crash in 2013 took about 40 percent of Internet traffic with it. Representing the ten most trafficked sites in the U.S., platforms are also prominent over the globe; in China, they hold the top eight spots in web traffic rankings. The advent of mobile computing and its ubiquitous connectivity have forever altered how we interact with each other, melding the digital and physical worlds and blurring distinctions between "offline" and "online." These platform giants are expanding their influence from the digital world to the whole economy. Yet, few people truly grasp the radical structural shifts of the last ten years. In *Modern Monopolies*, Alex Moazed and Nicholas L. Johnson tell the definitive story of what has changed, what it means for businesses today, and how managers, entrepreneurs, and business owners can adapt and thrive in this new era.

A Force for Good Harper Collins

| WINNER OF THE GAJA CAPITAL BUSINESS BOOK PRIZE 2019 | The nineteenth century was an exciting time of initiative and enterprise around the world. If John D. Rockefeller was creating unimaginable wealth in the United States that he would put to the service of the nation, a Parsi family with humble roots was doing the same in India. In 1822, a boy was born in a priestly household in Gujarat's Navsari village. Young Nusserwanji knew early on that his destiny lay beyond his village and decided to head for Bombay to start a business - the first in his family to do so. He had neither higher education nor knowledge of business matters, just a burning passion to carve a path of his own. What Nusserwanji started as a cotton trading venture, his son Jamsetji, born in the same year as Rockefeller, grew into a multifaceted business, turning around sick textile mills, setting up an iron and steel company, envisioning a cutting-edge institute of higher learning, building a world-class hotel, and earning himself the title of the 'Bhishma Pitamah of Indian Industry'. Stewarded ably over the decades by Jamsetji's sons Dorabji and Ratanji, the charismatic and larger-than-life JRD, and thereafter the more business-like Ratan, the Tata group today is a 110-billion-dollar empire. The Tatas is their story. But it is more than just a history of the industrial house; it is an inspiring account of India in the making. It chronicles how each generation of the family invested not only in the expansion of its own business interests but also in nation building. Few know, for instance, that the first hydel power project in the world was conceived of and built by the Tatas. Nor that some radical labour concepts such as eight-hour work shifts were born in India, at the Tata mill in Nagpur. The Tata Cancer Research Centre, the Indian Institute of Science, the Tata Institute of Fundamental Research, as also the national carrier Air India - the family has a long, rich and unrivalled legacy. The Tatas is a tribute to a line of visionaries who have a special place in the hearts and minds of ordinary Indians. Written by seasoned journalist Girish Kuber, this is also the only book that tells the complete Tata story spanning almost two hundred years.
